LEVONA SCENT Lavanda 2000

Levona Scent Lavanda 2000 HVAC Diffuser Instruction Manual

Model: Lavanda 2000

1. OVERVIEW

The Levona Scent Lavanda 2000 is an advanced aroma diffuser designed for large spaces, offering coverage up to 6000 sq. ft. This versatile machine can function as a standalone unit or be integrated into an existing HVAC system for widespread scent distribution. It features smart control capabilities via a dedicated mobile application, allowing for precise customization of scent intensity and scheduling. The diffuser employs cold air diffusion (nebulizing) technology, which releases fragrance without the need for water or heat, ensuring a pure and consistent aroma experience.

2. SAFETY INFORMATION

Please read all safety instructions carefully before operating the device to prevent injury or damage.

- **Electrical Safety:** Ensure the power adapter and outlet meet the device's specifications. Do not operate with a damaged power cord or plug. Keep the unit away from water or excessive moisture.
- **Essential Oil Handling:** Use only Levona Scent essential oils designed for this diffuser. Avoid direct contact of oils with skin or eyes. In case of contact, rinse thoroughly with water. Keep essential oils out of reach of children and pets.
- **Placement:** Place the diffuser on a stable, level surface. Ensure adequate ventilation around the unit. Do not block the scent output nozzle.
- **Maintenance:** Unplug the device before cleaning or performing any maintenance.

3. PRODUCT COMPONENTS

The Levona Scent Lavanda 2000 package typically includes the following items:

- Lavanda 2000 Diffuser Unit
- Power Adapter
- Key for oil compartment
- HVAC connection kit (for HVAC integration)
- User Manual

Note: Essential scent oils are sold separately and are not included with the diffuser unit.

4. SETUP

4.1 Standalone Placement

1. Place the Lavanda 2000 unit on a flat, stable surface in your desired area. Ensure there is sufficient space around the unit for proper air circulation.
2. Connect the power adapter to the diffuser unit and then plug it into a standard electrical outlet.

4.2 HVAC Connection

For integration with your HVAC system, professional installation is recommended. Refer to the detailed installation video for guidance:

including HVAC integration.

4.3 Oil Bottle Installation

1. Use the provided key to unlock and open the oil compartment on the diffuser unit.
2. Carefully insert a 700ml Levona Scent essential oil bottle into the designated slot. Ensure the bottle is securely seated and the wicking tube is properly submerged in the oil.
3. Close and lock the oil compartment.

5. OPERATING THE DIFFUSER

5.1 Initial Power On

Once the unit is plugged in and the oil bottle is installed, the diffuser will power on. The LCD display will illuminate.

5.2 LCD Panel Control

Use the BACK, ENT (Enter), and arrow buttons (UP/DOWN) on the control panel to navigate through the menu and adjust basic settings directly on the device. This includes setting the current time, working periods, and scent intensity.

**REFILL WITH LEVONA'S
SCENT LIBRARY**

Levona's Essential Oils are designed with a neck that fits seamlessly into the diffusers, Levona's 750 ml essential oil bottles are the perfect fit for the Lavanda 2000. No need to start transferring your oils into new containers! And, there is no container to wash out when the oil is used up; simply toss the bottle and insert a new one in its place!

5.3 Aroma-Link App Control

For advanced control and scheduling, download and use the official Aroma-Link app:

1. Download the "Aroma-Link" app from the Apple App Store or Google Play Store.
2. Open the app and follow the on-screen instructions to register an account and pair your Lavanda 2000 diffuser via WiFi or Bluetooth. Ensure your mobile device is connected to a 2.4G WiFi network during setup, as the device supports 2.4G only.
3. Through the app, you can:
 - Turn the diffuser On/Off remotely.
 - Adjust fragrance concentration levels with fine precision.
 - Set custom working schedules and frequency for different days or times.
 - Enable password protection for device settings.

6. MAINTENANCE

6.1 Refilling Scent Oil

The Lavanda 2000 is designed for easy and mess-free refills using Levona Scent's 700ml essential oil bottles.

1. When the oil level is low, unlock and open the oil compartment.
2. Remove the empty 700ml Levona Scent essential oil bottle.
3. Insert a new, full 700ml Levona Scent essential oil bottle. The bottles are designed to fit perfectly, eliminating the need for messy transfers or cleaning.
4. Close and lock the oil compartment.

6.2 Cleaning

Regular cleaning helps maintain the diffuser's performance and appearance.

- Wipe the exterior of the diffuser with a soft, dry cloth.
- Do not use abrasive cleaners, solvents, or allow water to enter the internal components.
- If the nebulizer nozzle appears clogged or if scent output is significantly reduced despite a full oil bottle and correct settings, contact customer support for assistance.

7. TROUBLESHOOTING

If you encounter issues with your Lavanda 2000 diffuser, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No scent or weak scent output	Oil bottle empty or incorrectly installed; low scent concentration setting; HVAC system off (if connected); clogged nebulizer nozzle.	Check oil level and installation. Increase scent concentration via app or LCD. Ensure HVAC is running. Contact support if nozzle is clogged.
Unit not turning on	Power adapter disconnected; faulty power outlet.	Verify power adapter connection. Test outlet with another device.
Unusual or excessive noise	Unit not on a stable surface; oil bottle not seated correctly; internal component issue.	Ensure unit is on a stable surface. Re-seat oil bottle. A slight hum is normal. If noise persists, contact customer support.
App connectivity issues	Incorrect WiFi band; temporary network issue; app error.	Ensure phone is on 2.4G WiFi. Restart diffuser and phone. Re-attempt pairing in the Aroma-Link app.

8. SPECIFICATIONS

Feature	Detail
Brand	LEVONA SCENT
