CODONOVA CA6

CODONOVA 2025 Pro Mini Wireless CarPlay & Android Auto Adapter User Manual

Model: CA6

1. INTRODUCTION

The CODONOVA 2025 Pro Mini Wireless CarPlay & Android Auto Adapter is designed to seamlessly convert your vehicle's existing wired CarPlay or Android Auto system into a wireless experience. This compact device offers a fast, stable, and low-latency connection, enhancing your in-car entertainment and navigation without the need for cables.

2. PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 1 x CODONOVA 2025 Pro Mini Wireless CarPlay & Android Auto Adapter
- 1 x USB-A to USB-C Adapter
- 1 x User Manual (this document)

3-in-1 Connectivity Solution

No matter if you're using USB or Type-C, our adapter works seamlessly with both

3. SETUP GUIDE

Follow these steps for a quick and easy setup:

1. **Plug In:** Connect the CODONOVA adapter to your car's USB-A or USB-C port that supports wired CarPlay or Android Auto. Use the included USB-A to USB-C adapter if necessary. The adapter's indicator light will turn on.
2. **Turn On Wi-Fi and Bluetooth:** On your iPhone (iOS 10+) or Android phone (Android 11+), ensure both Wi-Fi and Bluetooth are enabled.
3. **Pair Bluetooth:** On your phone, search for Bluetooth devices and select the adapter (usually named "smartbox-XXXX" or similar). Confirm the pairing request on both your phone and car screen if prompted.
4. **Automatic Connection:** After successful Bluetooth pairing, your phone's Wi-Fi will automatically connect to the adapter, and CarPlay or Android Auto will launch on your car's display.

Note: The initial connection may take up to 30 seconds. Subsequent connections will be automatic and typically occur within 5 seconds of starting your car.

4. OPERATING INSTRUCTIONS

Once connected, the CODONOVA adapter allows you to use your car's native controls for CarPlay or Android Auto:

- **Voice Control:** Utilize Siri or Google Assistant for navigation, calls, and music by saying "Hey Siri" or "Hey Google".
- **Touchscreen:** Interact directly with the car's touchscreen display.
- **OEM Knob:** Use your vehicle's original equipment manufacturer (OEM) control knob.
- **Wheel Control:** Operate functions using your steering wheel controls.

Important Note: For driving safety, this wireless adapter blocks video streaming applications such as YouTube and Netflix.

5. COMPATIBILITY

The CODONOVA 2025 Pro Mini Wireless CarPlay & Android Auto Adapter is compatible with a wide range of vehicles and mobile devices:

- **Vehicles:** Compatible with cars from 2016 or above that have factory-wired CarPlay or Android Auto.
- **iPhones:** Supports iPhone 6 and above series with iOS 10 or later versions.
- **Android Phones:** Supports Android phones running Android 11+ versions.

To check if your car supports CarPlay, you can plug your iPhone into your car using a USB cable. For a comprehensive list of CarPlay compatible models, please visit: [Apple CarPlay Available Models](https://www.apple.com/ios/carplay/available-models).

The graphic features a light blue background. At the top, the text 'Universal Compatibility' is written in a large, bold, blue font. Below this, the text 'Work For' is followed by the number '10000' in a very large, bold, blue font, with a plus sign and a small illustration of a grey and black camouflage USB adapter. A blue banner below the number contains the text 'Plug Your iPhone into Your Car Using a USB Cable to check if CarPlay is supported'. Below the banner is an illustration of an iPhone displaying the CarPlay interface with various app icons (Phone, Music, Maps, Messages, News, Now Playing, Car, Audiobooks, Calendar, Settings) connected to a black USB adapter with a green CarPlay icon. At the bottom left is a QR code, and at the bottom right is the text 'The Adapter is Compatible with iPhone 6 and Above On iOS 10 or Later, and Cars with CarPlay since 2016' followed by the URL <https://www.apple.com/ios/carplay/available-models>.

6. MAINTENANCE

To ensure the longevity and optimal performance of your CODONOVA adapter, please follow these simple maintenance guidelines:

- Keep the adapter clean and free from dust and debris. Use a soft, dry cloth for cleaning.

- Avoid exposing the adapter to extreme temperatures, direct sunlight, or excessive moisture.
- Do not attempt to disassemble or repair the device yourself. Refer to the troubleshooting section or contact customer support for assistance.
- Ensure the USB port in your vehicle is clean and free of obstructions before plugging in the adapter.

7. TROUBLESHOOTING

If you encounter any issues with your CODONOVA adapter, please refer to the common problems and solutions below:

Problem	Solution
How do I know the adapter is working properly?	Once the adapter is plugged into the USB port, the power will turn on. The indicator light will turn blue after the program has finished loading. Your phone will then pair with the adapter via Bluetooth.
I'm trying to send voice assistant commands to the wireless CarPlay adapter, but nothing happens?	Voice input is through your phone's microphone, so please keep your phone nearby. Make sure Siri (for iPhone) or Google Assistant (for Android) is turned on in your phone's settings. Call up the assistant and enter your voiceprint if needed.
Why does my wireless CarPlay adapter keep disconnecting? I have to unplug and reconnect to get it back to normal.	This problem is usually caused by an overloaded phone cache. You just need to clear your phone's cache.
Does it support watching videos?	Video applications are not officially supported due to safety concerns while driving.
Can the adapter be paired with more than one phone?	The adapter can pair with multiple phones, but can only connect to one device at a time. If you want to pair it with a new phone, disconnect the current connection first.
