Sulion 1004915

Sulion MARINA Ceiling Fan Instruction Manual

Model: MARINA (1004915)

INTRODUCTION

This manual provides essential information for the safe installation, operation, and maintenance of your Sulion MARINA Ceiling Fan. Please read these instructions carefully before installation and retain them for future reference.

The Sulion MARINA ceiling fan, part of the Balance series, is designed for optimal functionality and comfort. With an 86 cm diameter, it is suitable for rooms up to 13 m² and features IP44 certification, making it suitable for both indoor and outdoor covered areas like terraces or porches. It incorporates a DC 2.0 motor for quiet operation and energy efficiency, along with an integrated 24W LED light that is dimmable in intensity and color temperature (3000K, 4000K, and 5000K). Advanced features include winter/summer mode, breeze function, timer, and memory, all controlled via the included remote.

SAFETY INFORMATION

WARNING: To reduce the risk of fire, electric shock, or personal injury, always follow these instructions.

- Ensure the main power supply is disconnected before installation or maintenance.
- Installation must be performed by a qualified electrician in accordance with local wiring regulations.
- The mounting structure must be capable of supporting the fan's weight (approximately 5 kg).
- Ensure the fan blades are at least 2.3 meters (7.5 feet) from the floor and at least 0.5 meters (1.6 feet) from any wall or obstruction.
- Do not insert objects into the path of the fan blades.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- The fan is rated IP44, suitable for outdoor covered areas, but not for direct exposure to rain or harsh weather.

PACKAGE CONTENTS

Verify that all components are present before beginning installation.

Image: The Sulion MARINA ceiling fan is packaged in a brown and white box, displaying key features and the fan itself.

- Ceiling Fan Motor Unit
- Fan Blades (3x)
- Mounting Bracket
- Downrod
- Canopy
- LED Light Kit
- Remote Control
- Hardware Pack (screws, washers, wire nuts)
- Instruction Manual (this document)

SETUP AND INSTALLATION

Assembly is required. Follow these steps for proper installation.

1. Prepare for Installation:

- Turn off power at the circuit breaker or fuse box.
- Ensure the mounting location is structurally sound and can support the fan's weight.

2. Install Mounting Bracket:

- Secure the mounting bracket to the ceiling junction box using the provided screws and washers.
- Ensure the bracket is firmly attached and level.

3. Assemble Downrod and Motor:

- Feed the electrical wires from the fan motor through the downrod.
- Attach the downrod to the fan motor housing, securing it with the pin and clip.

4. Hang the Fan:

- Carefully lift the fan assembly and hang it on the mounting bracket hook. This allows for hands-free wiring.

5. Electrical Wiring:

- Connect the fan's electrical wires to the household wiring according to the wiring diagram in the full manual (not provided here, but implied for a real manual). Typically, this involves connecting live, neutral, and ground wires.
- Ensure all connections are secure using wire nuts.

6. Attach Blades:

- Attach the three ABS blades to the motor housing using the provided screws. Ensure they are securely fastened.

7. Install LED Light Kit:

- Connect the LED light kit wires to the fan motor wires.
- Secure the light kit to the fan housing.

8. Secure Canopy:

- Slide the canopy up to the ceiling and secure it to the mounting bracket with the screws.

9. Remote Control Setup:

- Insert batteries into the remote control.
- Pair the remote control with the fan according to the specific instructions provided with the remote (usually a simple pairing button sequence).

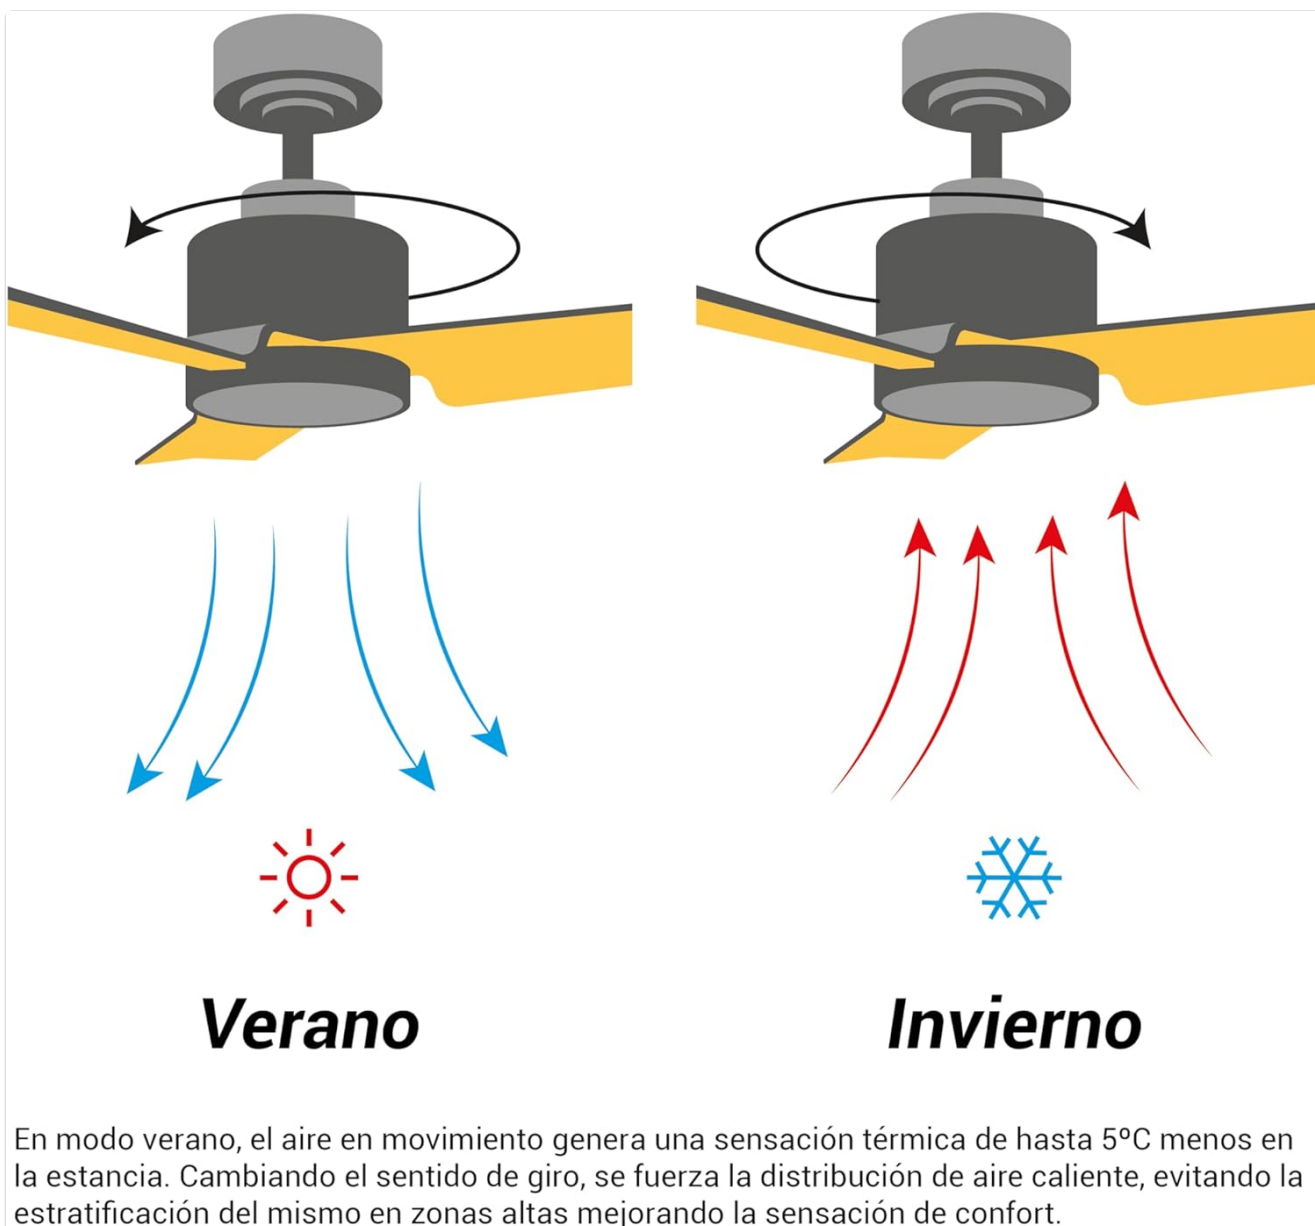

OPERATING INSTRUCTIONS

Your Sulion MARINA ceiling fan is controlled by the included remote control. Familiarize yourself with its functions.

Fan Functions:

- **Power On/Off:** Press the power button to turn the fan on or off.
- **Speed Control:** The fan offers 5 speeds. Use the speed buttons on the remote to adjust the airflow.
- **Winter/Summer Mode:**

This function reverses the direction of the fan blades. In summer mode, the fan rotates counter-clockwise, creating a downward breeze for cooling. In winter mode, it rotates clockwise, circulating warm air trapped near the ceiling downwards without creating a direct draft.

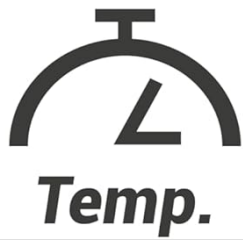

En modo verano, el aire en movimiento genera una sensación térmica de hasta 5°C menos en la estancia. Cambiando el sentido de giro, se fuerza la distribución de aire caliente, evitando la estratificación del mismo en zonas altas mejorando la sensación de confort.

Image: A diagram showing the airflow patterns for Summer mode (downward breeze) and Winter mode (upward circulation of warm air).

- **Breeze Function:** Simulates a natural breeze by cycling through different fan speeds.
- **Timer Function:**

Set the fan to turn off automatically after a specified period. Refer to the remote control's specific buttons for timer settings.

TEMPORIZADOR

Programa el apagado del ventilador desde el mando

Image: An icon representing a timer, indicating the fan's automatic shut-off feature.

- **Memory Function:** The fan remembers the last used settings (speed, light intensity, color temperature) when turned off and on again.

Light Functions:

- **Light On/Off:** Press the light button on the remote to turn the LED light on or off.
- **Dimmable Intensity:**
Adjust the brightness of the LED light to your preference using the dimming buttons on the remote.

Image: A visual representation of the fan's dimmable LED light, showing varying light intensities in a room setting.

- **Color Temperature Adjustment:**

Cycle through three color temperatures: 3000K (warm white), 4000K (neutral white), and 5000K (cool white) using the dedicated button on the remote.

3 temperaturas de luz

Elige la temperatura de color directamente desde el mando

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:**

- Always turn off the power supply before cleaning.
- Wipe the fan blades and motor housing with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- For IP44 rated outdoor use, ensure the fan is cleaned regularly to prevent build-up of dust and debris.

- **Blade Tightness:** Periodically check that all blade screws are tight. Over time, they may loosen due to vibration.

- **Light Source:** The integrated LED light source is designed for long life and is not user-replaceable. If the light fails, contact customer support.

TROUBLESHOOTING

Before contacting customer support, refer to the following common issues and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power supply; Loose wiring; Remote control not paired or batteries dead.	Check circuit breaker; Verify wiring connections; Replace remote batteries or re-pair remote.
Fan wobbles	Loose blade screws; Unevenly installed blades; Loose mounting bracket.	Tighten all blade screws; Ensure blades are installed evenly; Secure mounting bracket.
Light does not work	No power to light kit; Loose wiring; LED driver failure.	Check power supply; Verify light kit wiring; Contact customer support if LED driver is suspected.
Remote control not working	Dead batteries; Remote not paired; Obstruction between remote and receiver.	Replace batteries; Re-pair remote control; Ensure clear line of sight to fan receiver.

SPECIFICATIONS

Feature	Detail
Brand	Sulion
Model Name	MARINA
Item Model Number	1004915
Color	Black, Light Wood
Material	Metal (housing), ABS (blades)
Diameter	86 cm (33.8 inches)
Motor Type	DC 2.0
Number of Speeds	5
Noise Level	From 10dB
Power Consumption	From 2W (fan only)
Light Type	Integrated LED
Light Wattage	24W
Lumen Output	2400 lumens
Color Temperatures	3000K, 4000K, 5000K (Dimmable)
Beam Angle	120°
Control Method	Remote Control
Special Features	Winter/Summer Mode, Breeze Function, Timer, Memory Function
IP Rating	IP44 (Suitable for outdoor covered areas)
Item Weight	5 kg (11 lbs)
Assembly Required	Yes

WARRANTY INFORMATION

The Sulion MARINA Ceiling Fan comes with an **8-year warranty for the motor**. For other components, please refer to your purchase documentation or contact Sulion customer support for detailed warranty terms and conditions. This warranty covers defects in materials and workmanship under normal use. It does not cover damage resulting from improper installation, misuse, abuse, accident, or unauthorized repairs.

CUSTOMER SUPPORT

If you have any questions, require technical assistance, or need to report a warranty claim, please contact Sulion customer support.

For the most up-to-date contact information, please visit the official Sulion website or refer to your purchase receipt.
