Carlinkit CPC200-Tbox

Carlinkit Wireless CarPlay Adapter with Android 13.0 System (Model CPC200-Tbox) User Manual

Enhance your in-car experience with advanced multimedia and connectivity.

1. INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Carlinkit Wireless CarPlay Adapter with Android 13.0 System. Please read this manual thoroughly before using the device to ensure optimal performance and safety. This device is designed to upgrade your vehicle's infotainment system by providing wireless CarPlay, wireless Android Auto, and access to various Android applications.

2. PRODUCT OVERVIEW

The Carlinkit Wireless CarPlay Adapter (Model CPC200-Tbox) is a versatile multimedia box that integrates the Android 13.0 operating system into your car's display. It features a Qualcomm SM6115 Quad-core processor, Adreno 610 GPU, 4GB RAM, and 64GB internal storage, ensuring smooth performance for various applications.

Key Features:

- Wireless CarPlay and Wireless Android Auto functionality.
- Integrated Android 13.0 system.
- Support for popular streaming applications such as Netflix, YouTube, and TikTok.
- Qualcomm SM6115 Quad-core processor with Adreno 610 GPU.
- 4GB RAM + 64GB ROM for efficient multitasking and storage.
- Voice control support for Siri and Google Assistant.
- GPS+Glonass navigation support.

What's in the Box:

- 1x Carlinkit Wireless CarPlay Adapter (CPC200-Tbox)

- 2x Data Cables (USB-A to USB-C, USB-C to USB-C)
- 1x Product Manual

Image 2.2: The complete package contents, including the Carlinkit device, two data cables (USB-A to USB-C and USB-C to USB-C), and the user manual.

3. SETUP

Follow these steps for the initial setup of your Carlinkit Wireless CarPlay Adapter:

1. **Prepare Your Vehicle:** Ensure your car has an OEM wired CarPlay or wired Android Auto system. The device requires a USB port for connection.

2. **Connect the Adapter:** Using one of the provided data cables (USB-A to USB-C or USB-C to USB-C, depending on your car's port), connect the Carlinkit adapter to your car's USB port.

3. **Initial Boot-up:** Once connected, the adapter will power on, and an indicator light on the device will illuminate. Your car's screen should display the Carlinkit interface or prompt for CarPlay/Android Auto activation.

4. **Pair Your Phone:** On your phone, enable Bluetooth and Wi-Fi. Search for the Carlinkit device in your Bluetooth settings and pair with it. Follow any on-screen prompts on your car's display to complete the connection for Wireless CarPlay or Wireless Android Auto.

4. OPERATING INSTRUCTIONS

4.1 Wireless CarPlay and Android Auto

Once paired, your phone will automatically connect to the Carlinkit adapter when you start your vehicle. You can then access CarPlay or Android Auto wirelessly on your car's display, utilizing navigation, music, calls, and messaging features.

4.2 Switching Operating Modes

To switch between CarPlay and Android Auto modes, locate the small pinhole button on the side of the adapter. Insert an ejection pin (not included, typically found with SIM card trays) and press for approximately 2-

3 seconds. The device will then switch to the alternative mode.

4.3 Application Usage

The Android 13.0 system allows you to download and install a wide range of applications from the integrated app store. Navigate the interface using your car's touchscreen or original control methods (e.g., rotary knob, steering wheel controls).

- **Navigation:** Utilize various GPS applications for real-time navigation.
- **Multimedia:** Stream videos from Netflix, YouTube, TikTok, and other platforms.
- **Voice Control:** Use voice commands with Siri (for CarPlay) or Google Assistant (for Android Auto and Android system) for hands-free operation.

5. MEDIA INTEGRATION

The Carlinkit adapter transforms your car's display into a comprehensive entertainment hub, allowing you to enjoy various media content directly on your car screen.

5.1 Streaming Services

Access pre-installed applications like Netflix, YouTube, and TikTok. You can also download other streaming services from the app store to enjoy movies, TV shows, and short-form videos.

6. COMPATIBILITY

The Carlinkit Wireless CarPlay Adapter is designed for broad compatibility with vehicles equipped with factory-installed wired CarPlay or wired Android Auto systems that feature a touchscreen display.

- **Vehicle Compatibility:** Supports over 600 car models with OEM wired CarPlay or wired Android Auto.
- **Phone Compatibility:**
  - For Wireless CarPlay: iPhone 6 and above (iOS 10.0 and up).
  - For Wireless Android Auto: Android phones with Android 11.0 and above.

Image 6.1: An overview of the Carlinkit adapter's universal compatibility, featuring various car models and detailing phone requirements for both Wireless CarPlay and Wireless Android Auto.

7. TROUBLESHOOTING

If you encounter issues with your Carlinkit Wireless CarPlay Adapter, please refer to the following common solutions:

- **No Connection:** Ensure the USB cable is securely connected to both the adapter and the car's USB port. Try a different USB port if available. Verify your car's wired CarPlay/Android Auto system is functioning correctly without the adapter.

- **Bluetooth/Wi-Fi Pairing Issues:** Make sure Bluetooth and Wi-Fi are enabled on your phone. Forget the device from your phone's Bluetooth settings and attempt to pair again.

- **Slow Performance:** Close unnecessary applications running in the background. Ensure the device's firmware is up to date (check for online updates in the system settings).

- **No Audio:** Check your car's audio input settings to ensure the correct source (e.g., USB Audio) is selected. Adjust volume levels on both the car and the adapter.

- **System Freeze/Crash:** Disconnect the adapter from the car's USB port, wait a few seconds, and then

reconnect it to restart the device.

If problems persist, please contact customer support for further assistance.
