Bealife QYF-TB40 41-D-P-EU

Bealife Tempered Glass Dining Table

Model: QYF-TB40 41-D-P-EU

Brand: Bealife

Introduction and Safety Warnings

This manual provides essential instructions for the assembly, use, and maintenance of your Bealife Tempered Glass Dining Table. Please read all instructions carefully before assembly and use to ensure safe operation and longevity of your product.

Attention:

- Carefully read the assembly instructions before assembling the table.
- Ensure the table is stable before placing objects on it or sitting on it.
- Observe weight restrictions and avoid placing the table in exposed locations to minimize the risk of injury or damage.
- Keep small parts away from children during assembly.

Bealife Tempered Glass Dining Table with black metal frame, set in a modern dining area with four chairs.

Package Contents

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- 1x Tempered Glass Tabletop
- 1x Metal Frame (legs and support structure)
- Assembly Hardware (screws, washers, Allen key if needed)
- Assembly Guide (this document)

Assembly Instructions (Setup)

Assembly typically requires two people. A screwdriver is recommended for tightening fasteners.

1. **Unpack Components:** Carefully remove all parts from the packaging. Place them on a soft, clean surface to prevent scratches.
2. **Assemble the Metal Frame:** Connect the metal legs to the support structure using the provided hardware. Ensure all screws are finger-tightened initially.
3. **Secure the Frame:** Once all frame components are in place, use a screwdriver to fully tighten all screws. Do not overtighten.
4. **Place the Glass Tabletop:** With assistance, carefully lift the tempered glass tabletop and align it with the assembled metal frame. Gently lower the glass onto the frame, ensuring it sits securely and evenly.
5. **Final Check:** Verify that the table is stable and all connections are secure before use.

Illustration of the simple assembly process, showing the tempered glass tabletop being lowered onto the metal frame.

The reinforced metal frame provides sturdy support, non-slip features, and enhanced stability.

Usage (Operating)

The Bealife Tempered Glass Dining Table is designed for versatile use in dining rooms, kitchens, living rooms, or office spaces. It provides ample space for 4-6 people.

- **Weight Capacity:** The table has a maximum load capacity of 150 kg. Do not exceed this limit to prevent damage or injury.
- **Placement:** Place the table on a flat, stable surface. Avoid placing it in areas with extreme temperature fluctuations or direct, prolonged sunlight, which can affect material integrity over time.
- **Hot Items:** While the tempered glass is heat resistant, it is recommended to use coasters or placemats for very hot dishes to protect the surface and prevent thermal shock.

Care and Maintenance

Proper care will ensure the longevity and appearance of your dining table.

- **Cleaning the Glass Top:** The high-density tempered glass tabletop is easy to clean. Use a soft cloth with a mild glass cleaner or a damp cloth with water. Avoid abrasive cleaners or scouring pads that can scratch the surface.
- **Cleaning the Metal Frame:** Wipe the metal frame with a soft, damp cloth. Dry immediately to prevent water spots or rust. Avoid harsh chemicals.
- **Scratch Resistance:** The glass is scratch-resistant, but not scratch-proof. Use placemats or felt pads under objects to prevent potential scratches.
- **Spills:** Wipe up spills immediately to prevent stains, especially on the metal frame.

The table features a smooth, waterproof, easy-to-clean, and scratch-resistant surface.

Troubleshooting

If you encounter any issues with your table, refer to the following common problems and solutions:

- **Table is Wobbly:**
  Solution: Check all screws on the metal frame to ensure they are securely tightened. Adjust the leveling feet (if present) on the bottom of the legs to compensate for uneven floors.
- **Glass Top Not Sitting Evenly:**
  Solution: Ensure the metal frame is assembled correctly and is not warped. Re-seat the glass top carefully, making sure it aligns perfectly with the frame's supports.
- **Scratches on Glass:**
  Solution: While the glass is scratch-resistant, deep scratches may occur from sharp objects. Minor scratches can sometimes be minimized with specialized glass repair kits, but prevention through careful use is best.

Specifications

Brand	Bealife
Model Number	QYF-TB40 41-D-P-EU
Product Dimensions (L x W x H)	120 x 70 x 75 cm (47.2 x 27.6 x 29.5 inches)
Product Weight	17.5 kg (38.6 lbs)
Maximum Weight Recommendation	150 kg (330 lbs)
Frame Material	Metal
Tabletop Material	6 mm Tempered Glass
Color (Frame/Top)	Black / Transparent
Shape	Rectangular
Seating Capacity	6 people
Assembly Required	Yes
Recommended Assembly Tools	Screwdriver
