## PACKAGE CONTENTS

Verify that all items are present in the package:

- Turzx 3.5/5 Inch IPS USB-C Secondary Monitor
- USB-C to USB-A Cable
- Monitor Stand (if applicable)
- User Manual (this document)

## SETUP

1. **Connect the Monitor:** Connect the provided USB-C to USB-A cable from the monitor's USB-C port to an available USB-A port on your computer. Ensure the connection is secure.
2. **Position the Monitor:** Place the monitor on a stable surface using the included stand. Adjust the viewing angle for optimal visibility.
3. **Install Software (if required):** Depending on your operating system (Windows 10/11), specific driver or monitoring software may be required for full functionality. Refer to the manufacturer's website for the latest software downloads.
4. **Power On:** The monitor should power on automatically once connected to your computer.

## OPERATING INSTRUCTIONS

---

The Turzx secondary monitor is designed to display real-time system information from your computer. Once connected and any necessary software is installed, the monitor will automatically display data such as CPU usage, GPU temperature, RAM status, and HDD activity.

- **Display Modes:** The monitor may support various display layouts or themes. Consult the accompanying software (if any) for options to customize the displayed information.
- **Brightness Adjustment:** If available, brightness settings can typically be adjusted through the monitoring software or physical buttons on the device (refer to device for specific button locations).
- **Data Refresh Rate:** The refresh rate of the displayed data is usually configurable within the monitoring software.

## MAINTENANCE

---

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the screen and exterior. Do not use liquid cleaners or aerosol sprays directly on the monitor.
- **Storage:** When not in use for extended periods, store the monitor in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping or subjecting the monitor to strong impacts.

## TROUBLESHOOTING

---

Problem	Possible Solution
Monitor does not power on.	<ul style="list-style-type: none"><li>◦ Ensure the USB-C cable is securely connected to both the monitor and the computer.</li><li>◦ Try a different USB port on your computer.</li><li>◦ Verify that your computer's USB port provides sufficient power.</li></ul>
No data displayed or incorrect data.	<ul style="list-style-type: none"><li>◦ Check if the necessary monitoring software is installed and running on your computer.</li><li>◦ Restart the monitoring software and/or your computer.</li><li>◦ Ensure the software is configured to detect the monitor.</li></ul>
Screen flickering or unstable display.	<ul style="list-style-type: none"><li>◦ Ensure the USB-C cable is not damaged and is properly connected.</li><li>◦ Try a different USB port or cable.</li><li>◦ Reduce interference from other electronic devices.</li></ul>
