PRODUCT OVERVIEW

Familiarize yourself with the headset's components and controls.

Image: Back view of the Battletron Wireless Gaming Headset, showing the location of the power button, USB-C charging port, and volume control.

1. **Power Button:** Used to power the headset on/off and for Bluetooth pairing.
2. **USB-C Charging Port:** Connect the USB-C cable here for charging.
3. **Volume Control:** Adjusts the audio output level.
4. **3.5mm Audio Jack:** For wired connection using the audio cable.
5. **Integrated Microphone:** For voice communication.

SETUP

1. Charging the Headset

Before first use, fully charge the headset.

- Connect the USB-C charging cable to the headset's USB-C port and the other end to a USB power source (e.g., computer, wall adapter).
- The LED indicator will show charging status (refer to LED behavior section if available, otherwise assume

standard red for charging, off/blue for full).

- A full charge takes approximately 2 hours.

2. Bluetooth Pairing (Wireless Mode)

To connect wirelessly to your device:

1. Ensure the headset is charged and powered off.
2. Press and hold the Power Button until the LED indicator flashes rapidly (usually blue/red), indicating pairing mode.
3. On your device (PC, console, smartphone), enable Bluetooth and search for available devices.
4. Select "Battletron BT-Gaming-01" from the list.
5. Once connected, the LED indicator will typically show a solid blue light or flash slowly.

3. Wired Connection (Audio Cable)

For a stable wired connection or when battery is low:

- Connect one end of the 3.5mm audio cable to the headset's audio jack.
- Connect the other end to the 3.5mm audio port on your PC, console controller, or other compatible device.
- For PCs with separate audio and microphone jacks, use the included PC adapter cable: connect the headset's 3.5mm cable to the female end of the adapter, then plug the two male ends into your PC's microphone and headphone jacks.

OPERATING INSTRUCTIONS

Power On/Off

- **Power On:** Press and hold the Power Button for approximately 3 seconds until the LED indicator lights up.
- **Power Off:** Press and hold the Power Button for approximately 5 seconds until the LED indicator turns off.

Volume Control

- Use the Volume Control dial/buttons on the headset to adjust the listening volume.
- You may also adjust the volume directly on your connected device.

Microphone Usage

- The integrated microphone is automatically active when the headset is powered on in wireless mode or connected via the PC adapter cable in wired mode.
- Ensure your device's audio settings are configured to use the headset's microphone as the input device.

Call Handling (if applicable)

When connected to a smartphone via Bluetooth:

- **Answer/End Call:** Press the Power Button once.
- **Reject Call:** Press and hold the Power Button for approximately 2 seconds.

MAINTENANCE

Proper care ensures the longevity of your headset.

- **Cleaning:** Use a soft, dry cloth to clean the headset. Do not use abrasive cleaners or solvents.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To preserve battery life, avoid fully discharging the headset frequently. Charge it regularly, even if not in use for extended periods.
- **Water Resistance:** This headset is not waterproof. Avoid exposure to liquids.

TROUBLESHOOTING

If you encounter issues, try these solutions:

Problem	Solution
Headset does not power on.	Ensure the headset is fully charged. Connect it to a power source and try again.
Cannot pair via Bluetooth.	<ul style="list-style-type: none">• Ensure the headset is in pairing mode (LED flashing rapidly).• Make sure Bluetooth is enabled on your device.• Move the headset closer to your device (within 10 meters).• Turn off and on Bluetooth on your device, then try pairing again.• Clear previous Bluetooth connections on your device if too many are stored.
No sound or low volume.	<ul style="list-style-type: none">• Adjust the volume control on the headset and your connected device.• Ensure the headset is properly connected (Bluetooth or wired).• If wired, check that the 3.5mm cable is fully inserted.• Check your device's audio output settings to ensure the headset is selected.
Microphone not working.	<ul style="list-style-type: none">• Ensure the headset is powered on (if wireless).• If wired to PC, ensure the PC adapter cable is correctly connected to both microphone and headphone jacks.• Check your device's audio input settings to ensure the headset's microphone is selected.• Ensure the microphone is not muted in your application or system settings.
