5. MAINTENANCE

To ensure the longevity of your building blocks set, follow these maintenance guidelines:

- **Cleaning:** Use a soft, damp cloth to gently wipe down the blocks. Avoid harsh chemicals or abrasive cleaners, as these can damage the plastic.
- **Storage:** Store the blocks in a cool, dry place away from direct sunlight to prevent discoloration and warping. Keep them in their original packaging or a dedicated storage container to prevent loss of small pieces.
- **Handling:** Handle the blocks with care. Avoid excessive force when assembling or disassembling to prevent breakage.

6. TROUBLESHOOTING

If you encounter any issues with your building blocks set, consider the following:

- **Missing Pieces:** Carefully check all packaging materials. If a piece is genuinely missing, contact customer support for assistance.
- **Loose Connections:** Ensure that blocks are pressed firmly together during assembly. Some connections may require a bit more pressure to secure properly.
- **Difficulty Assembling:** Refer to the included instruction manual. Double-check the step-by-step illustrations to ensure correct placement and orientation of each piece.
