4. SETUP

4.1 Charging the Headphones

Before first use, fully charge your headphones. Use the provided Type-C charging cable.

1. Connect the Type-C end of the charging cable to the headphone's charging port.
2. Connect the USB-A end to a compatible USB power adapter (not included) or a computer's USB port.
3. The LED indicator will show charging status (e.g., red for charging, blue/off for fully charged).

70 Hrs Playtime

Charge less.

Type-C Fast Charging

10 min = 8 hours
Charge Playtime

Image: The GOBOULT Soniq AirBass headphones connected to a Type-C charging cable, illustrating the fast charging capability.

A 10-minute charge provides approximately 8 hours of playtime. A full charge offers up to 70 hours of playtime.

4.2 Powering On/Off

- **Power On:** Press and hold the Power button for 3-5 seconds until the LED indicator flashes.
- **Power Off:** Press and hold the Power button for 3-5 seconds until the LED indicator turns off.

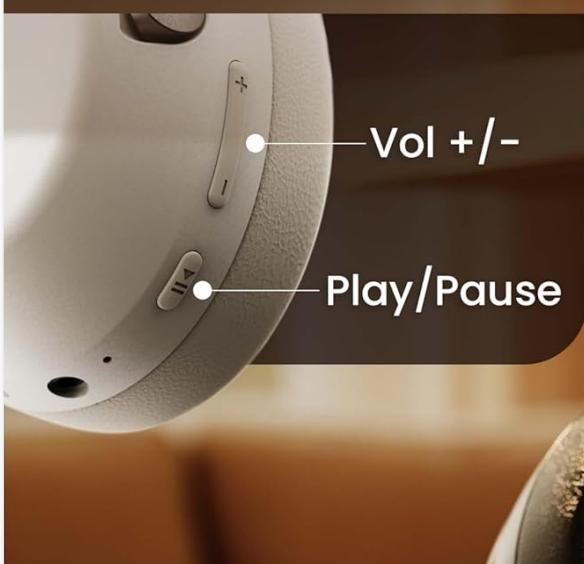

4.3 Bluetooth Pairing

The headphones support Bluetooth 5.4 for fast and stable connections.

1. Ensure the headphones are powered off.
2. Press and hold the Power button for approximately 5-7 seconds until the LED indicator flashes red and blue alternately, indicating pairing mode.
3. On your device (smartphone, tablet, laptop), enable Bluetooth and search for available devices.
4. Select "GOBOULT AirBass" from the list of devices.
5. Once connected, the LED indicator will flash blue slowly or turn solid blue.

Tactile Button Controls

Total control at your fingertips

Hassle-Free Convenience

Enriched User Experience

4.4 Dual Device Pairing

The headphones can connect to two devices simultaneously.

1. Pair the headphones with the first device as described in section 4.3.
2. Disable Bluetooth on the first device. The headphones will re-enter pairing mode.
3. Pair the headphones with the second device.
4. Re-enable Bluetooth on the first device. The headphones should automatically connect to both devices.
5. You can now switch audio playback between the two connected devices.

4.5 Wired Connection (AUX)

For a wired connection, use a 3.5mm audio cable (not included).

1. Connect one end of the 3.5mm audio cable to the AUX port on the headphones.
2. Connect the other end to the 3.5mm audio jack of your device.
3. The headphones will function in passive mode, even if powered off.

IPX5 Water Resistant

-  **Splash Proof**
-  **Rain Proof**
-  **Sweat Proof**

5. OPERATING INSTRUCTIONS

5.1 Basic Audio Controls

- Play/Pause:** Press the Multi-function button once.
- Volume Up:** Press the '+' button.
- Volume Down:** Press the '-' button.
- Next Track:** Press and hold the '+' button.
- Previous Track:** Press and hold the '-' button.

5.2 Call Management

The integrated Zen™ ENC Mic ensures clear communication by reducing environmental noise.

Zen™ ENC Mic

Processed Calling

|... Ambient Noise Isolation

 Enhanced Call Experience

 Sharper Voice Clarity

Environmental Noise Cancellation

Image: Close-up of the Zen™ ENC Microphone, highlighting its features for ambient noise isolation and enhanced call clarity.

- **Answer/End Call:** Press the Multi-function button once.
- **Reject Call:** Press and hold the Multi-function button for 2 seconds.
- **Redial Last Number:** Double-press the Multi-function button.

5.3 EQ Modes

Customize your audio experience with multiple EQ modes.

Image: The headphones with an overlay indicating different EQ modes like Game Mode and Music Mode, accessible via a single button press.

- Press the EQ Mode button to cycle through available sound profiles (e.g., Bass Boost, Balanced, Vocal, Gaming).

5.4 Voice Assistant

Activate your device's voice assistant (Siri, Google Assistant).

- Triple-press the Multi-function button to activate the voice assistant.

6. MAINTENANCE

6.1 Cleaning

- Wipe the headphones with a soft, dry cloth.
- Do not use harsh chemicals or abrasive materials.
- Clean ear cushions gently to remove any buildup.

6.2 Storage

- Store the headphones in a cool, dry place away from direct sunlight and extreme temperatures.
- Utilize the foldable design for compact storage when not in use.

6.3 Water Resistance

The headphones are IPX5 water resistant, meaning they are protected against low-pressure water jets from any direction. This includes splash, rain, and sweat resistance.

Image: The headphones displayed with icons indicating IPX5 water resistance, signifying splash, rain, and sweat proof capabilities.

Do not submerge the headphones in water or expose them to high-pressure water streams.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Headphones do not power on	Low battery	Charge the headphones fully.
Cannot pair with device	Headphones not in pairing mode; Bluetooth off on device; device too far	Ensure headphones are in pairing mode (flashing red/blue). Turn on Bluetooth on your device. Move device closer to headphones (within 10 meters).
No sound or low volume	Volume too low; incorrect audio output; headphones not connected	Increase headphone and device volume. Check Bluetooth connection. Ensure correct audio output is selected on your device.
Poor call quality	Microphone obstructed; environmental noise; weak signal	Ensure microphone is clear. Move to a quieter environment. Check Bluetooth connection stability.
Intermittent connection	Interference; device too far; low battery	Move away from sources of interference (Wi-Fi routers, other Bluetooth devices). Keep device within 10 meters. Charge headphones.
