## NARWAL S30

# NARWAL S30 Wet Dry Vacuum Cleaner User Manual

Model: S30

## 1. PRODUCT OVERVIEW

The NARWAL S30 is a cordless wet dry vacuum cleaner designed for efficient cleaning of hard floors. It combines vacuuming and mopping functionalities, featuring powerful suction, advanced self-cleaning capabilities, and user-friendly design for a comprehensive cleaning experience.

Image 1: NARWAL S30 Wet Dry Vacuum Cleaner. This image displays the main unit of the vacuum cleaner in its upright position.

### Key Features:

- **Deep Clean Wet & Dry Messes:** 20,000Pa suction and fresh water for simultaneous vacuuming and mopping.

- **One-Touch Self-Cleaning:** Roller mop self-washes with 176°F water and detergent, followed by heated drying.
- **Simple & Clean Waste Disposal:** Utilizes a disposable waste separation bag and a fresh box to minimize contact with mess and odors.
- **Dual-Layer Comb:** Actively untangles and guides hair into the suction path, keeping the roller tangle-free.
- **Flexible Maneuverability:** Lies 180° flat and turns 63° for cleaning under furniture and around obstacles.
- **Lightweight Design:** Facilitates effortless cleaning across large areas.

---

## 2. SETUP

### 2.1 Unboxing and Assembly

Carefully remove all components from the packaging. Ensure all listed items are present before proceeding with assembly.

# Narwal S30 Wet Dry Vacuum

High-Temp Self-Cleaning, Ready for Any Mess

20,000 Pa\*  
Suction Power

High-Temp  
Self Clean & Dry

180° Lie-Down  
& 63° Easy Turn

Built-in Detangling  
Comb

Light and Easy to Use

Image 2: NARWAL S30 Wet Dry Vacuum Cleaner and included accessories. This image shows the main unit, handle, self-cleaning base, adapter, cleaning brush, five waste separation bags, and an integrated deodorant module.

- 1. Attach the Handle:** Insert the handle into the main unit until it clicks securely into place.
- 2. Position the Self-Cleaning Base:** Place the self-cleaning base on a flat, stable surface near a power outlet.
- 3. Connect Power:** Plug the adapter into the self-cleaning base and then into a power outlet.

## 2.2 Initial Charge

Before first use, fully charge the vacuum cleaner. Place the main unit onto the self-cleaning base. The display will indicate charging status. A full charge typically takes approximately 3.5 hours.

## 2.3 Filling the Clean Water Tank

Locate the clean water tank on the main unit. Remove the tank and fill it with tap water. For optimal cleaning, add the recommended amount of NARWAL cleaning solution to the clean water tank. Reattach the tank securely to the main unit.

---

### 3. OPERATING INSTRUCTIONS

#### 3.1 Powering On and Selecting Modes

Tilt the vacuum cleaner back to activate it. Press the power button on the handle to turn the unit on. Use the mode selection button to cycle through available cleaning modes:

- **AI Smart Mode:** Automatically adjusts suction and water output based on detected dirt levels.
- **Max Enhancement:** Provides maximum power for heavy messes.
- **Suction Mode:** High suction for dry, hair-free floors.
- **Quiet Mode:** For quiet cleaning during day or night.
- **Wood Floor Mode:** Specifically designed for deep cleaning wood floors.

#### 3.2 Cleaning Wet and Dry Messes

The S30 is designed to handle both wet and dry debris simultaneously. Guide the vacuum cleaner across your hard floors. The powerful suction and continuous fresh water flow will clean up spills, crumbs, dust, and pet hair.

# High-Temp Self-Cleaning and Drying

176°F | 158°F

Self-Washing\*

Iron-Drying\*

\* Data from internal Lab Tests. 176°F was the maximum washing temperature and 158°F for the drying temperature. Actual performance may vary.

Image 3: NARWAL S30 cleaning performance on tile, marble, and hardwood floors, demonstrating its ability to tackle both wet and dry messes.

## 3.3 Maneuverability and Edge Cleaning

Utilize the 180° lie-down design to clean under low furniture and in tight spaces. The 63° turning angle allows for easy navigation around table legs and other obstacles. The triple-edge precision ensures thorough cleaning along baseboards and wall corners.

# Triple-Edge Precision

Image 4: NARWAL S30 showcasing its 180° lie-down capability for cleaning under furniture and a 63° turning angle for easy maneuverability.

# Zero Tangles, Minimum Maintenance\*

The dual-comb flattens and guides hair strands into the suction path—keeping the roller clean.

**Dual-Layer Comb**

\* Zero tangle rate performance certified by SGS and TÜV.

Image 5: NARWAL S30 demonstrating its triple-edge precision for cleaning right up to edges and into corners.

## 4. MAINTENANCE

### 4.1 One-Touch Self-Cleaning Cycle

After each cleaning session, place the vacuum cleaner back on its self-cleaning base. Press the self-clean button to initiate the automatic cleaning cycle. The roller mop will spin forward and backward with 176°F hot water and detergent to thoroughly clean every bristle. A built-in heated bar will then dry the roller at 158°F, preventing odors and keeping it fresh.

# Toss Without Touching Mess

Dry waste is collected in a disposable bag—grab and toss, no contact with the mess. The fresh box keeps smells away.

Video 1: Adjust Drying Intensity. This video demonstrates how to adjust the drying intensity of the roller mop after the self-cleaning cycle.

## 4.2 Emptying the Dirty Water Tank

The S30 uses a disposable waste separation bag for convenient and hygienic waste disposal. After the self-cleaning cycle, remove the dirty water tank and dispose of the waste bag. Rinse the tank with clean water and reinsert it into the vacuum cleaner.

# Reaches Those Tricky to Access Areas

\* Data from internal lab tests.

Image 7: NARWAL S30's disposable waste separation bag and Stay-Fresh Box for clean and easy waste disposal.

## 4.3 Tangle-Free Roller

The dual-layer comb actively untangles hair from the roller brush during operation, guiding it directly into the suction path. This design minimizes hair wrapping and reduces the need for manual hair removal from the brush.

# Glide Easy, Lift Light

**55 min**

Runtime\*

**9.17 lbs**

Lightweight Build

**3,700 ft<sup>2</sup>**

## 5. TROUBLESHOOTING

### 5.1 General Malfunctions

If the unit stops working unexpectedly, ensure it is fully charged and properly assembled. If the issue persists, please refer to the detailed troubleshooting section in the full user manual or contact customer support.

### 5.2 Suction Issues or Pausing

If suction power decreases or the unit pauses frequently, check the dirty water tank for fullness and the waste separation bag for blockages. Ensure the roller brush is free from excessive debris. When operating in a flat position (e.g., under

furniture), some reduction in suction may occur due to the altered airflow path. Refer to the user manual for specific guidance on pause functions and optimal operation angles.

### 5.3 Voice Prompts

If voice prompts are disruptive, consult the user manual for instructions on adjusting volume settings or disabling voice notifications.

### 5.4 Cleaning Dried-On Messes

While the S30 is highly effective for most wet and dry messes, extremely dried-on food or stubborn stains may require pre-loosening before vacuuming for best results.

## 6. SPECIFICATIONS

Feature	Detail
Brand	NARWAL
Model Name	S30
Suction Power	20,000Pa
Self-Cleaning Temperature	176°F (Self-Wash)
Heated Drying Temperature	158°F
Waste Disposal	Disposable Waste Bag
Tangle-Free Feature	Dual-Layer Comb
Cordless	Yes
Battery Life	Up to 55 minutes (Runtime)
Charging Time	3.5 Hours
Clean Water Tank Capacity	790 Milliliters
Noise Level	43 Decibels
Product Dimensions	9.72" L x 10.75" W x 45.8" H
Item Weight	9.17 pounds
Filter Type	HEPA Filter

## 7. WARRANTY AND SUPPORT

For warranty information, technical support, or service inquiries, please refer to the official NARWAL website or contact their customer service directly. Keep your purchase receipt for warranty claims.
