## 2. WHAT'S IN THE BOX

Your Lava Storm Lite 5G package includes the following items:

- Lava Storm Lite 5G Smartphone
- Power Adapter
- USB Cable
- SIM Tray Ejector
- Phone Case

## 3. SETUP GUIDE

### 3.1 Inserting SIM Card and SD Card

1. Locate the SIM tray on the side of your phone.
2. Insert the SIM tray ejector tool into the small hole next to the tray and push gently until the tray pops out.
3. Place your Nano SIM card(s) and/or microSD card (if applicable) into the designated slots on the tray. Ensure the gold contacts face downwards.
4. Carefully reinsert the tray into the phone until it clicks into place.

### 3.2 Initial Power On and Setup

1. Press and hold the Power button (located on the side) until the Lava logo appears.
2. Follow the on-screen instructions to select your language, connect to a Wi-Fi network, and set up your Google account.
3. Configure security settings such as PIN, pattern, password, and fingerprint unlock.

### 3.3 Charging the Device

Connect the USB cable to the phone's USB Type-C port and the power adapter. Plug the adapter into a wall outlet. The phone supports 18W fast charging. It is recommended to fully charge the device before first use.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Power On/Off and Restart

- **Power On:** Press and hold the Power button until the device vibrates and the Lava logo appears.
- **Power Off:** Press and hold the Power button, then select 'Power off' from the options.
- **Restart:** Press and hold the Power button, then select 'Restart' from the options.

### 4.2 Display and Navigation

The Lava Storm Lite 5G features a 6.745-inch HD+ display with a 120Hz refresh rate for smooth scrolling and responsive touch. Navigate using on-screen gestures or the traditional navigation bar.

## 4.4 Performance and Storage

Powered by the MediaTek Dimensity 6400 processor, the device offers efficient performance. It comes with 4GB RAM (expandable with 4GB virtual RAM) and 128GB internal storage, which can be expanded further via microSD card.

Image: Depiction of the MediaTek Dimensity 6400 processor chip, emphasizing its role in the phone's performance.

## 4.5 Battery Management

The 5000mAh battery provides extended usage. To optimize battery life, adjust screen brightness, close unused apps, and enable power-saving modes when needed. Use the provided 18W fast charger for quick recharging.

## 4.6 Security Features

Unlock your device securely using the side-mounted fingerprint sensor or facial recognition. Set up a strong PIN, pattern, or password for additional security.

## 4.7 Connectivity

The Lava Storm Lite 5G supports all major Indian 5G bands, ensuring fast and reliable network connectivity. It also includes Wi-Fi, Bluetooth, and USB Type-C for versatile connections.

## 5. MAINTENANCE

---

### 5.1 Cleaning Your Device

Use a soft, lint-free cloth to clean the screen and body of your phone. Avoid using harsh chemicals or abrasive materials that could damage the finish.

### 5.2 Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. Go to **Settings > System > System update**.

### 5.3 Water and Dust Resistance

The Lava Storm Lite 5G is IP64 rated for dust and water resistance. This means it is protected against dust ingress and splashing water from any direction. However, it is not waterproof and should not be submerged in water.

## 6. TROUBLESHOOTING

If you encounter issues with your device, try the following common troubleshooting steps:

- **Device Not Responding:** Press and hold the Power button for about 10-15 seconds to force a restart.
- **Battery Draining Quickly:** Check background app usage, reduce screen brightness, and disable unnecessary features like GPS or Bluetooth when not in use.
- **Network Connectivity Issues:** Ensure your SIM card is properly inserted. Try toggling Airplane Mode on and off. If the issue persists, contact your network provider.
- **App Crashing:** Clear the app's cache (Settings > Apps > [App Name] > Storage > Clear cache) or reinstall the app.
- **Slow Performance:** Close unused apps, clear cache, and ensure sufficient storage space. Consider a factory reset as a last resort (back up your data first).

## 7. SPECIFICATIONS
