## Merax HA1988

# Merax HA1988 King Size Upholstered Platform Bed Instruction Manual

Model: HA1988 | Brand: Merax

## INTRODUCTION

Welcome to your new Merax King Size Upholstered Platform Bed. This manual provides essential information for assembly, operation, maintenance, and troubleshooting to ensure safe and proper use of your bed frame. Please read all instructions carefully before beginning assembly or use.

## IMPORTANT SAFETY INFORMATION

- Be cautious of pinch points when assembling.
- Do not exceed the maximum weight capacity of 800 pounds.
- Be careful around sharp edges during assembly.
- Ensure all connections are securely tightened before use.
- Keep small parts away from children during assembly.

## PACKAGE CONTENTS

Before assembly, verify all components are present. If any parts are missing or damaged, please contact customer support.

- Headboard (1)
- Footboard (1)
- Side Rails (2)
- Wood Slats (Set)
- Center Support Legs (2)
- Hardware Pack (Screws, Bolts, Washers, Allen Wrench)
- Assembly Tools (Included)

## ASSEMBLY INSTRUCTIONS

Follow these steps carefully. It is recommended to assemble the bed with two people for ease and safety.

### 1. Step 1: Unpack and Identify Components

Unpack all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches. Refer to the parts list to identify each component.

### 2. Step 2: Attach Side Rails to Headboard and Footboard

Connect the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure and tightened with the included tools.

### 3. Step 3: Install Center Support System

Attach the two center support legs to the center support beam. Then, secure the center support beam to the bed frame's side rails. This system provides crucial stability.

# No Box Spring Needed

1

## Sturdy Wood Slats

2

## Stable Metal Legs

3

## Central Cross Support

Image detailing the bed's internal structure, including sturdy wood slats, stable metal legs, and central cross support, which eliminates the need for a box spring.

#### 4. Step 4: Place Wood Slats

Evenly space and secure the wood slats across the bed frame. Ensure they are firmly attached to the side rails to provide adequate mattress support. The slats are designed to support your mattress directly, eliminating the need for a box spring.

#### 5. Step 5: Final Checks

Double-check all screws and bolts to ensure they are tightened. The bed frame should be stable and level. Gently shake the frame to confirm stability before placing a mattress.

## OPERATING INSTRUCTIONS

Once assembled, place your King size mattress directly onto the installed wood slats. No box spring is required for this platform bed.

Ensure the total weight on the bed, including occupants and mattress, does not exceed the maximum capacity of 800 pounds.

# King Size

Weight Capacity: 800LBS

**L**  
83"

**W**  
88.9"

**H**  
49.2"

Diagram illustrating the King size bed dimensions (83.46" L x 90.15" W x 49.6" H) and indicating a maximum weight capacity of 800 pounds.

## MAINTENANCE

- For general cleaning, wipe surfaces with a dry cloth to remove dust.
- For spills or stains on the upholstered velvet, wipe immediately with a damp cloth and a mild, non-abrasive detergent. Blot dry thoroughly.
- Periodically check and tighten all hardware (screws, bolts) to maintain the bed's stability and prevent squeaking.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish and fabric.

## TROUBLESHOOTING

### Squeaking Noises

If your bed frame develops squeaking noises, check all bolts and screws for tightness. Loose connections are a common cause of squeaking. Retighten any loose hardware.

### Instability

Ensure the bed frame is on a level surface. Verify all support legs are making firm contact with the floor. Adjust leg levelers if present, or reposition the bed on an even surface.

### Missing Parts

If any accessories or components are missing upon delivery, please contact Merax customer support immediately for replacement parts.
