Setup and Assembly

The TVON Floor TV Stand is designed for straightforward assembly. Please follow these instructions carefully. All necessary accessories are included to facilitate quick setup. Ensure you have adequate space and a clean work area before beginning assembly.

Before You Start:

- Unpack all components and verify against the parts list (not provided in this manual, refer to included packaging).
- Ensure all parts are free from damage. Do not proceed with assembly if any parts are damaged.
- Gather any necessary tools (e.g., screwdriver, wrench - typically included).

Assembly Steps:

1. Attach the base to the main support column.
2. Install the wooden shelf onto the main column at your desired height.
3. Assemble the TV mounting bracket and attach it to the main support column.
4. Secure the TV mounting arms to the back of your television, ensuring VESA compatibility.
5. Carefully lift and hang your television onto the assembled TV mounting bracket. Ensure the safety lock is engaged.
6. Route cables through the integrated cable management system.

Operating Instructions

The TVON Floor TV Stand offers several features for enhanced viewing flexibility and convenience.

Height Adjustment:

The TV mount allows for flexible height adjustment from 1132 mm to 1282 mm (from floor to the center of the TV mount).

To adjust the height, loosen the securing bolts on the main column, slide the TV mount to the desired position, and securely tighten the bolts. Always ensure the TV is stable after adjustment.

The top image shows the TV at its maximum height (50.5 inches from the floor to the top of the TV), while the bottom image shows it at its minimum height (44.6 inches). The media shelf height is also adjustable.

Swivel Function:

The TV mount can swivel 25° to the left and 25° to the right, providing a wide range of viewing angles. Gently rotate the television to achieve your preferred viewing position. Avoid forcing the swivel beyond its limits.

Cable Management:

The integrated cable management system helps keep your wires tidy and organized. Route your TV and media device cables through the designated channels to maintain a clean and clutter-free appearance.

Safety Lock and Anti-Fall Mechanism:

The TV mount includes a safety lock to securely hold your television in place. Additionally, an anti-fall lock is incorporated to prevent accidental drops, ensuring the safety of your equipment.

Maintenance

To ensure the longevity and proper function of your TVON Floor TV Stand, follow these simple maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, dry cloth. For stubborn marks, use a slightly damp cloth with a mild, non-abrasive cleaner. Avoid harsh chemicals that may damage the finish.

- **Inspections:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain stability.
- **Movement:** When moving the stand, ensure the TV is securely mounted and move it slowly and carefully, especially over uneven surfaces.

Troubleshooting

If you encounter any issues with your TVON Floor TV Stand, refer to the following common problems and solutions:

- **Stand is unstable:** Ensure all assembly bolts are securely tightened. Verify that the TV's weight and VESA pattern are within the stand's specifications. Place the stand on a flat, level surface.
- **TV does not swivel smoothly:** Check for any obstructions around the swivel mechanism. Ensure the TV is not overtightened to the mount, allowing for free rotation.
- **Difficulty moving the stand:** Ensure the hidden wheels are not obstructed by debris. If moving over carpet, apply gentle, consistent pressure.
- **TV not fitting the mount:** Double-check your TV's VESA pattern against the stand's supported VESA dimensions (100x100mm to 400x400mm). Ensure your TV size is within the recommended 32-70 inch range and its weight does not exceed 45 kg.
