Maintenance

To ensure the longevity and optimal performance of your HQU bed frame, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the metal surfaces with a dry cloth to remove dust and debris. Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Hardware Check:** Periodically inspect all bolts and connections to ensure they remain tight. Re-tighten any loose hardware to maintain stability and prevent noise.
- **Weight Distribution:** Distribute weight evenly across the bed frame to prevent undue stress on specific areas.
