SOLIDEE BA20701

SOLIDEE 32-Inch Bathroom Vanity with White Ceramic Sink Instruction Manual

Model: BA20701

1. PRODUCT OVERVIEW

This manual provides instructions for the assembly, operation, and maintenance of your SOLIDEE 32-inch freestanding bathroom vanity. This unit features a black cabinet with four drawers and a white ceramic sink, designed for bathroom use.

The product is shipped in two separate packages, and their arrival times may vary. Please ensure all packages have arrived before beginning assembly.

Shipped in Two Boxes

Package 1

1 x Main cabinet
1 x All hardware includes
1 x Installation Manual

Package 2

1 x Vessel sink
1 x Faucet and Drain
1 x All hardware includes

Need to be assembled

Figure 1: Packaging details, showing contents of Package 1 (Main cabinet, hardware, manual) and Package 2 (Vessel sink, faucet, drain, hardware).

2. INCLUDED COMPONENTS

Verify that all components listed below are present before starting assembly. If any parts are missing or damaged, please contact customer support.

- Bathroom Vanity Cabinet (MDF wood)
- White Ceramic Sink
- Faucet
- Pop-up Drain
- Hot/Cold Water Supply Lines
- Mounting Hardware
- Installation Manual

3. SETUP AND ASSEMBLY

This product requires self-assembly. Follow the numbered parts and instructions provided in the separate installation manual for detailed steps. Assembly typically requires patience and can take several hours.

3.1. Pre-Assembly Checks

- Ensure you have adequate space for assembly.
- Lay out all parts and hardware, comparing them against the parts list in the installation manual.
- Gather necessary tools (not included, typically screwdrivers, wrenches).

3.2. Assembly Steps (General Guidance)

1. Assemble the main cabinet structure according to the provided diagrams.
2. Install the drawers and ensure smooth operation.
3. Attach the zinc alloy handles to the cabinet doors and drawers.
4. Mount the 304 stainless steel hinges to the cabinet doors and frame.
5. Place the white ceramic sink onto the vanity top.
6. Install the faucet, pop-up drain, and connect the hot/cold water supply lines. Ensure all connections are secure to prevent leaks.
7. Position the vanity in its desired location, utilizing the rust-proof alloy leg pads for stability.

4. OPERATING INSTRUCTIONS

The SOLIDEE bathroom vanity is designed for functional use in a bathroom environment.

- **Sink Usage:** The white ceramic sink is designed for standard bathroom use. Ensure proper water flow and drainage.
- **Cabinet Doors:** The cabinet features soft-close doors to prevent slamming. Open and close gently for optimal performance and longevity of the hinges.
- **Drawers:** The four side drawers provide additional storage. Pull them open and push them closed smoothly.
- **Storage:** Utilize the large capacity cabinet with two tiers and the four side drawers to organize bathroom essentials.

5. MAINTENANCE AND CARE

Proper maintenance will ensure the longevity and appearance of your bathroom vanity.

- **Cabinet Cleaning:** Wipe the MDF wood cabinet surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that can damage the finish. For stubborn marks, a mild soap solution can be used, followed by drying thoroughly.

- **Sink Cleaning:** Clean the ceramic sink regularly with non-abrasive bathroom cleaners. Rinse thoroughly after cleaning to prevent residue buildup.
- **Hardware Care:** The zinc alloy handles and 304 stainless steel hinges are designed for durability. Clean with a soft, dry cloth. Avoid harsh chemicals that may tarnish the finish.
- **Leg Pads:** The rust-proof alloy leg pads require minimal maintenance. Ensure they remain dry to prevent water damage to the floor.
- **Spills:** Immediately wipe up any water spills on the cabinet surfaces to prevent water damage or warping of the MDF wood.

6. TROUBLESHOOTING

Refer to the following common issues and solutions:

Problem	Possible Cause	Solution
Faucet leaks	Loose connections or damaged seals.	Check all faucet and supply line connections. Tighten if loose. If leaking persists, inspect seals and replace if necessary. Consult a plumber if unsure.
Sink turns or moves easily	Improper installation of the sink or drain assembly.	Ensure the sink is properly seated and secured to the vanity top. Verify the drain's pass-through mechanism is correctly installed and tightened.
Cabinet finish shows smudges/fingerprints easily	Nature of the finish or cleaning product used.	Clean with a soft, dry microfiber cloth. Avoid oily furniture polishes that may attract dust or leave residue. Use a slightly damp cloth with water only, then dry immediately.
Difficulty during assembly	Complex instructions or misinterpretation.	Review the installation manual carefully, paying close attention to diagrams and numbered steps. Take breaks if needed. Ensure all parts are oriented correctly before tightening.
Plumbing interference with cabinet	Existing plumbing lines do not align with cabinet cutouts.	Minor modifications to the back panel of the vanity may be necessary to accommodate existing plumbing. Exercise caution and measure accurately before cutting.

7. SPECIFICATIONS

Feature	Detail
Brand	SOLIDEE
Model Number	BA20701
