HAYLOU HQ5

Haylou HQ5 T020 ANC Bluetooth Earbuds User Manual

Model: HQ5 T020

INTRODUCTION

Welcome to the user manual for your Haylou HQ5 T020 ANC Bluetooth Earbuds. These wireless earbuds are designed to provide a superior audio experience with adaptive Active Noise Cancellation (ANC), a comfortable fit, and intuitive controls. This manual will guide you through setup, operation, maintenance, and troubleshooting to ensure you get the most out of your device.

SETUP GUIDE

1. Initial Charging

Before first use, fully charge your Haylou HQ5 T020 earbuds and their charging case.

- Place both earbuds into the charging case.
- Connect the charging case to a power source using the provided Type-C cable.
- The indicator light on the case will show charging status. A full charge for the earbuds takes approximately 2 hours.

2. Powering On

The earbuds automatically power on when removed from the charging case.

3. Bluetooth Pairing

1. Ensure the earbuds are charged and removed from the charging case. They will automatically enter pairing mode.
2. On your device (smartphone, tablet, etc.), enable Bluetooth.
3. Search for available Bluetooth devices and select "Haylou HQ5" from the list.
4. Once connected, you will hear a confirmation tone, and the earbuds will be ready for use.

The latest Bluetooth 6.0 chip ensures instant pairing and a stable connection.

OPERATING INSTRUCTIONS

Touch Controls

The Haylou HQ5 T020 earbuds feature intuitive touch controls on each earbud.

Action	Control
Power On	Remove from charging case
Power Off	Place into charging case
Activate ANC Mode	Automatically activates upon power on, or press and hold the right earbud for 2 seconds
Transparency Mode	Press and hold the right earbud for 2 seconds
Game Mode (Activate/Deactivate)	Press and hold the left earbud for 2 seconds
Answer/End Call	Double-tap either the left or right earbud
Reject Call	Press and hold either the left or right earbud for 2 seconds
Previous Track	Triple-tap the left earbud
Next Track	Triple-tap the right earbud
Play/Pause	Double-tap either the left or right earbud

Active Noise Cancellation (ANC)

The adaptive ANC technology reduces ambient noise by up to -28 dB, providing a pure audio experience. You can switch between ANC and Transparency modes by pressing and holding the right earbud for 2 seconds.

Cancelamento de ruído ativo adaptativo

O som ambiente desaparece para deixar você com nada além de som puro

MAINTENANCE AND CARE

Cleaning

To maintain optimal performance and hygiene, regularly clean your earbuds and charging case.

- Use a soft, dry, lint-free cloth to wipe the earbuds and charging case.
- For the ear tips, gently remove them and clean with a mild soap solution if necessary, then rinse and dry completely before reattaching.
- Ensure no moisture enters the charging ports or speaker grilles.

Storage

Always store the earbuds in their charging case when not in use to protect them and keep them charged.

Water Resistance

The Haylou HQ5 T020 earbuds are rated IPX4 water-resistant, meaning they are protected against splashing water from any direction. This makes them suitable for workouts and light rain. However, they are not designed for swimming or submersion in water. Avoid exposing them to excessive moisture.

TROUBLESHOOTING

If you encounter any issues with your Haylou HQ5 T020 earbuds, please refer to the solutions below.

Common Issues and Solutions

- Earbuds not pairing:** Ensure both earbuds are fully charged and removed from the case. Turn off and on your device's Bluetooth, then try pairing again.
- Only one earbud working:** Place both earbuds back into the charging case, close the lid, wait a few seconds, then remove them. This often re-syncs them.
- Sound quality issues:** Check if the ear tips are properly seated in your ears. Ensure the earbuds are clean and free of debris.
- Connection drops:** Ensure you are within the 10-meter communication range and there are no significant obstacles between the earbuds and your device.

Physical Reset

If you experience persistent issues, you can perform a physical reset. The charging case features a physical reset button that can resolve problems in just 5 seconds. Refer to the product diagram or contact support for the exact location of the reset button.

SPECIFICATIONS

Feature	Detail
Model Name	Haylou HQ5
Bluetooth Protocol	A2DP, AVRCP, HFP
Audio Codec	SBC, AAC
Noise Control	Active Noise Cancellation (ANC)
ANC Depth	Up to -28 dB
