4.8 Video Guide: Radio Features Overview

Your browser does not support the video tag.

Video: A brief demonstration of the key features and functionalities of the car radio, including navigation, media playback, and settings.

5. Troubleshooting

- **No Power:** Check all power cable connections. Ensure the vehicle's ignition is on. Verify the fuse.
- **No Sound:** Check speaker connections. Ensure volume is not muted or set to zero. Verify EQ settings.
- **Bluetooth/CarPlay/Android Auto Disconnection:** Ensure your phone's Bluetooth and Wi-Fi are enabled. Restart both the car stereo and your phone. Delete previous pairings and re-pair.
- **GPS Signal Issues:** Ensure the GPS antenna is correctly installed and has a clear view of the sky.
- **Touchscreen Unresponsive:** Restart the unit. If the issue persists, contact customer support.

- **Rear Camera Not Displaying:** Check the camera input cable connection. Ensure the camera is powered correctly and the reverse gear is engaged.
