VSDINSIDE VSD M18

VSDINSIDE Macro Keypad Stream Controller Deck M18 User Manual

Model: VSD M18

1. INTRODUCTION

The VSDINSIDE Macro Keypad Stream Controller Deck M18 is a versatile and programmable device designed to streamline workflows for gamers, streamers, content creators, and professionals. Featuring 18 customizable keys (15 visual LCD and 3 button keys), it allows for one-touch execution of complex commands, application launches, media control, and scene switching. This manual provides instructions for setting up, operating, and maintaining your device.

2. PACKAGE CONTENTS

Before you begin, please ensure all items are present in your package:

- VSDINSIDE Macro Keypad Stream Controller Deck M18
- USB-C to USB-A Cable
- User Manual (this document)

FULLY PROGRAMMABLE MACRO KEYS

One-Touch Automation: Press a single button to trigger one or multiple shortcut commands in an instant.

3. SETUP

1. **Unpack the Device:** Carefully remove the Macro Keypad from its packaging.
2. **Connect to Computer:** Use the provided USB-C to USB-A cable. Plug the USB-C end into the port on the Macro Keypad and the USB-A end into an available USB port on your PC or Mac.

Your browser does not support the video tag.

Video: Demonstrates connecting the VSDINSIDE Macro Keypad to a computer using the USB-C cable.

Upon successful connection, the LCD keys on the device will illuminate, indicating it is powered on and ready for configuration.

3. **Install Software:** Download the official VSD Craft software from the VSDINSIDE website. This software is required for customizing the keys and accessing advanced features.

Note: Some users have reported issues downloading the Mac version of the software. If you encounter difficulties, please refer to the Troubleshooting section or contact customer support.

4. **Adjust Kickstand:** The device features an adjustable kickstand for ergonomic positioning. Gently pull out the

stand from the back of the unit to set it at your preferred angle.

PLUG-AND-PLAY

Simply connect via USB-C and start using in seconds.

Non-Slip Rubber Base
Ensures stable placement on any desk or surface.

RGB Light Strip
Smart RGB Dynamic Color Shifting - 360° Surround Lighting for Elevated Ambience.

Adjustable Ergonomic Stand
Customize the angle for comfortable desktop use.

4. OPERATING INSTRUCTIONS

4.1 Key Customization

The VSDINSIDE Macro Keypad features 18 programmable keys (15 visual LCD keys and 3 physical buttons) that can be customized using the VSD Craft software.

1. **Launch VSD Craft:** Open the VSD Craft application on your computer. Ensure your Macro Keypad is connected.
2. **Drag and Drop Actions:** Within the software interface, you can drag and drop various actions onto the virtual keys displayed. These actions can include:
 - Launching applications or websites
 - Executing single or multi-step macros (e.g., game combos, text input)
 - Controlling media playback
 - Switching scenes in streaming software like OBS or Streamlabs

- Triggering sound effects

3. **Personalize LCD Keys:** Each LCD key can be personalized with custom images or animations (JPG, PNG, GIF) for easy identification.
4. **Utilize "Operation Follow" Feature:** For advanced users, the "Operation Follow" feature allows for executing multiple macro operations simultaneously or in a specific sequence.

4.2 RGB Light Ring

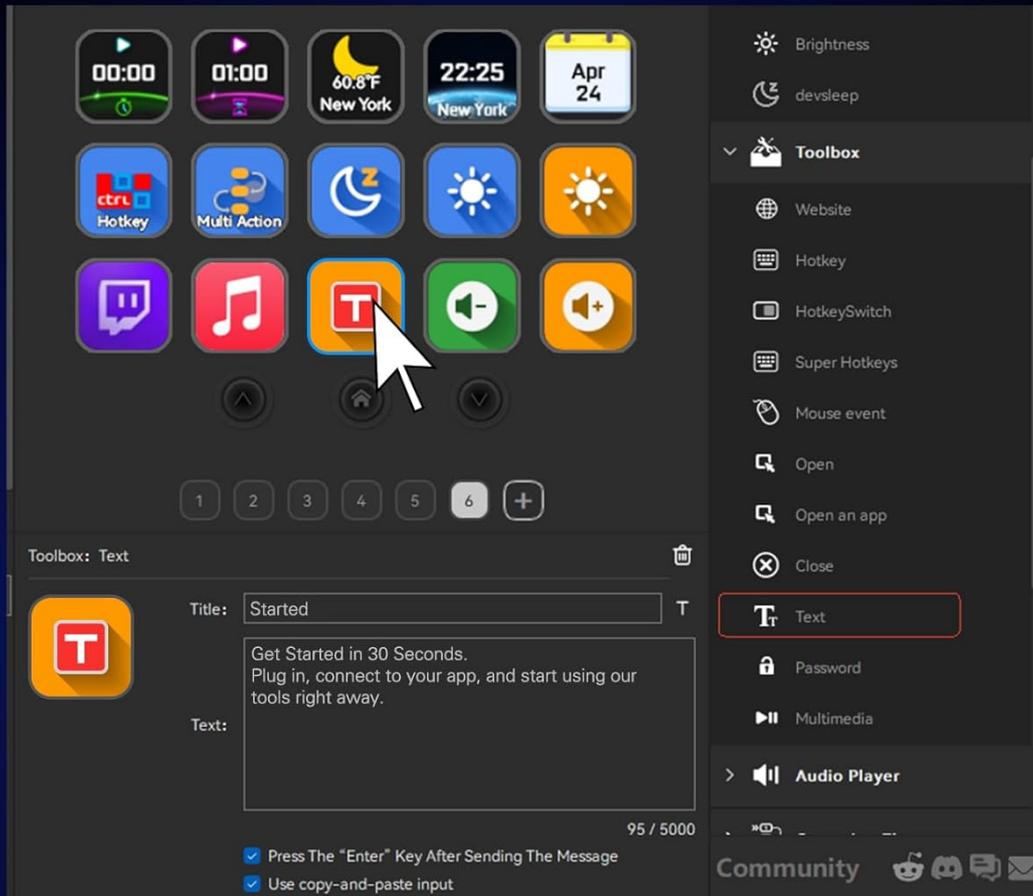

The device features a surrounding RGB light ring that supports automatic color cycling and custom RGB colors. This can be configured via the VSD Craft software to match your desktop setup or preferences.

4.3 Compatibility

The VSDINSIDE Macro Keypad is compatible with:

- Windows 11 and above
- macOS 11.0 and above

It integrates with popular software including OBS, Streamlabs, YouTube, Twitter, Discord, Excel, Word, and Photoshop.

EASY CONFIGURATION

Drag and drop actions onto the keys in the Streaming Deck app, and personalize them with your chosen icons.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the device. Avoid using abrasive cleaners or solvents.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid bending or twisting the USB cable excessively to prevent damage.

6. TROUBLESHOOTING

- **Device Not Powering On:**
 - Ensure the USB cable is securely connected to both the Macro Keypad and your computer.
 - Try connecting to a different USB port on your computer.
 - Verify that your computer's USB ports are functioning correctly.
- **Software Download Issues (Mac):**

- If you experience difficulty downloading the VSD Craft software for macOS from the official website, try using a different web browser or checking for direct download links on support forums.
 - Ensure your macOS version meets the minimum requirement (macOS 11.0 or above).
- **Macros Not Functioning Correctly:**
 - Verify that the VSD Craft software is running and the device is recognized.
 - Double-check your macro configurations within the software for correct key assignments and sequences.
 - Some complex macros or timing-sensitive actions might require adjustments. Refer to the software's help documentation for advanced macro creation.
 - **Display Issues (LCD Keys):**
 - If LCD keys are not displaying images or animations correctly, ensure the image files are in supported formats (JPG, PNG, GIF) and within recommended size limits (if specified by software).
 - Restart the VSD Craft software and reconnect the device.
