Albott Farmhouse Full Size Bed Frame with Sliding Barn Door Storage

Model: BPB013

Safety Information Package Contents Assembly Instructions Operation Maintenance Troubleshooting Specifications Warranty & Support

Introduction

Thank you for choosing the Albott Farmhouse Full Size Bed Frame. This manual provides detailed instructions for assembly, operation, and maintenance to ensure safe and proper use of your new bed frame. This bed frame features a farmhouse-inspired design with a 48.8-inch high headboard and integrated sliding barn door storage in the footboard. It is designed for use without a box spring, utilizing wood slats for mattress support.

Important Safety Information

Please read and understand all instructions before assembly and use. Failure to follow these instructions may result in injury or product damage.

- Always follow the assembly instructions carefully to prevent instability.
- Be cautious around the solid construction and sturdy parts to avoid injury during assembly and use.
- Use the sliding barn door feature with care to avoid pinch points.
- Ensure all connections are securely tightened before placing a mattress on the frame.
- Do not exceed the maximum weight recommendation of 1000 pounds.

Package Contents

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Headboard
- Footboard with Sliding Barn Door Storage
- Side Rails
- Wood Slats with Velcro

- Center Support Legs
- Hardware Pack (screws, bolts, Allen wrench, etc.)
- Assembly Instructions Manual

Assembly Instructions

Assembly is designed to be straightforward with clear instructions and labeled parts. It is recommended to have two people for assembly.

Step 1: Unpack and Identify Parts

Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Refer to the parts list to identify each piece.

Step 2: Assemble the Headboard and Footboard

Attach the side rails to the headboard and footboard using the provided hardware. Ensure all bolts are finger-tightened initially.

Step 3: Install Center Support Legs

Securely attach the center support legs to the middle support beam. These legs provide additional stability and weight distribution.

Step 4: Attach Wood Slats

Place the wood slats across the bed frame. The slats feature convenient and safe Velcro strips to prevent movement and ensure a noise-free sleeping experience. Press firmly to secure the Velcro.

Operation of Sliding Barn Door Storage

The footboard features integrated storage compartments with sliding barn doors, allowing for flexible access and concealment of items.

Accessing Storage

Gently slide the barn doors left or right to reveal the storage compartments. The doors move smoothly along their tracks.

Flexible Door Positioning

The barn doors can be positioned to cover either the left, right, or middle storage sections, or slid to both sides to expose

the central compartment.

The storage compartments are suitable for bedding, clothes, books, or other small essentials. Note that shoe storage may require placing shoes sideways due to compartment depth.

Care and Maintenance

To maintain the appearance and longevity of your Albott bed frame, follow these care instructions:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the engineered wood finish.
- **Dusting:** Regularly dust with a dry, soft cloth.
- **Hardware:** Periodically check and retighten all hardware to ensure the frame remains stable and secure.
- **Sliding Doors:** Keep the tracks of the barn doors free from debris to ensure smooth operation.
- **Avoid Moisture:** Protect the bed frame from excessive moisture and direct sunlight to prevent warping or fading.

Troubleshooting

If you encounter any issues with your bed frame, refer to the following common solutions:

Squeaking Noises

- **Cause:** Loose hardware or slats not properly secured.
- **Solution:** Check all bolts and screws and tighten them. Ensure the Velcro on the wood slats is firmly attached to the frame. The bed frame is designed with noise-free strips to minimize squeaking.

Sliding Doors Sticking

- **Cause:** Debris in the track or misalignment.
- **Solution:** Clean the tracks of the barn doors to remove any dust or small objects. If the doors appear misaligned, gently adjust them on their hangers.

Instability

- **Cause:** Loose connections or uneven floor.
- **Solution:** Verify that all assembly hardware is tightly secured. If the floor is uneven, consider using furniture pads or shims under the bed legs to level the frame.
