ASTRALSHIP ASSM-01

ASTRALSHIP Slushie Machine Instruction Manual

Model: ASSM-01
Brand: ASTRALSHIP

INTRODUCTION AND OVERVIEW

Welcome to the world of instant frozen drink perfection with your new ASTRALSHIP Slushie Machine. This versatile appliance is designed to transform any beverage into a bar-quality frozen drink with ease. Featuring 5 preset modes (SLUSH, SPIKED SLUSH, FRAPPÉ, MILKSHAKE, JUICE), it adapts to a wide range of recipes, from smoothies for kids to frozen cocktails for adults. Equipped with RapidChill Technology and precise temperature control, it ensures consistent, silky, or frosty results every time.

The machine also boasts a smart detection system that monitors sugar and alcohol levels in real-time, providing alerts to ensure optimal consistency and safety. With its generous 64oz party-ready capacity (85oz overall machine capacity), you can serve over 10 drinks per batch, making it ideal for gatherings. Its Night Mode allows you to prepare drinks in advance and keep them chilled for up to 12 hours. Cleaning is effortless with a one-touch rinse cycle and dishwasher-safe removable parts. Built with BPA-free, ETL-certified materials, this energy-efficient and space-saving machine is designed for durability and convenience.

PRODUCT COMPONENTS

Your ASTRALSHIP Slushie Machine comes with the following main components:

- Slushie Machine Base Unit
- Transparent Vessel (85oz capacity)
- Paddle/Agitator
- Drip Tray
- Drip Tray Cover
- Dispensing Handle

The transparent vessel allows you to monitor the freezing process, while the paddle ensures consistent mixing. The drip tray catches any spills for a clean countertop.

SETUP

Before first use, ensure the unit is kept upright for at least 2 hours. The unit must be level before operation. This machine is designed for indoor use only.

1. Unpack all components and remove any protective packaging.
2. Place the machine on a stable, level countertop near a power outlet.
3. Ensure all removable parts (vessel, paddle, drip tray) are clean. Wash them with warm, soapy water or place them in the dishwasher (top rack recommended).
4. Assemble the paddle inside the transparent vessel, then securely place the vessel onto the machine base.
5. Plug the machine into a grounded electrical outlet.

OPERATING INSTRUCTIONS

Your ASTRALSHIP Slushie Machine offers intuitive one-touch operation with 6 preset modes for various frozen drinks.

1. Prepare your desired liquid mixture according to your recipe. Ensure all ingredients are fully dissolved before pouring into the vessel. Do not add ice cubes directly.
2. Pour the mixture into the transparent vessel. The machine has a 16oz minimum fill line and a 64oz maximum fill line.
3. Close the top cover securely.
4. Press the power button (

●● ONE TOUCH DESIGN ●● ●● SIX PRESET MODES ●●

) to turn on the machine.

5. Select your desired preset mode (SLUSH, SPIKED SLUSH, FRAPPÉ, MILKSHAKE, FROZEN JUICE) from the control panel. The machine will automatically set the optimal temperature for that texture. You can adjust the temperature using the arrow buttons if desired.
6. The machine will begin churning and cooling. The display will show the current temperature.
7. Once the frozen drink reaches the optimal temperature, the unit will beep. Serve immediately by pulling the dispensing handle.

Smart Detection System: The machine monitors sugar ($\geq 4\%$) and alcohol (2.8–16%) levels. An E1 error indicates low sugar (add syrup/honey), and an E7 warning indicates too much alcohol (dilute and reset). This ensures perfect consistency and taste.

MAINTENANCE AND CLEANING

Maintaining your ASTRALSHIP Slushie Machine is simple and hassle-free.

1. **One-Touch Rinse:** After use, simply press the RINSE button on the control panel. The machine will automatically clean itself in a 15-minute cycle.
2. **Detachable Parts:** All removable parts, including the vessel, paddle, and drip tray, are dishwasher-safe for thorough cleaning. Avoid using the heated dry cycle for these parts.
3. **Condensation Catch:** Remember to remove and clean the condensation catch after each use to prevent buildup.

TROUBLESHOOTING

The machine features an intuitive E1–E8 error guide to help you resolve common issues:

Error Code	Description/Solution
E1	Low sugar alert. Add syrup or honey.
E2	Restart machine.
E3	Reinstall components correctly.
E4	Level device.
E5	Restart machine.
E6	Add liquid.
E7	High alcohol warning. Dilute mixture and reset.
E8	Contact customer support.

If any of the resolving methods are invalid, please contact our support team.
