lamfurart P005 Pro Max

lamfurart P005 Pro Max Portable Tire Inflator User Manual

Model: **P005 Pro Max** | Brand: **lamfurart**

Introduction

The lamfurart P005 Pro Max Portable Tire Inflator is a versatile and powerful cordless air pump designed for convenient inflation of various items. Featuring a high-performance chip, it delivers quick inflation with a maximum pressure of 180 PSI. Its compact design includes a large LED digital display, preset modes for different items, an emergency light, and a power bank function.

Image: Internal view of the lamfurart P005 Pro Max inflator, highlighting its 20000 RPM motor and 180 PSI ultra-powerful inflation capability.

Image: A visual comparison illustrating the benefits of a cordless air pump like the P005 Pro Max, emphasizing ease of use and portability over traditional corded models.

Package Contents

Please check the package to ensure all items are present:

- Air Pump (1)
- User Manual (1)
- Attachments (4 different nozzles)
- Storage Bag (1)
- Charger Cable (USB-C) (1)

Image: The complete package contents of the lamfurart P005 Pro Max, showing the wireless inflator, various nozzles, USB-C charging

cable, and a storage bag.

Setup

1. **Initial Charge:** Before first use, charge the device for at least 3 seconds to activate it. Connect the USB-C cable to the inflator and a suitable USB-A power adapter.
2. **Select Nozzle:** Choose the appropriate nozzle attachment for the item you intend to inflate (e.g., Schrader valve for car tires, needle for balls).
3. **Attach Hose:** Securely screw the inflation hose onto the inflator's output port. Attach the selected nozzle to the other end of the hose.

Image: Illustration of the two charging types for the inflator: normal charging via USB-C and its function as a power bank using the USB-A output.

Operating Instructions

Follow these steps for safe and effective inflation:

1. **Connect to Valve:** Connect the inflation hose with the appropriate nozzle securely to the item's valve.
2. **Power On & Select Mode:** Press the power button to turn on the inflator. Press the 'M' button to cycle through the preset modes: Car, Motorcycle, Bike, and Ball. The display will show the current mode and real-time pressure.
3. **Set Pressure:** Use the '+' and '-' buttons to adjust the desired pressure value. The inflator supports a maximum of 180 PSI. For manual mode, set your desired pressure.
4. **Start Inflation:** Press the power button again to start inflation. The device will automatically stop once the preset pressure is reached.
5. **Disconnect:** Once inflation is complete, disconnect the hose from the valve and the inflator.

Preset Modes and Recommended Pressures:

Image: An overview of the portable air pump's wide applications, including recommended pressure ranges for car, motorcycle, bicycle tires, and balls.

- **Car Mode:** 25-45 PSI (Inflates small car tires (27-36PSI) in less than 1 minute.)
- **Motorcycle Mode:** 25-50 PSI
- **Bicycle Mode:** 30-150 PSI
- **Ball Mode:** 4-16 PSI

The large LED digital display shows both preset values and real-time pressure, preventing over-inflation.

Image: A detailed view of the large LED digital screen, showing both the real-time pressure and the user-set preset pressure value.

Additional Functions:

- **Emergency Light:** The inflator features an LED light on the top for use in dark conditions.
- **Power Bank:** With a USB-C input and USB-A output port, the device can reverse power supply to charge mobile phones or other digital products.

Maintenance

- **Overheating Protection:** To prevent overheating, the device should be used for a maximum of 10 minutes, then turned off and allowed to cool before restarting.
- **Cleaning:** Wipe the exterior of the inflator with a soft, dry cloth. Do not use harsh chemicals or immerse the device in water.
- **Storage:** Store the inflator and its accessories in the provided storage bag in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Charging:** Ensure the device is charged periodically, even when not in use, to maintain battery health.

Troubleshooting

Problem	Possible Cause	Solution
Device does not turn on.	Low battery or not activated.	Charge the device for at least 3 seconds to activate it. Ensure it has sufficient charge.
Inflation is slow or not working.	Hose not securely connected, wrong nozzle, or low battery.	Check all connections. Ensure the correct nozzle is used. Recharge the device.
Device overheats and shuts off.	Continuous operation for too long.	Allow the device to cool down for at least 10 minutes before resuming operation.
Inaccurate pressure reading.	Loose connection or sensor issue.	Ensure the hose is tightly connected to the valve. If the issue persists, contact customer support.

Specifications

Brand: Iamfurart

Model Number: P005 Pro Max

Voltage: 16 Volts

Maximum Pressure: 180 PSI

Air Flow Capacity: 34 liters per minute

Power Source: Battery Powered (Cordless)

Special Features: Compact, Cordless, Easy to use, Portable, Super battery, Emergency Light, Power Bank Function

Item Dimensions (L x W x H): 4"L x 2"W x 7"H

Included Components: Air pump, manual, 4 attachments, storage bag, charger cable

Image: The inflator showcasing its ultra-large battery capacity, indicating the number of times it can inflate various items like bikes, cars,

balls, and motorcycles on a single charge.
