Assistrust KY-8000

Assistrust KY-8000 Sound Bar Instruction Manual

Model: KY-8000

INTRODUCTION

The Assistrust KY-8000 Sound Bar is designed to enhance your audio experience with powerful 80W sound output and versatile connectivity options. This sound bar features a unique 2-in-1 detachable design, allowing for flexible placement, and offers three distinct equalizer modes to optimize sound for various content types. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance and longevity of your device.

WHAT'S IN THE BOX

Carefully unpack all components and ensure you have received the following items:

- 1 x Detachable Sound Bar (consisting of two sections)
- 1 x Power Adapter
- 1 x ARC Cable
- 1 x Optical Cable
- 1 x 3.5mm AUX Cable
- 1 x Remote Control (batteries not included)
- 2 x Stand Bases

SETUP

1. Sound Bar Assembly

The KY-8000 Sound Bar can be used as a single horizontal unit or as two separate vertical tower speakers.

Horizontal Configuration:

1. Align the two sound bar sections.
2. Gently push and twist the sections together until they lock securely.

Vertical (Tower) Configuration:

1. Attach a stand base to the bottom of each sound bar section.
2. Ensure the bases are securely fastened.

2. Placement Options

Choose the best placement for your sound bar based on your room layout and desired audio experience.

- **Desktop Placement (Horizontal):** Place the assembled sound bar horizontally below your TV. This enhances mid-high frequencies.
- **L/R Desktop Placement (Vertical):** Place the two separated sound bar sections vertically on either side of your TV. This creates a 3D sound effect.
- **Wall Mount:** The sound bar can be wall-mounted to save space and boost surround sensation. Mounting hardware is typically included.

3. Connecting to Your TV

The sound bar supports multiple connection methods: ARC, Optical, AUX, and Bluetooth.

ARC Connection (Recommended for TV Remote Control):

1. Ensure your TV has an HDMI ARC/eARC port. Insert the ARC cable into your TV's ARC port.
2. Connect the other end of the ARC cable to the sound bar's ARC port.
3. Press the 'ARC' button on the sound bar's remote control. The LED indicator will turn orange.

Optical/AUX Connection:

1. Insert the Optical or 3.5mm AUX cable into your TV's corresponding output port.
2. Connect the other end of the cable to the sound bar's OPT or AUX port.
3. Press the 'OPT' or 'AUX' button on the sound bar's remote control until the LED color changes to indicate the selected mode.

Bluetooth Connection:

1. Power on the sound bar.
2. Press the 'Bluetooth' button on the remote control. The LED indicator will flash, indicating pairing mode.
3. On your device (phone, tablet, etc.), search for 'KY-8000' in the Bluetooth settings and select it to pair. The LED will stop flashing once connected.

4. TV Audio Output Settings

For optimal sound, especially when using Optical or ARC connections, you may need to adjust your TV's audio output settings.

- Navigate to your TV's audio settings menu.

- Set the 'Digital Output Audio Format' or similar option to **PCM**. Avoid 'Bitstream', 'Dolby Digital', or 'DTS' formats as they may not be compatible.

OPERATING INSTRUCTIONS

1. Power On/Off

- Press the **Power** button on the remote control or the sound bar to turn it on or off.

2. Input Selection

Use the corresponding buttons on the remote control to switch between input sources:

- **ARC**: For HDMI ARC connection.
- **OPT**: For Optical connection.
- **AUX**: For 3.5mm Auxiliary connection.
- **Bluetooth**: For wireless Bluetooth connection.

3. Equalizer Modes

The sound bar features three dynamic equalizer modes to optimize audio for different content:

- **Movie Mode**: Enhances bass and surround effects for an immersive cinematic experience.
- **Music Mode**: Provides balanced audio with rich details for musical enjoyment.
- **News Mode**: Optimizes dialogue clarity, making voices stand out for news broadcasts and talk shows.

Press the 'MUSIC', 'MOVIE', or 'NEWS' buttons on the remote control to switch between these modes.

MAINTENANCE

To ensure the longevity and optimal performance of your Assistrust KY-8000 Sound Bar, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry, lint-free cloth to wipe the surface of the sound bar. Do not use liquid cleaners, aerosols, or solvents, as they may damage the finish.
- **Ventilation:** Ensure the sound bar's vents are not blocked to prevent overheating.
- **Storage:** If storing the sound bar for an extended period, disconnect it from power and store it in a cool, dry place.
- **Avoid Moisture:** Do not expose the sound bar to water or excessive humidity. It is not waterproof.

TROUBLESHOOTING

If you encounter issues with your sound bar, refer to the following common problems and solutions:

No Sound

- **Check Power:** Ensure the sound bar is powered on and the power adapter is securely connected.
- **Input Source:** Verify that the correct input source (ARC, OPT, AUX, Bluetooth) is selected on the sound bar.
- **Cable Connection:** Confirm that all audio cables are securely connected to both the sound bar and your TV/device.
- **TV Audio Settings:** Ensure your TV's audio output is set to PCM (Pulse Code Modulation) if using Optical or ARC.
- **Volume Level:** Increase the volume on both the sound bar and your TV/device. Ensure neither is muted.

Distorted Sound

- **Volume Level:** Reduce the volume to prevent distortion.
- **Cable Quality:** Try using a different audio cable to rule out a faulty cable.
- **Source Quality:** Check if the audio source itself is distorted.

Remote Control Not Responding

- **Batteries:** Replace the batteries in the remote control (2x AAA).
- **Line of Sight:** Ensure there are no obstructions between the remote and the sound bar's sensor.
- **Distance:** Operate the remote within its effective range.

Bluetooth Pairing Issues

- **Pairing Mode:** Ensure the sound bar is in Bluetooth pairing mode (LED flashing).
- **Device Proximity:** Keep your Bluetooth device close to the sound bar during pairing.
- **Forget Device:** On your device, forget any previously paired 'KY-8000' connections and try pairing again.
- **Interference:** Move away from other wireless devices that might cause interference.

Compatibility with TV Remote

- The sound bar can be controlled by a single TV remote only when connected via**ARC mode**.
- Ensure your TV's HDMI port supports ARC functionality.
