KOPIDOE B20

KOPIDOE Bone Conduction Headphones Model B20 User Manual

Model: B20

1. Product Overview

The KOPIDOE Bone Conduction Headphones Model B20 utilize Open-Ear Wireless (OWS) technology to transmit sound through bone vibrations, allowing users to remain aware of their surroundings. These headphones are designed for comfort and stability during various activities.

Key Features:

- **OWS True Bone Conduction:** Sound transmission via temporal bone vibrations, keeping ears open.
- **Ultra-Lightweight Design:** Each earbud weighs approximately 0.8g, crafted with memory titanium alloy and skin-friendly silicone.
- **IPX5 Sweat-Resistant:** Protection against sweat and splashes, suitable for sports.
- **Bluetooth 5.4:** Provides stable and fast wireless connectivity up to 10 meters.
- **Intuitive Touch Controls:** Easy management of music playback, calls, and voice assistant.
- **Long Battery Life:** Up to 6 hours of playback per earbud, with an additional 18 hours from the charging case (total 24 hours).

2. Setup

2.1 What's in the Box

- KOPIDOE Bone Conduction Headphones (Left and Right)
- Charging Case
- USB-C Charging Cable
- User Manual

2.2 Charging the Headphones

Before first use, fully charge the headphones and charging case. Connect the provided USB-C charging cable to the charging port on the case and a power source. The indicator light on the case will show charging status. A full charge typically takes approximately 2 hours.

Your browser does not support the video tag.

2.3 Wearing the Headphones

For optimal sound and comfort, ensure the headphones are worn correctly. The ergonomic ear hook design provides a secure fit.

1. Take out the earphones from the charging case.
2. Hang the end of the earphones on your ear bone.
3. Turn the earphones and slide them behind your ear.
4. Adjust the ear hook and pull it down for a secure fit.

2.4 Pairing with a Device

The headphones use Bluetooth 5.4 for wireless connection. Follow these steps to pair them with your mobile phone, tablet, or other Bluetooth-enabled device:

1. Take the earbuds from the charging case. They will automatically enter pairing mode.
2. On your device, go to Bluetooth settings and ensure Bluetooth is enabled.
3. Search for available devices and select "BoneSport" from the list to connect.

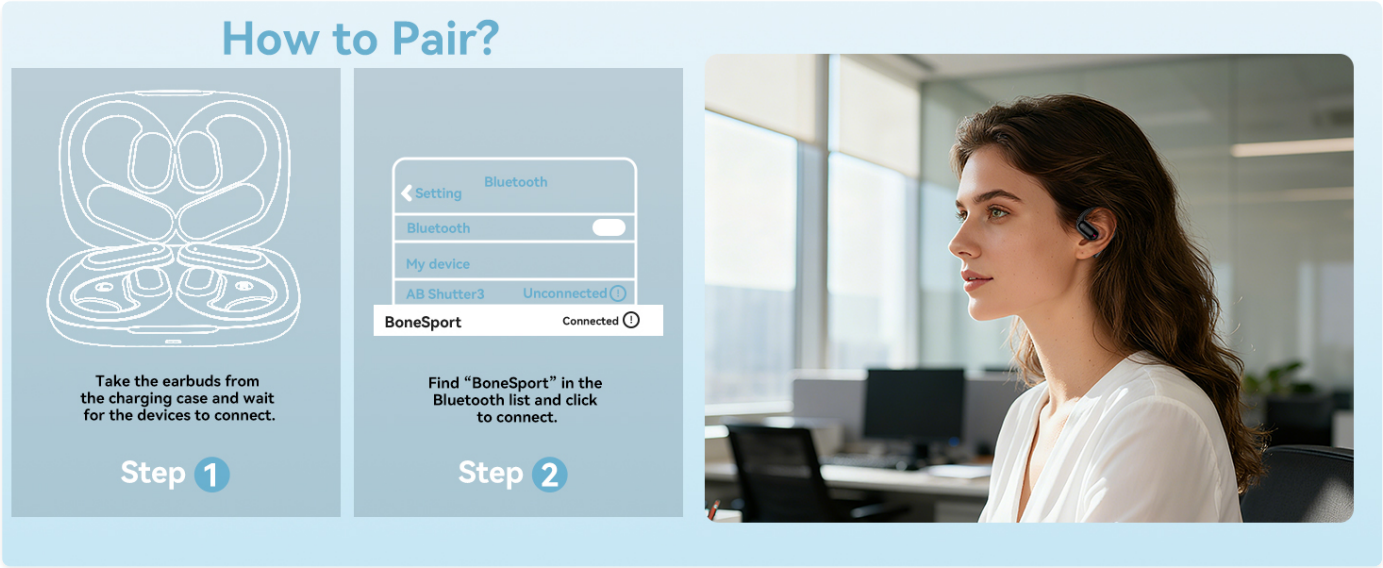

Image 2.2: Instructions for Bluetooth pairing.

3. Operating Instructions

The KOPIDOE Bone Conduction Headphones feature intuitive touch controls on each earbud.

3.1 Power On/Off

- **Power On:** Take the earbuds out of the charging case. They will power on automatically.
- **Power Off:** Place the earbuds back into the charging case. They will power off automatically and begin charging.

3.2 Music and Call Control

Use the touch-sensitive area on the earbuds to control various functions:

Action	Control
Play/Pause Music	Touch twice (L/R Earbud)
Next Track	Long press for 2s (Right Earbud)
Previous Track	Long press for 2s (Left Earbud)
Volume Up	Touch once (Right Earbud)
Volume Down	Touch once (Left Earbud)
Answer Call	Touch once (L/R Earbud)
End Call	Touch twice (L/R Earbud)
Reject Call	Long press for 2.5s (L/R Earbud)
Activate Voice Assistant (Siri)	Touch three times (L/R Earbud)

Action	Control
Game Mode	Touch four times (L/R Earbud)

4. Maintenance

4.1 Cleaning

Regular cleaning helps maintain the performance and longevity of your headphones. Use a soft, dry, lint-free cloth to wipe the earbuds and charging case. Avoid using abrasive materials or harsh chemicals.

4.2 Water Resistance (IPX5)

The headphones are rated IPX5 water-resistant, meaning they can withstand sweat and splashes. However, they are**not** designed for underwater use. To prevent damage, avoid direct rinsing, submerging them in water, or wearing them in the shower.

Image 4.1: The headphones are IPX5 water-resistant, suitable for workouts.

4.3 Storage

When not in use, store the headphones in their charging case to protect them from dust and damage. Store in a cool, dry place away from extreme temperatures.

5. Troubleshooting

If you encounter issues with your KOPIDOE Bone Conduction Headphones, refer to the following common solutions:

- **No Power:** Ensure the earbuds and charging case are fully charged.
- **Cannot Pair:** Make sure Bluetooth is enabled on your device and the headphones are in pairing mode. Try turning Bluetooth off and on again on your device, or restarting both devices.
- **No Sound:** Check the volume levels on both your device and the headphones. Ensure the headphones are properly connected to your device.
- **Intermittent Connection:** Move closer to your paired device to ensure you are within the 10-meter Bluetooth range. Avoid

obstacles that may interfere with the signal.

- **Unresponsive Touch Controls:** Ensure your fingers are clean and dry. A soft reset (placing earbuds back in case and taking them out) may resolve minor glitches.

If the problem persists, please contact KOPIDOE customer support for further assistance.
