FunXplore PD-1029

FunXplore 71.1"L Large Outdoor Catio Cat Enclosure Instruction Manual

Model: PD-1029

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your FunXplore 71.1"L Large Outdoor Catio Cat Enclosure, Model PD-1029. Please read these instructions carefully before beginning assembly and retain this manual for future reference. This catio is designed to provide a safe and stimulating outdoor environment for multiple cats, featuring a weatherproof design and various access points.

SAFETY INFORMATION

- Ensure all components are securely fastened during assembly to prevent instability.
- Regularly inspect the catio for any signs of wear, damage, or loose parts. Tighten fasteners as needed.
- Place the catio on a level, stable surface to prevent tipping.
- Keep small children away from the assembly area.
- This product is intended for pet use only. Do not allow humans to climb on or in the enclosure, except for entry through the main door for cleaning or interaction.

PACKAGE CONTENTS

Your FunXplore Catio will arrive in two separate packages, which may be delivered at different times. Please ensure all packages have arrived before beginning assembly. Verify all parts against the included parts list (not provided in this manual) to confirm completeness. Assembly is required.

ASSEMBLY INSTRUCTIONS

Assembly of the FunXplore Catio requires careful attention to detail. It is recommended that two people assist with the assembly process to ensure stability and ease of construction. A stepladder will be essential for installing the roof components.

1. **Unpack and Organize:** Carefully unpack all components and lay them out in an organized manner. Identify all parts using the provided parts list. Note that some parts, such as parts 9 and 18, may be mislabeled but are present.
2. **Base Assembly:** Begin by assembling the base frame. Ensure all corner bars are reinforced and securely fastened for maximum stability.
3. **Wall Panel Installation:** Attach the side and back wall panels to the base. Pay attention to the orientation of panels with access doors.
4. **Internal Structure:** Install the multi-tiered observation decks, sisal scratching post, dual hideaways, and aerial crossing bridge as per the detailed instructions in your physical manual.
5. **Roof Installation:** The catio features a flip-friendly asphalt roof. Position it according to your preference (front or back slope). A stepladder is necessary for safe and proper roof installation. Ensure the roof is securely attached to provide weatherproof protection.
6. **Door Attachment:** Attach all six access doors, including the full-height front door and the four ground-floor side doors. Ensure hinges operate smoothly and latches secure properly.

OPERATING INSTRUCTIONS

Features and Usage

- **Weatherproof Design:** The asphalt roof is designed to withstand various weather conditions, including snow and hail, providing protection for your cats. The reinforced wooden bars enhance overall stability.
- **Window Access:** The catio can be connected directly to your home. Remove the back panel to align it with a window or pet flap, allowing your cats easy entry and exit between your home and the enclosure.

Outdoor Catio with Window Access

Remove the back panel to attach the catio to your window

- **Multi-Cat Capacity:** The catio includes four multi-tiered observation decks, a sisal scratching post, dual hideaways, and an aerial crossing bridge, providing diverse activity options for up to eight cats.

MAINTENANCE

- **Cleaning:** Regularly clean the interior and exterior surfaces of the catio. Use pet-safe cleaning solutions. The wooden surfaces can be wiped down with a damp cloth.
- **Inspection:** Periodically check all screws, bolts, and fasteners to ensure they remain tight. Re-tighten any loose connections to maintain structural integrity.
- **Wood Condition:** The catio is constructed from fir wood. While designed for outdoor use, prolonged exposure to extreme weather without additional protection may affect its longevity. Consider applying a pet-safe wood sealant annually if the catio is exposed to harsh elements.
- **Roof Integrity:** Inspect the asphalt roof for any damage or lifting, especially after severe weather. Repair as necessary to maintain its weatherproof properties.
- **Mesh Condition:** Check the wire mesh for any tears or damage that could compromise cat safety or allow escape. Repair or replace damaged sections promptly.

TROUBLESHOOTING

Common Issues and Solutions

- **Difficulty during assembly:**

Ensure all parts are correctly identified. Some users have reported that parts 9 and 18 may be mislabeled in the physical manual; cross-reference with diagrams carefully. Having a second person assist can significantly ease the process.

- **Instability after assembly:**

Verify that all screws and bolts are fully tightened. Ensure the catio is placed on a flat, level surface. The reinforced wooden bars at the corners are crucial for stability; double-check their secure attachment.

- **Cats not using higher levels:**

Some cats may be hesitant to explore new structures. Encourage them with treats or toys placed on higher platforms. Over time, most cats will become more comfortable and adventurous.

- **Water leakage:**

Ensure the asphalt roof is properly installed and all seams are sealed. While the roof is weatherproof, heavy sideways rain may still enter. Consider additional external covers for extreme weather conditions if necessary.

SPECIFICATIONS

Brand	FunXplore
Model Name	PD-1029
Item Dimensions (LxWxH)	71.1"L x 34.7"W x 72.9"H
Item Weight	132.6 Pounds
Material	Fir Wood
Color	Black
Special Feature	Durable Weatherproof Roof
Target Audience	Cats, house-cats
Included Components	Walk-in Catio (assembly required)
Specific Uses for Product	Indoor, Outdoor

WARRANTY AND SUPPORT

This FunXplore Catio comes with a **6-month warranty** from the date of purchase. This warranty covers manufacturing defects and material flaws under normal use. It does not cover damage resulting from improper assembly, misuse, neglect, accidents, or normal wear and tear.

For warranty claims, technical assistance, or to order replacement parts, please contact FunXplore customer support. Refer to your purchase documentation for specific contact details or visit the official FunXplore website.
