

FYHXeLe 27-1K-180Hz

FYHXeLe 27-inch 1K-180Hz Pink Curved Gaming Monitor User Manual

Model: 27-1K-180Hz

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation of your FYHXeLe 27-inch 1K-180Hz Pink Curved Gaming Monitor. Please read it thoroughly before using the product and retain it for future reference.

2. SAFETY INFORMATION

- Ensure the monitor is placed on a stable, flat surface to prevent accidental falls.
- Do not expose the monitor to water or excessive moisture.
- Avoid blocking ventilation openings to prevent overheating.
- Use only the power adapter provided with the monitor.
- Disconnect the power cable during lightning storms or when unused for extended periods.
- Do not attempt to repair the monitor yourself. Refer all servicing to qualified personnel.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- FYHXeLe 27-inch Curved Gaming Monitor
- Power Adapter and Cable
- HDMI Cable
- DisplayPort (DP) Cable
- USB Cable
- Quick Installation Guide
- Screws and L-wrench for assembly
- Optional Cat Ears accessory

4. SETUP

4.1 Assembling the Stand

1. Carefully remove the monitor from its packaging.
2. Attach the stand base to the stand neck using the provided screws.
3. Secure the assembled stand to the back of the monitor.

4.2 VESA Wall Mount Installation

The monitor supports VESA mounting (100mm x 100mm). Follow the instructions provided with your VESA mount kit for installation. Ensure the mount can support the monitor's weight (3.2 ounces).

Figure 4.1: VESA Mount Compatibility

4.3 Connecting Cables

Connect the necessary cables to the monitor's ports:

- **Power:** Connect the power adapter to the monitor and then to a power outlet.
- **Video Input:** Use either an HDMI or DisplayPort cable to connect the monitor to your computer or gaming console.
- **USB:** Connect the USB cable for additional peripheral connectivity.
- **Audio Out:** Connect headphones or external speakers to the 3.5mm audio jack.

5. OPERATING INSTRUCTIONS

5.1 Powering On/Off

Press the power button located on the monitor to turn it on or off. The power indicator light will illuminate when the monitor is on.

5.2 On-Screen Display (OSD) Menu Navigation

The monitor features a diffuse button for navigating the OSD menu. Press the button to access the menu and use it to select and adjust settings. Refer to the Quick Installation Guide for detailed OSD menu navigation instructions.

6. DISPLAY SETTINGS

6.1 Refresh Rate and Response Time

This monitor supports a 165Hz refresh rate and 1ms response time for smooth visual performance.

Figure 6.1: 165Hz Refresh Rate for Ultra-Smooth Gameplay

6.2 Curved Display

The 1800R curvature provides an immersive viewing experience.

1800R Curved Monitor

With 1800R curvature and 178° viewing angle, you can get a color-free view at any angle

Figure 6.2: 1800R Curved Monitor for Immersive Viewing

6.3 Color Quality

The monitor features a VA panel with 100% sRGB, delivering vibrant and accurate colors.

Vibrant Colors with 100% sRGB

100% sRGB color gamut delivers richer, finer shades and uniform appearance

Figure 6.3: Vibrant Colors with 100% sRGB

6.4 FreeSync Technology

FreeSync compatibility helps eliminate screen tearing, flickering, and stuttering for a smoother visual experience.

FreeSync technology

Eliminate screen tearing, flickering and stuttering

Figure 6.4: FreeSync Technology for Smooth Visuals

6.5 Blue Light Reduction

The monitor includes a blue light reduction feature to protect your eyes and reduce fatigue during prolonged use.

7. MAINTENANCE

- **Cleaning the Screen:** Gently wipe the screen with a soft, lint-free cloth. For stubborn marks, use a monitor-specific cleaning solution applied to the cloth, not directly to the screen.
- **Cleaning the Casing:** Use a soft, dry cloth to clean the monitor casing. Avoid abrasive cleaners.
- **Storage:** If storing the monitor for an extended period, place it in its original packaging or a protective cover in a cool, dry place.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No image on screen / "No Signal" message	Incorrect input source selected or loose cable connection.	Ensure video cables (HDMI/DP) are securely connected. Select the correct input source via the OSD menu.
Power indicator off	Monitor is off or power cable is disconnected.	Press the power button. Check if the power cable and adapter are securely connected to the monitor and power outlet.
Screen flickering or distorted image	Incorrect resolution/refresh rate, faulty cable, or FreeSync issue.	Adjust resolution/refresh rate in your computer's display settings. Try a different video cable. Ensure FreeSync is enabled/disabled as needed in OSD.
Buttons not responding	Temporary software glitch or physical button issue.	Power cycle the monitor (unplug and replug). If the issue persists, contact customer support.
No audio from monitor speakers/headphone jack	Audio settings incorrect or external speakers/headphones not connected properly.	Check audio output settings on your computer/console. Ensure headphones/speakers are fully plugged into the monitor's audio out port. Adjust monitor volume via OSD.
