Silonn Nugget Ice Maker Countertop

Silonn Nugget Ice Maker Countertop User Manual

Model: Nugget Ice Maker Countertop | Brand: Silonn

PRODUCT OVERVIEW

The Silonn Nugget Ice Maker is designed for countertop use, producing chewable nugget ice efficiently. It features a front pull-out water tank and a removable ice basket for ease of use and maintenance. This machine is capable of producing up to 44 lbs of ice per day, with the first batch ready in approximately 10 minutes. Its compact design and intuitive LED controls make it a convenient addition to any home or kitchen.

WHAT'S IN THE BOX

- Pull-Out Water Tank
- Removable Ice Basket
- Ice Scoop
- User Manual (this document)

SETUP GUIDE

1. **Unpacking:** Carefully remove the ice maker and all accessories from the packaging. Retain packaging for future transport or storage.
2. **Placement:** Place the ice maker on a stable, level surface away from direct sunlight and heat sources. Ensure adequate ventilation around the unit.
3. **Initial Cleaning:** Before first use, clean the interior of the ice maker, including the water tank and ice basket, with a mild

detergent and warm water. Rinse thoroughly.

4. **Fill Water Tank:** Pull out the front water reservoir and fill it with potable water up to the MAX fill line. Ensure the tank is securely pushed back into place.
5. **Power Connection:** Plug the ice maker into a grounded electrical outlet.

Image: Demonstrates the easy filling process by pulling out the water tank.

1. **Power On:** Press the **ON/OFF** button on the control panel to turn on the ice maker. The "Making ice" indicator will illuminate.
2. **Ice Production:** The machine will begin producing nugget ice. The first batch typically takes about 10 minutes.
3. **Monitoring Status:**
 - **Making ice:** White light indicates ice production is active.
 - **Ice basket full:** Green light indicates the ice basket is full. The machine will pause production until ice is removed.
 - **Water tank empty:** Red light indicates the water tank needs refilling. The machine will pause production.
 - **Self-cleaning:** Blue light indicates the self-cleaning cycle is active.
4. **Dispensing Ice:** Open the front door and use the provided ice scoop to retrieve ice from the removable basket.
5. **Power Off:** Press the **ON/OFF** button again to turn off the ice maker.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the lifespan of your ice maker.

Self-Cleaning Cycle

1. Ensure the water tank is filled.
2. Press and hold the **CLEAN** button for 5 seconds to activate the self-cleaning cycle. The blue light will illuminate.
3. The cycle will run automatically, circulating water through the system.
4. Once complete, drain any remaining water from the unit.

Manual Cleaning

- The removable ice basket and pull-out water tank are dishwasher-safe for convenient cleaning.
- Wipe down the exterior with a soft, damp cloth.
- For thorough cleaning, periodically remove the ice basket and water tank and clean the interior surfaces with a mild detergent solution. Rinse thoroughly with clean water.

Descaling (Hard Water Areas)

If you live in an area with hard water, mineral buildup can affect ice quality and machine performance. Descale your ice maker regularly:

- **Moderately Hard Water:** Descale once a month.
- **Hard to Very Hard Water:** Descale every two or three weeks.

Use a descaling solution specifically designed for ice makers or a mixture of water and white vinegar (refer to the full user manual for specific ratios). Follow the descaling product's instructions or run the self-cleaning cycle with the descaling solution, then rinse thoroughly by running several cycles with fresh water.

SELF-CLEANING

Maintain Your Ice Maker with Ease

Press and Hold for **5s**

TROUBLESHOOTING

If you encounter issues with your Silonn Nugget Ice Maker, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No ice production / Machine not turning on	No power; Water tank empty; Ice basket full.	Check power connection; Refill water tank; Empty ice basket.
Ice tastes strange / Unpleasant odor	Unit needs cleaning; Stale water.	Perform self-cleaning cycle; Clean thoroughly manually; Use fresh, potable water.
Ice melts quickly	Ambient temperature too high; Ice basket not insulated.	Ensure unit is in a cool environment; Transfer ice to a freezer for long-term storage.
Machine is noisy	Normal operation sounds (compressor, water pump); Unit not level.	Ensure unit is on a stable, level surface. Some operational noise is normal.

For more detailed troubleshooting or issues not listed here, please refer to the complete user manual or contact Silonn customer support.

SPECIFICATIONS
