1. INTRODUCTION

Welcome to the GOBOULT Pyro Smartwatch user manual. This guide provides essential information for setting up, operating, and maintaining your new smartwatch. The GOBOULT Pyro combines advanced technology with a sleek design, offering features such as a vibrant AMOLED display, Bluetooth calling, comprehensive health monitoring, and various sports modes.

Please read this manual thoroughly to ensure proper use and to maximize your experience with the device.

2. KEY FEATURES

The GOBOULT Pyro Smartwatch is equipped with a range of features designed to enhance your daily life and fitness routine:

- **1.43" AMOLED Display:** Enjoy an ultra-clear and vibrant display with 600 nits brightness and Always-On Display functionality.
- **Rotating Dial Navigation:** Effortlessly browse menus and switch between applications.
- **Bluetooth Calling 5.3:** Make and receive calls directly from your wrist with enhanced audio quality.
- **IP68 Water & Dust Resistance:** Designed to withstand dust, sweat, and water immersion.
- **150+ Cloud-Based Watch Faces:** Personalize your smartwatch to match your style.
- **120+ Sports Modes:** Track various fitness activities with real-time insights.
- **AI Voice Assistant:** Control tasks hands-free using voice commands.
- **Health Monitoring:** Includes SpO2, heart rate, blood pressure, stress, sleep, and menstrual cycle tracking.
- **Smart Productivity Features:** Remote camera control, flashlight, world clock, weather updates, and 'Find My Phone' functionality.

3. SETUP

3.1. Unboxing and Initial Inspection

Upon opening the package, ensure all components are present and undamaged. The box should contain:

- GOBOULT Pyro Smartwatch
- Charging Cable
- User Manual (this document)
- Warranty Card

3.2. Charging the Smartwatch

Before first use, fully charge your GOBOULT Pyro Smartwatch. Connect the provided charging cable to the charging port on the back of the smartwatch and to a standard USB power adapter (not included). A full charge typically takes approximately 150 minutes.

Note: Use a compatible charger to avoid damage. The smartwatch requires 1 AAA battery (included) for internal functions, but the main power is supplied via the charging cable.

3.3. Pairing with Your Smartphone

To unlock the full functionality of your smartwatch, pair it with your smartphone via Bluetooth:

1. Download the official GOBOULT companion app from your smartphone's app store (available for Android and iOS).
2. Ensure Bluetooth is enabled on your smartphone.
3. Open the GOBOULT app and follow the on-screen instructions to add a new device.
4. Select 'GOBOULT Pyro' from the list of available devices.
5. Confirm the pairing request on both your smartphone and smartwatch.

Once paired, the smartwatch will synchronize data and notifications with your phone.

4. OPERATION

4.1. Display and Navigation

The GOBOULT Pyro features a 1.43-inch AMOLED display with 600 nits brightness, ensuring clear visibility even in bright sunlight. The Always-On Display (AOD) feature allows you to see essential information without fully activating the screen.

Image 4.1: The 1.43-inch AMOLED display of the GOBOULT Pyro Smartwatch, showcasing its vibrant colors and clarity, along with the Always-On Display feature and 600 nits brightness.

Navigate through menus and apps using the touchscreen and the intuitive rotating dial. Rotate the dial to scroll through lists or zoom, and press it to select items or return to the home screen.

4.2. Customizing Watch Faces

Personalize your smartwatch with over 150 cloud-based watch faces. You can change watch faces directly from the smartwatch settings or through the companion app. The app also allows for custom watch face options.

150+ Cloud-Based Watch Faces

Image 4.3: A visual representation of the 150+ cloud-based watch faces available for the GOBOULT Pyro Smartwatch, including options for custom watch faces.

4.3. Bluetooth Calling

With Bluetooth 5.3, you can make and receive calls directly from your smartwatch. The device features a dedicated microphone and speaker for clear, hands-free communication. Ensure your smartwatch is connected to your phone via Bluetooth for this feature to work.

Calls on Your Wrist, Effortlessly

One tap to connect,
one tap to stay in touch

4.4. Sports Modes and Activity Tracking

The smartwatch supports over 120 sports modes, allowing you to track a wide range of physical activities. Select your desired sport from the menu to monitor real-time data such as duration, calories burned, and heart rate.

Image 4.5: The GOBOULT Pyro Smartwatch displaying a running activity summary, highlighting the availability of 120+ sports modes for tracking various physical activities.

4.5. Health Monitoring

The GOBOULT Pyro provides 24/7 health monitoring capabilities:

- **Heart Rate Monitor:** Tracks your heart rate continuously.
- **SpO2 Monitoring:** Measures your blood oxygen levels.
- **Blood Pressure Monitoring:** Provides estimates of your blood pressure.
- **Sleep & Stress Monitoring:** Analyzes sleep patterns and stress levels.
- **Female Menstrual Cycle Tracking:** Helps track and predict menstrual cycles.

For accurate readings, ensure the smartwatch is worn snugly on your wrist. Consult a medical professional for any health concerns; the smartwatch is not a medical device.

Stay Active, Stay Aware.

4.6. AI Voice Assistant and Smart Features

Access your AI voice assistant (Siri or Google Assistant) for hands-free commands. The smartwatch also offers additional smart features:

- **SMS & Push Notifications:** Receive alerts for messages and app notifications.
- **Remote Camera Control:** Use your watch as a remote shutter for your phone's camera.
- **Flashlight:** Activate a simple flashlight function.
- **World Clock:** View times in different time zones.
- **Weather Details:** Get current weather updates.
- **Find My Phone:** Locate your paired smartphone.

5. MAINTENANCE

5.1. Water and Dust Resistance (IP68)

The GOBOULT Pyro Smartwatch is IP68 rated, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for 30 minutes. This makes it suitable for daily wear, including during workouts and in rainy conditions. However, it is not recommended for diving, high-pressure water activities, or prolonged submersion.

Important: Water resistance is not a permanent condition and may decrease over time with normal wear. Avoid exposing the watch to hot water, steam, or detergents, as these can compromise the seals.

5.2. Cleaning Your Smartwatch

To keep your smartwatch clean and functioning optimally:

- Wipe the screen and body with a soft, lint-free cloth.
- If necessary, dampen the cloth slightly with water. Avoid using harsh chemicals or abrasive materials.
- Clean the charging contacts regularly to ensure efficient charging.
- If the strap is removable, clean it separately according to its material type.

5.3. Battery Care

To prolong battery life:

- Avoid extreme temperatures.
- Do not let the battery drain completely before recharging frequently.
- If storing the watch for an extended period, charge it to about 50% and power it off.

6. TROUBLESHOOTING

If you encounter issues with your GOBOULT Pyro Smartwatch, refer to the following common solutions:

Problem	Possible Solution
Smartwatch not turning on	Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
Unable to pair with smartphone	Check if Bluetooth is enabled on your phone. Ensure the smartwatch is in pairing mode. Restart both devices and try again. Make sure the companion app is installed and updated.
Inaccurate health readings	Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensors on the back of the watch. Avoid excessive movement during readings.
Notifications not appearing	Verify that notification permissions are granted to the GOBOULT app on your smartphone. Check the app's settings to ensure notifications are enabled for desired applications. Ensure Bluetooth connection is stable.
Battery drains quickly	Reduce screen brightness. Disable Always-On Display if not needed. Limit background app refresh. Ensure no apps are constantly running in the background. Frequent Bluetooth calling can also consume more power.
Charging issues (e.g., not connecting to charger)	Ensure the charging cable is correctly aligned with the magnetic contacts on the watch. Clean the charging contacts on both the cable and the watch. Try a different USB power source.
Rotating dial not working	Check for any physical obstruction or debris around the dial. Gently clean the area. If the issue persists, a software glitch might be present; try restarting the watch.

7. SPECIFICATIONS

Below are the technical specifications for the GOBOULT Pyro Smartwatch:

Feature	Detail
Brand	GOBOULT
Model Series	Pyro
Display Size	1.43 Inches
Display Type	AMOLED
Brightness	600 Nits
Connectivity	Bluetooth 5.3
