# Feekaa Stainless Steel Humidifier (Model FK-0114-US) Instruction Manual

Your guide to optimal air humidification.

## 1. INTRODUCTION AND PRODUCT OVERVIEW

Thank you for choosing the Feekaa Stainless Steel Humidifier, Model FK-0114-US. This cool mist humidifier is designed to improve air quality and comfort in your home or office. Featuring a durable food-grade stainless steel tank and an easy-to-clean design, it provides efficient and healthy humidification for spaces up to 500 sq. ft.

Figure 1: Feekaa Stainless Steel Humidifier, Model FK-0114-US.

## 2. KEY FEATURES

- **Durable Stainless Steel Tank:** Food-grade stainless steel tank is dishwasher safe, offering a cleaner, healthier, and longer-lasting alternative to plastic humidifiers.
- **Hassle-Free Cleaning:** Wide opening and fully detachable design make every corner easy to reach. The filter-free system eliminates the need for replacement filters.
- **Extra-Large Capacity:** 4L/1Gal capacity provides up to 30 hours of continuous mist, covering rooms up to 500 sq. ft.
- **Easy Water Monitoring:** A built-in water level window allows for quick water level checks.
- **Customizable Mist Output:** Three mist settings (low, medium, high) to suit your needs.
- **360° Rotating Nozzle:** Control the direction of the mist for optimal comfort. Choose between single-nozzle for focused mist or dual-nozzle for quicker humidification.
- **Ultra-Quiet Operation:** Operates at just 24dB, quieter than a whisper, for undisturbed sleep.
- **Timer Function:** Set the timer for 2, 4, 6, or 8 hours for worry-free use.

- **Soft Blue Night Light:** Creates a soothing sleep environment.
- **Top-Fill Convenience:** Effortless, leak-proof refilling without flipping or spilling.
- **Child-Safe Design:** Made from BPA-free materials, with an auto shut-off feature for low water levels and low 24V voltage for protection against overheating or electric shock.

# Long-Lasting Hydration

Perfect for bedrooms, living rooms, nursery & offices

The image shows a woman with long dark hair, wearing a white hoodie and blue jeans, sitting cross-legged on a light brown sofa. She is smiling and looking at a laptop. In the foreground, a large, silver, cylindrical ultrasonic humidifier is sitting on a wooden coffee table. The humidifier has a white top with a control panel and a blue water level window. Mist is being emitted from the top of the humidifier. The background features a large window with sheer white curtains, letting in bright natural light. A potted plant is visible near the window.

## 3. SETUP AND GETTING STARTED

### 3.1 Unpacking and Component Identification

Carefully remove all components from the packaging. Ensure you have the main humidifier unit (stainless steel tank and top unit), mist nozzle, and power adapter.

### 3.2 Initial Setup

1. Place the humidifier on a flat, stable, and water-resistant surface.

2. Remove the top unit from the stainless steel water tank.
3. Remove any internal packaging or foam padding from the mist tube inside the top unit.
4. Fill the stainless steel tank with clean, cool tap water. Do not exceed the 'MAX' line and ensure water is above the 'MIN' line for proper operation.
5. Place the top unit back onto the water tank, ensuring it is securely seated.
6. Insert the mist nozzle into the designated opening on the top unit. You can rotate the nozzle to direct the mist.
7. Plug the power adapter into the humidifier's power port and then into a wall outlet.

Video 2: How to install and use this humidifier. This video provides a visual guide to the initial installation steps and how to begin using the humidifier.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Power and Mist Level Control

The main control button on the top unit manages power and mist output:

- **First Tap:** Turns on the humidifier with a high mist level.
- **Second Tap:** Switches to a medium mist level.
- **Third Tap:** Switches to a low mist level.
- **Fourth Tap:** Turns off the humidifier.

# Customizable Mist Levels

Choose from 3 mist modes for tailored comfort

Figure 4: Customizable mist levels for tailored comfort.

## 4.2 Timer and Night Light Function

The second control button manages the timer and night light:

- **Timer Setting:** Tap the button to cycle through timer options: 2 hours, 4 hours, 6 hours, and 8 hours. The humidifier will automatically shut off after the selected time.
- **Night Light Control:** Press and hold the button for 3 seconds to enable or disable the soft blue night light.

# All-Night Comfort

## 5. MAINTENANCE AND CLEANING

Regular cleaning is essential to maintain optimal performance and hygiene of your humidifier. The stainless steel tank is designed for easy cleaning.

### 5.1 Daily Maintenance

- Unplug the humidifier before cleaning.
- Empty any remaining water from the tank.

- Wipe the outer surface of the humidifier with a damp soft cloth (below 104°F / 40°C).

## 5.2 Weekly Cleaning and Descaling

For thorough cleaning and descaling, follow these steps:

1. Unplug the humidifier and remove the top unit and mist nozzle.
2. Pour out any remaining water from the stainless steel tank.
3. **Cleaning the Tank:** The stainless steel tank is dishwasher safe. Alternatively, you can hand wash it with warm water and mild dish soap. Rinse thoroughly.
4. **Cleaning the Mist Tube and Atomizer Head:** Rotate counterclockwise to remove the mist tube from the top unit. Rinse the mist tube, mist nozzle, and atomizer head under running water. Ensure no water splashes into the air outlet or air inlet on the top unit.
5. **Descaling:** To remove mineral buildup (scale), fill the tank with diluted citric acid or white vinegar (e.g., 1 part vinegar to 1 part water). Let it soak for 15-20 minutes to loosen the scale. Use a soft brush or cloth to gently scrub away any remaining deposits. Rinse all parts thoroughly with clean water until the smell of vinegar is gone.
6. Dry all parts completely before reassembly.
7. Reinstall the atomizer head into the mist tube, ensuring it faces upward and the wire/protrusion are aligned with the slot.
8. Reinstall the mist tube into the top unit by rotating clockwise to lock it.
9. Place the main body (top unit) above the water tank and install the mist nozzle.

Video 4: Feekaa Stainless Steel Humidifier Easy Clean Function. This video highlights the ease of cleaning due to the humidifier's design and materials.

## 6. TROUBLESHOOTING

If you encounter issues with your humidifier, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No mist or low mist output	Low water level; clogged atomizer; improper assembly.	Refill water tank; clean atomizer and mist tube; ensure top unit and mist tube are correctly installed.
Unusual noise	Humidifier not on a flat surface; water tank not seated properly.	Place on a stable, flat surface; re-seat the top unit securely on the tank.
Water leakage	Overfilling the tank; improper assembly of mist tube or top unit.	Do not overfill past the MAX line; ensure all components are securely assembled.
Night light not working	Night light feature is disabled.	Press and hold the timer/light button for 3 seconds to enable the night light.
