

Diffuserlove DF-2505

Diffuserlove Ship Aromatherapy Diffuser Humidifier User Manual

MODEL: DF-2505

Introduction

The Diffuserlove Ship Aromatherapy Diffuser Humidifier (Model DF-2505) combines the benefits of an essential oil diffuser with a cool mist humidifier. Designed to enhance your environment, it features multiple misting and lighting modes, and an automatic shut-off for safety. This manual provides detailed instructions for safe and effective use of your device.

Setup Instructions

1. **Open the Diffuser:** Gently lift the top section of the ship-shaped diffuser to access the water tank.
2. **Connect Power:** Locate the USB Type-C port on the side of the diffuser. Connect the provided USB Type-C cable. Note: A wall adapter (5V 2A) is not included and must be supplied separately.
3. **Fill Water Tank:** Fill the water tank with clean tap water up to the 'MAX' line. Do not overfill. For best results and to prevent mineral buildup, distilled water is recommended.
4. **Add Essential Oil:** Add 5-10 drops of your preferred essential oil directly into the water tank. Adjust the amount based on desired aroma intensity.
5. **Close the Diffuser:** Carefully place the top section of the ship back onto the base, ensuring it is properly aligned.
6. **Placement:** Place the diffuser on a stable, flat surface to prevent accidental spillage.

This image illustrates the four key steps for setting up your Diffuserlove Ship Aroma Diffuser: 1. Connect the USB Type-C power cord to the port on the side of the ship. 2. Add water to the tank, ensuring it does not exceed the MAX line, then add 5-10 drops of your preferred essential oil. 3. Carefully place the top cover back onto the base. 4. Press the power button to begin diffusing.

Operating Instructions

Mist Control

The diffuser offers two misting modes:

- **Continuous Mist:** The diffuser will continuously emit mist until the water tank is empty or the timer runs out.
- **Intermittent Mist:** The diffuser will mist for 30 seconds, then pause for 30 seconds, repeating this cycle.

To select the mist mode, short press the **MIST** button (usually the right button). The default setting is continuous mist. Press once for intermittent mist, press again to return to continuous mist.

Timer Settings

The diffuser features four timer modes:

- **ON:** Continuous operation until water runs out.
- **30S Intermittent:** Mists for 30 seconds, pauses for 30 seconds.
- **2H:** Operates for 2 hours, then automatically shuts off.
- **4H:** Operates for 4 hours, then automatically shuts off.

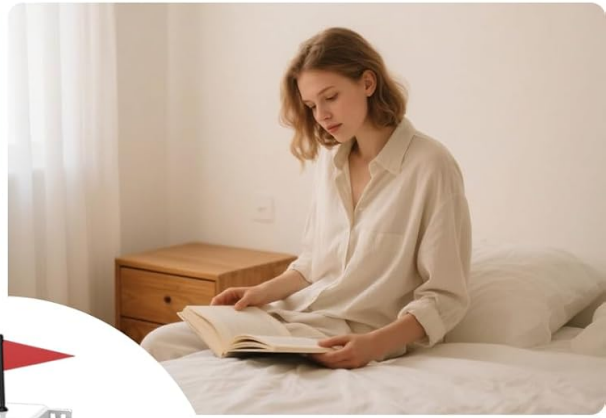

To cycle through the timer settings, short press the **MIST** button. Indicator lights will show the selected timer mode.

Continual output

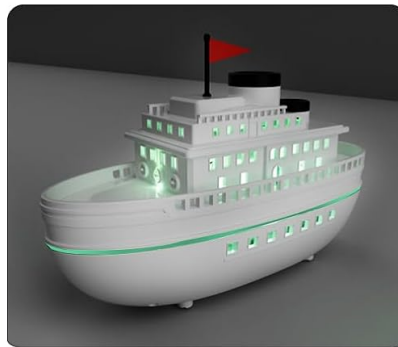

This image displays the four available timer modes for the diffuser: 1 hour, 2 hours, 30 seconds intermittent mist (30s on, 30s off), and continuous operation (ON) until the water runs out.

Lighting Control

The diffuser features 7 soothing LED lighting colors. The light and mist functions can be used independently.

- **Cycle Colors:** Short press the **LIGHT** button (usually the left button) to cycle through the 7 colors.
- **Fix Color:** Press the **LIGHT** button a second time to lock the current color.
- **Turn Off Light:** Long press the **LIGHT** button to turn off the light function.

Colorful Atmosphere Lamp

The diffuser features 7 soothing LED lighting colors. This image shows the ship diffuser illuminated in various colors, demonstrating the ambient lighting options available.

Maintenance

Regular cleaning is essential to ensure optimal performance and longevity of your diffuser.

1. **Empty Water:** Before cleaning, ensure the diffuser is unplugged. Empty any remaining water from the tank.
2. **Wipe Clean:** Wipe the water tank and the exterior of the diffuser with a soft, damp cloth. Avoid using harsh detergents or abrasive materials.
3. **Dry Thoroughly:** Allow all parts to air dry completely before the next use or storage.
4. **Prevent Mineral Buildup:** If using tap water, clean the ultrasonic plate regularly to prevent mineral buildup, which can affect mist output. A cotton swab dipped in white vinegar can be used for this purpose.

Troubleshooting

If you encounter issues with your diffuser, please refer to the following common problems and solutions:

- **No Mist Output:**

- Ensure the water level is above the minimum mark and below the 'MAX' line.
- Check if the power cable is securely connected.
- Clean the ultrasonic plate for any mineral buildup.

- **Weak Mist:**

- Ensure the water is clean and fresh.
- Clean the ultrasonic plate.
- The strength of the mist may vary depending on the type of water, air humidity, and temperature.

- **No Light:**

- Ensure the diffuser is powered on.
- Press the LIGHT button to activate the lighting function.

- **Accidental Leakage:**

- If the unit is knocked over or tipped during use, immediately unplug it.
- Remove the cover and drain any remaining water.
- Shake the unit gently to remove water and allow it to air dry for at least 24 hours before next use.

Product Specifications

Feature	Specification
Brand	Diffuserlove
Model Name	DF-2505
Capacity	300 Milliliters
Runtime	Up to 8 hours (continuous mist)
Power Source	Corded Electric (USB Type-C)
Material	Acrylonitrile Butadiene Styrene (ABS)
Special Features	Aromatherapy, Automatic Shut-Off, 7 Soothing Lighting Colors, Low Noise (<30dB)
Item Dimensions (L x W x H)	10"L x 4.5"W x 6"H
