Key Features

- **1.85" HD Display:** Features a 360*360 pixel touchscreen for clear visuals, even in direct sunlight.
- **1000mAh Large Battery Capacity:** Offers extended usage, typically 20-30 days depending on usage, with a full charge in 2.5 hours.
- **Integrated LED Flashlight:** A powerful utility for various situations, from outdoor adventures to power outages.
- **Bluetooth Calls & Notifications:** Allows answering/making calls and receiving message alerts directly from the watch when paired with a smartphone (Android 5.0+ / iOS 11.0+).
- **120+ Sport Modes:** Tracks various physical activities, providing data to help monitor and improve workouts.
- **Multiple Functions:** Includes weather forecast, voice assistant, alarm clock, timer, music control, camera control,

sedentary reminders, and more.

Setup Guide

1. Initial Charging

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a compatible power adapter (not included). A full charge typically takes approximately 2.5 hours.

2. App Installation and Pairing

To unlock the full potential of your LIGE Smart Watch, download and install the **FitCloudPro** app on your smartphone.

1. **Download the App:** Search for "FitCloudPro" on the Google Play Store (for Android) or Apple App Store (for iOS) and install it.
2. **Enable Bluetooth:** On your smartphone, navigate to your settings and ensure Bluetooth is turned on.
3. **Add Device:** Open the FitCloudPro app. Tap "Add New Device" or similar option. The app will search for available devices.
4. **Pair the Watch:** Select "EF13" from the list of found devices. Confirm the pairing request on both your phone and the smartwatch.
5. **Grant Permissions:** Follow the on-screen prompts in the app to grant necessary permissions for notifications, call access, and other features. This ensures full functionality.

3. Strap Adjustment

The watch comes with two interchangeable straps (steel and silicone) and a strap adjuster tool. Use the provided tool to adjust the metal strap for a comfortable fit by removing or adding links as needed.

Operating Instructions

Display and Navigation

The 1.85-inch full touchscreen allows for intuitive navigation. Swipe left, right, up, or down to access different menus, notifications, and quick settings. The physical buttons on the side provide additional control, typically for power on/off, screen wake, and quick access to specific functions.

Bluetooth Calls and Notifications

Once paired with your smartphone, you can manage calls and receive notifications directly on your watch.

- **Answering/Making Calls:** Tap the phone icon on the watch to access call history, contacts, or dial a number. When a call comes in, you can answer or reject it from the watch.

- **Message Alerts:** Notifications from apps like Facebook, WhatsApp, and Twitter will appear on your watch screen. Ensure appropriate permissions are granted in the FitCloudPro app.

Using the LED Flashlight

The smartwatch is equipped with a powerful LED flashlight. Access this feature through the watch's menu or a designated quick access button. It is useful for illuminating your path in low-light conditions or for finding items in the dark.

Sports Modes and Health Tracking

The watch supports over 120 sports modes and provides comprehensive health monitoring.

- **Activating Sport Modes:** Select your desired activity from the "Sports" menu. The watch will track metrics such as steps, distance, calories burned, and heart rate during your workout.
- **Heart Rate Monitoring:** The watch continuously monitors your heart rate, providing real-time data and historical trends in the app.
- **Sleep Monitoring:** Wear the watch to bed to track your sleep patterns, including deep sleep, light sleep, and awake times, helping you understand and improve your sleep quality.

Other Functions

The LIGE Smart Watch offers a variety of additional features:

- **AI Voice Assistant:** Interact with your watch using voice commands for tasks like setting alarms or checking weather.
- **Watch Faces:** Customize your watch face from over 200 options available in the app, or upload your own images.
- **Music Control:** Control music playback on your connected smartphone.
- **Camera Control:** Use your watch as a remote shutter for your phone's camera.
- **Weather Forecast:** Get real-time weather updates.
- **Alarm Clock & Timer:** Set alarms and use the timer function directly from your wrist.
- **Sedentary & Drinking Water Reminders:** Receive alerts to encourage activity and hydration.

Maintenance

Cleaning Your Smart Watch

Regularly clean your watch and strap to prevent skin irritation and maintain its appearance. Use a soft, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.

Water Resistance

The LIGE Smart Watch is IP68 waterproof, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for up to 30 minutes. It is suitable for daily use, hand washing, and light rain. However, it is not recommended for hot showers, saunas, or diving, as steam and high water pressure can compromise the seals.

Battery Care

To maximize battery lifespan, avoid fully discharging the battery frequently. Charge the watch when the battery level is low, and avoid leaving it uncharged for extended periods.

Troubleshooting

Issue	Possible Solution
Watch not turning on	Ensure the watch is fully charged. Connect to the charger and wait a few minutes before attempting to power on.
Cannot pair with phone	Ensure Bluetooth is enabled on your phone. Make sure the watch is within Bluetooth range (approx. 10 meters). Restart both the watch and your phone. Check if the FitCloudPro app has all necessary permissions. Forget the device in your phone's Bluetooth settings and try pairing again.
Notifications not received	Verify notification permissions are enabled in the FitCloudPro app and your phone's settings. Ensure the watch is connected via Bluetooth. Check if "Do Not Disturb" mode is active on either the watch or phone.
Inaccurate health data	Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone. Clean the sensor on the back of the watch.
Short battery life	Reduce screen brightness, limit frequent screen wake-ups, and disable unnecessary background features. Frequent use of calls or GPS (if applicable) can drain battery faster.

For further assistance, please refer to the comprehensive user manual included with your product or contact customer support.

Specifications

Feature	Detail
Brand	LIGE
Model Number	EF13-K-CA

Feature	Detail
Display Size	1.85 Inches
