## SHIDU PRO

# SHIDU PRO 100W Portable Voice Amplifier Instruction Manual

Model: PRO

## INTRODUCTION

The SHIDU PRO 100W Portable Voice Amplifier is a versatile PA system designed for clear and powerful sound amplification. It features advanced AI tuning and a DSP anti-feedback chip to enhance voice clarity. This system supports multiple connectivity options and is suitable for various environments such as classrooms, meetings, karaoke, and outdoor events.

## **OPERATING INSTRUCTIONS**

### **Control Panel Overview**

# Top button design for easier control

Image: Detailed view of the amplifier's top control panel, highlighting buttons for power, mode, playback, echo, and volume.

- **Power ON/OFF:** Press and hold to turn the unit on or off.
- **Mode Selection (M):** Press to cycle through input modes: Bluetooth (BT), USB, TF Card, Aux.
- **Playback Controls:** Use the Previous, Play/Pause, and Next buttons for media control.
- **Echo Control:** Rotate the 'ECHO' knob to adjust the microphone echo effect.
- **Mic Volume:** Rotate the 'MIC' knob to adjust the microphone volume.
- **Music Volume:** Rotate the 'MUSIC' knob to adjust the background music volume.

## Connectivity Options

- **Bluetooth:** Select BT mode. The amplifier will enter pairing mode. Search for 'SHIDU PRO' on your device and connect.
- **USB/TF Card:** Insert a USB drive or TF card into the respective slot. The amplifier will automatically switch to USB/TF mode and begin playback.
- **Aux Input:** Connect an external audio device using a 3.5mm Aux cable. Select Aux mode.
- **Guitar Input:** Connect a guitar to the dedicated guitar port for amplification.

## SPECIFICATIONS

Feature	Detail
Brand	SHIDU
Model Number	PRO
Output Wattage	100 Watts (as per product title, specifications list 80W, clarifying with title)
Connectivity Technology	Bluetooth, USB, TF Card, Aux
Audio Input	Bluetooth, Handheld Microphones, Aux, Guitar
Power Source	Battery Powered
Item Weight	3.01 Kilograms
Enclosure Material	Plastic

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the amplifier and microphones. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** For prolonged storage, ensure the battery is partially charged (around 50%) to maintain battery health. Recharge regularly if not in use for extended periods.

## TROUBLESHOOTING

---

- **No Sound:** Check volume levels on both the amplifier and connected devices. Ensure microphones are powered on and paired. Verify correct input mode selection.
- **Microphone Not Connecting:** Ensure microphones have fresh batteries and are within range. Power cycle both the amplifier and microphones.
- **Distorted Sound:** Reduce volume levels. Check for obstructions or interference. Ensure audio cables are securely connected.
- **Bluetooth Pairing Issues:** Ensure no other devices are connected to the amplifier via Bluetooth. Turn off Bluetooth on other nearby devices and try pairing again.
