## Work House Signs B0FB5SFCTD

# Work House Signs Zona de bloqueo Spanish Black Sign Instruction Manual

Model: B0FB5SFCTD (15 x 18 inches)

## INTRODUCTION

---

This manual provides instructions for the proper installation, use, and maintenance of your Work House Signs Zona de bloqueo Spanish Black Sign. Please read these instructions carefully before proceeding with installation to ensure optimal performance and longevity of the product.

The sign features the text "Zona de bloqueo" (Blockage Zone) and a right-pointing arrow, designed for clear directional or warning communication.

## PRODUCT OVERVIEW

---

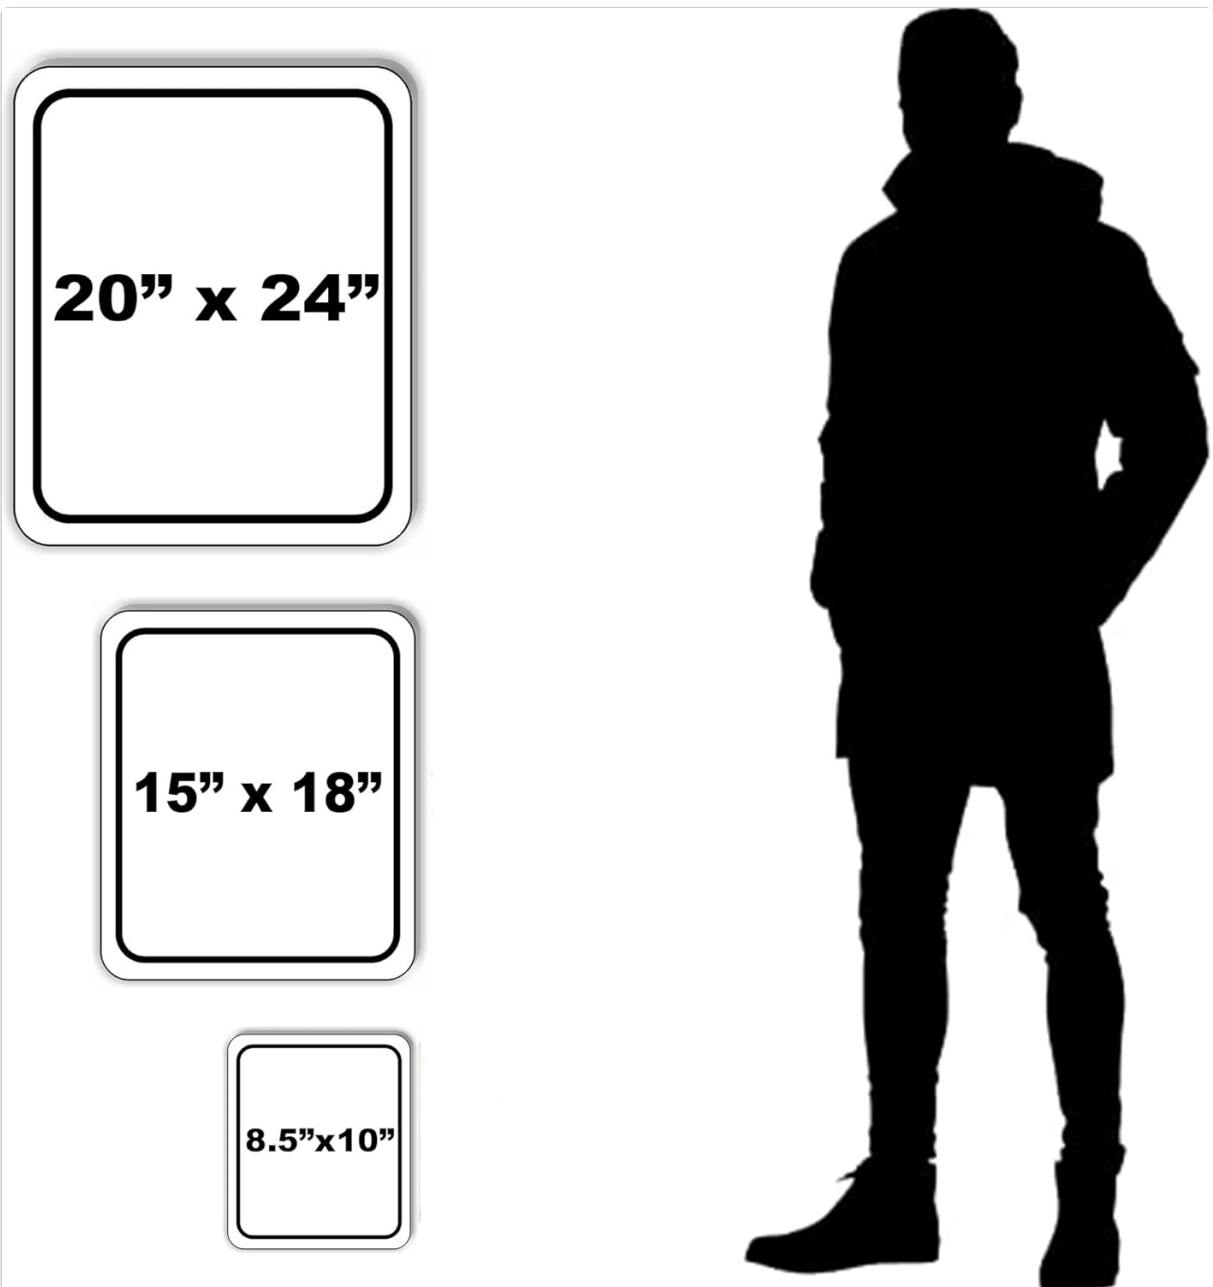

The Work House Signs Zona de bloqueo sign is constructed from durable aluminum composite material, suitable for both indoor and outdoor environments. It is designed to withstand various weather conditions without rusting or fading.

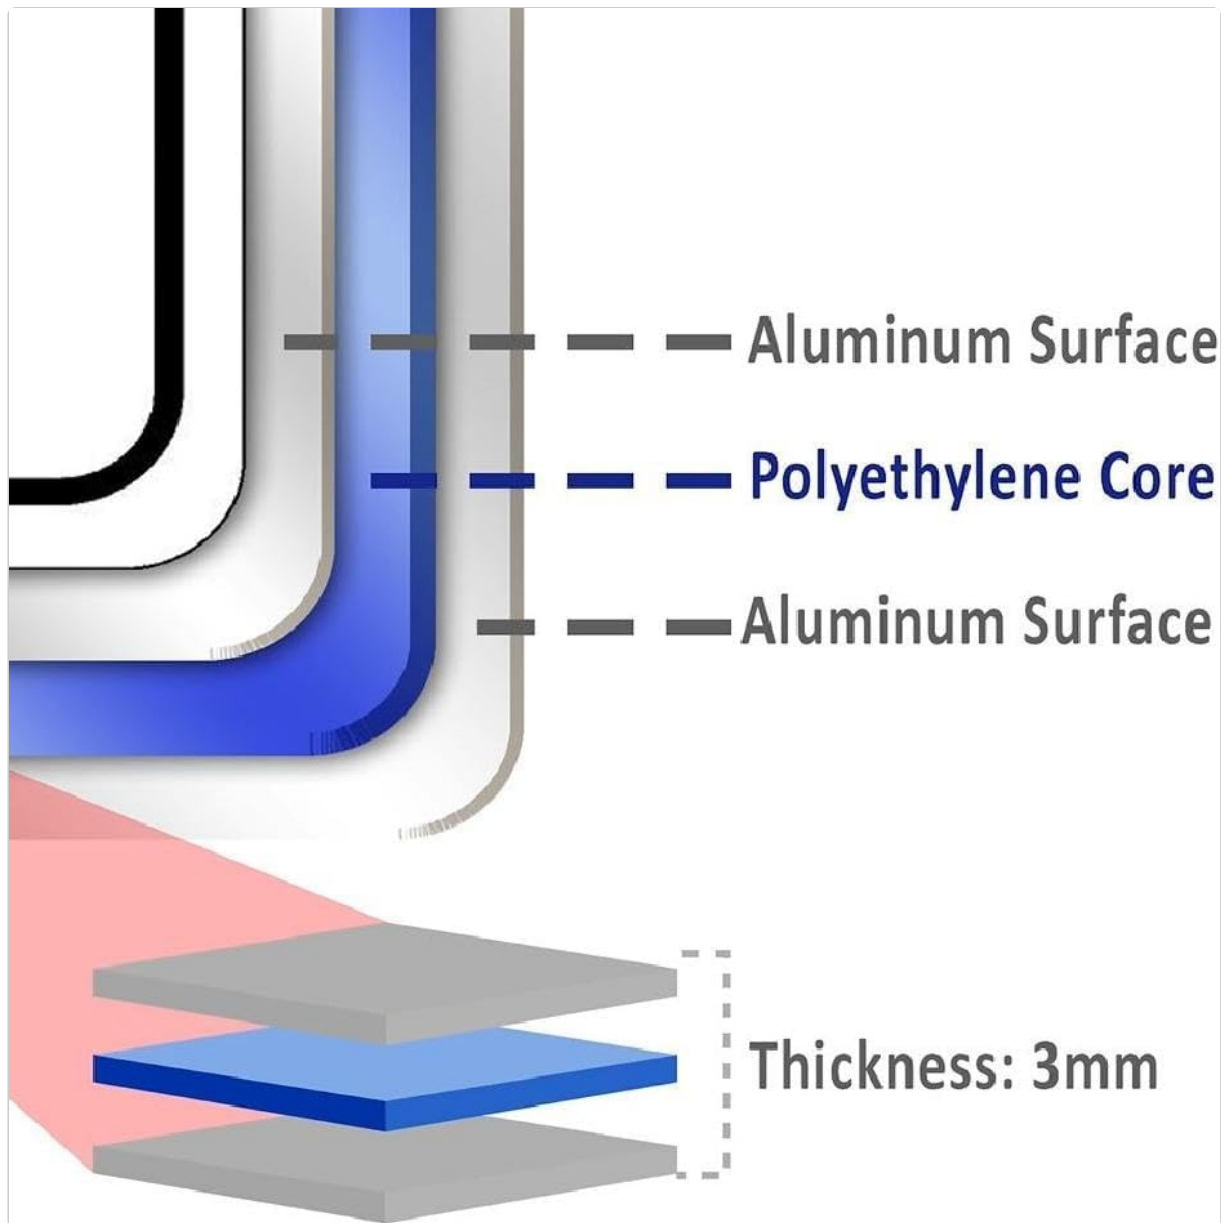

**Image Description:** A black sign with a white border. The text "Zona de bloqueo" is prominently displayed in white at the top, with a white right-pointing arrow below it. This image shows the primary design of the sign.

### Key Features:

- **Aluminum Composite Construction:** Lightweight, strong, and durable material that resists rust and wear.
- **Weather Resistant:** Designed to endure rain, sun, and wind without losing color or shape.
- **Customizable Mounting:** No pre-drilled holes, allowing for flexible installation using a standard drill bit.
- **Dimensions:** This specific model measures 15 x 18 inches. Other sizes are available.

**Image Description:** This image illustrates the relative sizes of the signs offered. Three rectangular outlines are shown: 8.5"x10", 15"x18", and 20"x24", positioned next to a human silhouette to provide a sense of scale.

**Image Description:** A cross-section diagram illustrating the material composition of the sign. It shows an "Aluminum Surface" layer, a "Polyethylene Core" layer, and another "Aluminum Surface" layer, indicating a total thickness of 3mm. This highlights the composite nature of the sign material.

## SETUP AND INSTALLATION

This sign does not come with pre-drilled holes, offering flexibility for various mounting methods. You will need to provide your own mounting hardware.

### Required Tools (Not Included):

- Drill with a standard drill bit suitable for aluminum composite material.
- Measuring tape and pencil for marking.
- Appropriate mounting hardware (screws, rivets, zip ties, or adhesive tape) for your chosen surface.

### Installation Steps:

1. **Select Location:** Choose a visible and appropriate location for the sign. Ensure the surface is clean and dry if using adhesive mounting.
2. **Mark Drilling Points:** Using a measuring tape and pencil, carefully mark the desired locations for drilling holes on the sign. Consider the type of mounting hardware you will use.
3. **Drill Holes:** Using a standard drill bit, carefully drill holes at the marked points. Apply steady, even

pressure.

4. **Mount Sign:** Secure the sign to the chosen surface using your preferred mounting hardware (screws, rivets, zip ties, or strong adhesive tape). Ensure it is level and firmly attached.

**Image Description:** This image displays four common mounting options: screws, rivets, zip ties, and double-sided adhesive tape. A caption explains that these items are not included and that users can easily add holes to the sign using a standard drill bit to suit their mounting needs.

## OPERATING INSTRUCTIONS

Once installed, the sign operates passively by conveying its message. Ensure the sign is positioned where its message, "Zona de bloqueo" (Blockage Zone) and the directional arrow, is clearly visible and understood by its intended audience.

No active operation or power source is required for this product.

## CARE AND MAINTENANCE

To ensure the longevity and readability of your sign, follow these simple maintenance guidelines:

- **Cleaning:** Periodically clean the sign with a soft cloth and mild soap and water. Avoid abrasive cleaners or scrub brushes that could scratch the surface.
- **Inspection:** Regularly inspect the sign and its mounting hardware for any signs of wear, damage, or loosening. Address any issues promptly to prevent the sign from falling or becoming damaged.
- **Weather Resistance:** The sign is designed to be weather-resistant. However, extreme conditions (e.g., prolonged exposure to harsh chemicals, physical impact) may affect its appearance over time.

# MADE FOR ALL SEASONS

**Image Description:** This image features four circular vignettes, each showing trees in a different season (spring, winter, autumn, summer), emphasizing the sign's durability across all weather conditions. The text "MADE FOR ALL SEASONS" reinforces its weather-resistant quality.

## TROUBLESHOOTING

This product is a passive sign and typically does not require troubleshooting. However, if you encounter issues, consider the following:

- **Sign is not visible:** Ensure the sign is placed in a location with adequate lighting and no obstructions. Consider repositioning if necessary.
- **Sign is loose or falling:** Inspect mounting hardware. Tighten screws, replace worn rivets, or reapply adhesive as needed. Ensure the mounting surface is suitable and secure.
- **Sign appears faded or dirty:** Refer to the "Care and Maintenance" section for cleaning instructions. Fading over extended periods in direct, harsh sunlight is minimal due to weather-resistant properties but can occur over many years.

## SPECIFICATIONS

<b>Model Number:</b>	B0FB5SFCTD
<b>Dimensions:</b>	15 x 18 inches
