Nine West wnARIZA

Nine West Women's Ariza Boots User Manual

Model: wnARIZA

Introduction

Thank you for choosing the Nine West Ariza boots. These dress booties are designed with a high block heel, a pointy toe, and a sleek silhouette, making them a versatile addition to your wardrobe. This manual provides essential information for the proper use and care of your new footwear.

Setup and First Use

Upon receiving your Nine West Ariza boots, carefully remove them from their packaging.

1. **Inspection:** Examine both boots for any visible imperfections or damage from shipping.
2. **First Try-On:** Unzip the side zipper fully before attempting to put on the boots. Gently slide your foot into the boot. If the fit feels tight, especially around the shaft or toe area, consider wearing thin socks for the first few wears to allow the leather to conform to your foot.
3. **Zipper Operation:** Ensure the zipper glides smoothly. Do not force the zipper if it snags; gently adjust the material around it.

Operating (Wearing Instructions)

The Nine West Ariza boots are designed for comfort and style. Follow these guidelines for optimal wear:

- **Proper Fit:** The pointy toe design may feel snug initially. Ensure your toes have enough room without being cramped. The shaft is designed to be mid-calf height with a circumference of approximately 10.24 inches.
- **Walking:** The 2.56-inch block heel provides stability. Walk naturally, allowing your foot to flex. Avoid excessive strain on the heel.
- **Surface Considerations:** The rubber sole offers traction, but exercise caution on wet or slippery surfaces, especially during initial wears as the sole may be slick.

Maintenance and Care

To ensure the longevity and appearance of your Nine West Ariza boots, follow these care instructions:

- **Cleaning Leather:** For black leather, wipe with a soft, damp cloth to remove dust and dirt. For deeper cleaning, use a specialized leather cleaner according to its instructions.
- **Conditioning:** Apply a leather conditioner periodically to keep the leather supple and prevent cracking.
- **Protection:** Consider using a water and stain repellent spray suitable for leather to protect against elements. Note that these boots are not water resistant.
- **Storage:** Store boots in a cool, dry place away from direct sunlight. Use boot shapers or stuff with tissue paper to maintain their form.
- **Avoid:** Do not machine wash or tumble dry. Avoid harsh chemicals or abrasive cleaners.

Troubleshooting

Issue	Possible Cause	Solution
Boots feel too tight or narrow.	New leather needs breaking in; pointy toe design.	Wear with thin socks initially. Leather may stretch slightly over time. Ensure correct size was purchased.
Zipper is difficult to operate.	Fabric caught in zipper; zipper needs lubrication.	Gently pull fabric away from zipper teeth. Apply a small amount of zipper lubricant (e.g., wax or graphite) to the teeth.
Slipping on smooth surfaces.	New rubber sole may be slick; wet conditions.	Wear boots on rougher surfaces to scuff the sole. Exercise caution on wet or polished floors.

Specifications

- **Model Name:** Ariza
- **Item Model Number:** wnARIZA
