SETUP AND ASSEMBLY

Assembly of the Novilla Queen Bed Frame is designed to be straightforward and can typically be completed by two individuals in approximately 30 minutes. Follow the included installation manual for specific step-by-step instructions.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Assemble Headboard:** Attach the headboard components as per the diagram in your manual.
3. **Connect Side Rails:** Securely attach the side rails to the headboard and footboard using the provided hardware. Ensure all bolts are tightened.
4. **Install Center Support:** Position and secure the center support beam and its legs.
5. **Place Slats:** Lay the wooden slats across the frame. The slats feature a Velcro design for easy and secure placement, reducing movement and noise. Ensure the non-slip patches are facing upwards to prevent mattress shifting.
