## Mingdaln G39fense

# Mingdaln G39fense Smartwatch User Manual

Model: G39fense | Brand: Mingdaln

## 1. INTRODUCTION

---

Thank you for choosing the Mingdaln G39fense Smartwatch. This device is designed to enhance your daily life with features such as call management, comprehensive sports tracking, activity monitoring, and IP68 water resistance. This manual provides detailed instructions on how to set up, operate, and maintain your smartwatch to ensure optimal performance.

## 2. WHAT'S IN THE BOX

---

Please check the contents of your package. If any items are missing or damaged, please contact customer support.

- Mingdaln G39fense Smartwatch (Pink)
- Charging Cable
- User Manual

## 3. PRODUCT OVERVIEW

---

Familiarize yourself with the physical components and display features of your Mingdaln G39fense Smartwatch.

Figure 3.1: Mingdaln G39fense Smartwatch. The main screen shows the time 09:30 and date 07/23/2023, with a floral background. Smaller insets illustrate key functions: a call log with contacts 'Jesse', 'Mike', and 'Lili'; a dial pad; and an incoming call screen showing 'Honey'.

The smartwatch features a 1.85-inch display and a single physical button on the side for navigation and power control. The back of the watch houses the charging contacts and sensors for health monitoring.

## 4. SETUP

---

### 4.1 Charging the Smartwatch

1. Connect the charging cable to a USB power adapter (not included) or a computer's USB port.
2. Align the magnetic end of the charging cable with the charging contacts on the back of the smartwatch. The cable will snap into place.
3. Ensure the watch screen indicates charging. A full charge typically takes approximately 2 hours.

**Note:** For initial use, fully charge the smartwatch before powering it on.

### 4.2 App Installation and Pairing

To unlock the full functionality of your smartwatch, download and install the companion application on your smartphone.

1. **Download the App:** Scan the QR code provided in the quick start guide (if available) or search for "Mingdaln Fit" (or similar name) in your smartphone's app store (App Store for iOS, Google Play Store for Android).
2. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
3. **Open the App:** Launch the installed application and follow the on-screen instructions to create an account or log in.
4. **Pair the Device:** Within the app, navigate to the "Device" or "Add Device" section. The app will search for available smartwatches. Select "G39fense" from the list.

5. **Confirm Pairing:** A pairing request may appear on both your phone and smartwatch. Confirm the pairing on both devices.

Once successfully paired, the smartwatch will synchronize data with your phone, and you can customize settings through the app.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Basic Navigation

- **Power On/Off:** Press and hold the side button for 3 seconds to power on or off.
- **Wake Screen:** Raise your wrist or press the side button.
- **Return to Home Screen:** Press the side button once.
- **Swipe Up:** Access notifications.
- **Swipe Down:** Access quick settings (e.g., brightness, do not disturb).
- **Swipe Left/Right:** Navigate through widgets and main functions (e.g., activity data, heart rate, weather).

### 5.2 Call Functions

The G39fense Smartwatch allows you to answer and make calls directly from your wrist when connected to your smartphone.

- **Answering Calls:** When an incoming call notification appears, tap the green phone icon on the watch screen to answer.
- **Rejecting Calls:** Tap the red phone icon to reject an incoming call.
- **Making Calls:** Access the "Phone" or "Dialer" app on your smartwatch. You can dial a number directly or select a contact from your synchronized phonebook.

### 5.3 Sport Modes

The smartwatch supports over 100 sport modes to track your workouts.

1. From the home screen, swipe to find the "Workout" or "Sport" icon and tap it.
2. Browse the list of available sports (e.g., running, cycling, swimming, yoga).
3. Select your desired activity to begin tracking. The watch will display real-time data such as duration, calories burned, and heart rate.
4. To pause or end a workout, swipe right or press the side button and follow the on-screen prompts.

### 5.4 Activity Tracking

Your smartwatch continuously monitors various health and activity metrics.

- **Steps & Distance:** View your daily step count and estimated distance covered.
- **Heart Rate:** Access the heart rate monitor to measure your current heart rate. The app can provide historical data.
- **Sleep Monitoring:** Wear the watch to bed for automatic sleep tracking, including sleep stages and duration.
- **Calories Burned:** Estimates calories burned based on your activity and personal data.

Detailed reports and historical data for all tracked activities are available in the companion smartphone application.

### 5.5 Water Resistance (IP68)

The Mingdai G39fense Smartwatch is IP68 rated, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for up to 30 minutes. This makes it suitable for daily use, including hand washing, rain, and shallow water activities like swimming.

#### Important Considerations:

- Do not use the watch in hot water, saunas, or steam rooms.
- Avoid exposing the watch to high-velocity water or strong water pressure.
- Water resistance is not a permanent condition and may decrease over time with normal wear and tear.
- After exposure to water, wipe the watch dry before charging or using the physical button.

## 6. MAINTENANCE

---

- **Cleaning:** Regularly clean your smartwatch and strap with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials.
- **Drying:** Ensure the watch is completely dry before charging or prolonged storage.
- **Storage:** Store the smartwatch in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the watch when the battery level is low.

## 7. TROUBLESHOOTING

---

| Issue                        | Possible Solution                                                                                                                                                                                                                                                                            |
|------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Smartwatch won't turn on.    | Ensure the watch is fully charged. Press and hold the side button for at least 10 seconds.                                                                                                                                                                                                   |
| Cannot pair with smartphone. | <ul style="list-style-type: none"><li>◦ Ensure Bluetooth is enabled on your phone.</li><li>◦ Make sure the smartwatch is within range.</li><li>◦ Restart both the smartwatch and your phone.</li><li>◦ Forget the device in your phone's Bluetooth settings and try pairing again.</li></ul> |
| Inaccurate activity data.    | Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone. Check personal information (height, weight) in the app for accuracy.                                                                                                                           |
| Notifications not received.  | <ul style="list-style-type: none"><li>◦ Check notification permissions in the companion app.</li><li>◦ Ensure the watch is connected via Bluetooth.</li><li>◦ Disable "Do Not Disturb" mode on the watch.</li></ul>                                                                          |
