## MAINTENANCE

- **Cleaning the Screen:** Gently wipe the screen with a soft, lint-free cloth. For stubborn marks, use a screen cleaner specifically designed for TVs, applied to the cloth, not directly to the screen.
- **Cleaning the Cabinet:** Use a soft, dry cloth to wipe the TV cabinet. Avoid using abrasive cleaners or solvents.
- **Ventilation:** Ensure the TV's ventilation openings are not blocked to prevent overheating.
- **Power Cord:** Regularly check the power cord for any damage. If damaged, contact customer support for replacement.

## TROUBLESHOOTING

Before contacting customer support, try the following solutions for common issues:

| Problem | Possible Solution |
| --- | --- |

| Problem | Possible Solution |
|---|---|
| No power / TV does not turn on. | Ensure the power cable is securely connected to both the TV and the power outlet. Check if the power outlet is working by plugging in another device. Press the power button on the TV itself, not just the remote. |
| No picture, but sound is present. | Check the input source. Press the "Input" button on the remote to cycle through sources. Ensure external devices (e.g., cable box) are powered on and connected correctly. Try a different HDMI cable. |
| No sound, but picture is present. | Increase the volume. Check if the TV is muted. Verify audio settings in the TV menu. If using external audio system, ensure it is powered on and connected correctly. |
| Remote control not working. | Replace the batteries with new ones, ensuring correct polarity. Ensure there are no obstructions between the remote and the TV's IR sensor. |
| TV turns on for a few seconds then shuts off. | Unplug the TV from the power outlet for 5 minutes, then plug it back in. Ensure proper ventilation around the TV to prevent overheating. If the issue persists, contact customer support. |
