3. SETUP

3.1 Unboxing and Initial Inspection

Carefully remove all components from the packaging. Inspect the karaoke machine and accessories for any signs of damage. Ensure all listed items in the 'What's Included' section are present.

3.2 Initial Charging

Before first use, fully charge the karaoke machine using the provided power adapter. Connect the adapter to the DC

12V IN port on the control panel and plug it into a power outlet. The charging indicator will illuminate.

3.3 Microphone Setup

The wireless UHF microphones come with rechargeable batteries. To activate a microphone, press and hold the power button on the microphone. The microphone will automatically pair with the karaoke machine. Ensure microphones are charged via their Type-C ports when low on battery.

3.4 Network Connectivity

To access online content, connect the machine to a Wi-Fi network. Navigate to 'Settings' on the touch screen, then 'Network & Internet', and select your preferred Wi-Fi network. The device supports both 2.4GHz and 5GHz Wi-Fi for stable streaming.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

To power on the machine, locate the red 'POWER' switch on the control panel and toggle it to the 'ON' position. To power off, toggle the switch to 'OFF'.

4.2 Using the Touch Screen

The 14.1-inch full-touch display operates on an Android OS. You can navigate through applications like YouTube, Spotify, Apple Music, and Chrome directly from the home screen. Use the 'Play Store' to download additional apps.

4.3 Microphone Functions

The control panel features dedicated knobs for microphone volume, bass, treble, echo, and delay. Adjust these to customize your vocal output. The 'Magic' button allows for voice effects (e.g., chipmunk, monster voice).

4.4 Media Playback

Utilize the pre-installed apps like YouTube and Spotify for streaming karaoke songs and music. Local media files can be played via the 'MediaPlayer' app, supporting USB drives or TF cards inserted into the respective ports.

4.5 External Connections

The machine supports HDMI output for screen projection to an external TV or monitor. Connect external devices like guitars via the GT.IN port or headphones via the HEADSET port for private monitoring.

5. MAINTENANCE

5.1 Cleaning

Wipe the exterior of the machine and screen with a soft, dry cloth. Avoid using abrasive cleaners or solvents. For the microphone grilles, use a soft brush to gently remove any debris.

5.2 Battery Care

To prolong battery life, avoid fully discharging the machine frequently. Store the machine in a cool, dry place when not in use for extended periods. Recharge the battery periodically if stored for a long time.

6. TROUBLESHOOTING

6.1 No Sound Output

- Check if the master volume is turned up.
- Ensure microphones are powered on and paired.
- Verify external audio sources are correctly connected and playing.

6.2 Microphone Feedback

- Lower the microphone volume.
- Adjust the mic treble, echo, and delay settings on the control panel.
- Ensure microphones are not too close to the speaker.

6.3 Wi-Fi Connectivity Issues

- Check if the Wi-Fi is enabled in the settings.
- Ensure the machine is within range of your Wi-Fi router.
- Restart the machine and your Wi-Fi router.

7. SPECIFICATIONS
