TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Sofa modules appear compressed or not fully shaped.	Product is newly unpacked and requires time to expand.	Allow up to 72 hours for full expansion. Gently pat the cushions to aid in recovery. Ensure adequate ventilation.
Modules slide apart easily.	Sofa is placed on a smooth surface without friction.	Consider placing the sofa on a rug or using non-slip pads under the modules to increase stability.
Fabric appears wrinkled or creased.	Result of packaging and compression during shipping.	Lightly steam the fabric or allow it to naturally relax over time. Gentle patting can also help smooth out wrinkles.
