1. Insert the 2.4GHz USB receiver into an available USB port on your PC, PS5, or PS4. If your device uses a Type-C port, attach the Type-C adapter to the USB receiver first.
2. Power on the headset by pressing and holding the Power button.
3. Press the 'M' button twice to switch to 2.4GHz mode. The indicator light will confirm the connection.

2. Bluetooth 5.4 Connection (for mobile devices, laptops)

For Bluetooth connection, ensure your device has Bluetooth 5.4 or higher for optimal performance.

1. Power on the headset.
2. Press the 'M' button to switch to Bluetooth mode. The indicator light will blink, indicating pairing mode.
3. On your device, search for "MZYMI GT100" in the Bluetooth settings and select to pair.

3. Wired Connection (3.5mm Audio Cable)

For devices like Xbox Series consoles or when wireless is not preferred, use the included 3.5mm audio cable.

1. Connect one end of the Type-C to 3.5mm audio cable to the headset's Type-C port.
2. Connect the 3.5mm jack to your device's audio output (e.g., Xbox controller).
3. Note: The microphone may not be available when connected to Nintendo Switch via wired mode.

TROUBLESHOOTING

No Sound / Disconnection

- Ensure the headset is powered on and fully charged.
- For 2.4GHz mode, verify the USB receiver is properly inserted and the headset is in 2.4GHz mode (double-press 'M' button).
- For Bluetooth mode, ensure Bluetooth is enabled on your device and the headset is paired. Try re-pairing if

necessary.

- For wired mode, check the 3.5mm cable connection at both ends.
- Confirm audio output settings on your device are configured to the headset.

If using with Xbox, remember only wired mode is supported.

Microphone Not Working

- Ensure the microphone is pulled down and not retracted.
- Check microphone input settings on your device.
- Note: Microphone may not be available when connected to Nintendo Switch via wired mode.

Poor Sound Quality

- Ensure the headset is within range of the 2.4GHz receiver or Bluetooth device.
- Check for interference from other wireless devices.
- Adjust volume levels on both the headset and your device.

MAINTENANCE AND CARE

- Keep the headset clean and free of ear wax to maintain optimal sound performance.
- Use a soft, dry cloth to clean the headset. Avoid using chemical cleaners.
- Do not apply excessive pressure to the earcups or headband.
- Store in a cool, dry place when not in use.
