sonecesiya Accessories Kit Instruction Manual for Xiaomi Mijia 1C / 2C / Mi Robot Vacuum-Mop 2 Pro Plus

Model: YES0229C

INTRODUCTION

This manual provides instructions for the installation, maintenance, and replacement of components in the sonecesiya Accessories Kit for Xiaomi Mijia 1C / 2C / Mi Robot Vacuum-Mop 2 Pro Plus and compatible Dream F9 robot vacuum cleaners. This kit includes essential replacement parts to maintain optimal performance of your robot vacuum.

PRODUCT COMPONENTS

The sonecesiya Accessories Kit (Model YES0229C) includes the following components:

- 1 Main Brush
- 4 Side Brushes
- 2 Filters
- 3 Mop Pads
- 2 Cleaning Tools

INSTALLATION AND REPLACEMENT

Main Brush Installation

The main brush is designed for easy installation and removal. It features a floating structure for effective deep cleaning on various floor types, including hardwood, tile, marble, laminate, and linoleum. The brush is made of ABS, nylon, and rubber to minimize noise and prevent floor damage.

Anti-tangle Main Brush

- ✓ easy to install and disassemble
- ✓ easy to remove hair without tangling
- ✓ made of rubber and nylon, with low noise

Side Brush Installation

Side brushes are crucial for cleaning corners, edges, and crevices. They are made from soft nylon material to prevent damage to furniture and walls while effectively sweeping debris into the vacuum's path. Ensure the side brush is securely attached to the robot vacuum.

Nylon Side Brush

elastic material

nylon brush

**rotates with side bristle to
prevent hairs from getting
into structural gaps**

Filter Replacement

The high-efficiency particulate arrestance (HEPA) filter captures 99.97% of particles as small as 0.3 microns, preventing dust and allergens from being released back into the air. Replace filters regularly to maintain optimal air quality and vacuum performance.

High-Efficiency Particulate Arrestance Filter

Capture 99.97% of particles as small as 0.3 microns, intercept dust, and do not release it back into the air

Mop Pad Attachment

The microfiber mop cloths are designed for superior cleaning results, effectively capturing dust and debris. They are sewn tightly with edge locking treatment to ensure they remain secure during use and repeated cleaning. These pads are washable and reusable.

Washable and Reusable

MAINTENANCE

Cleaning Tools

The kit includes two cleaning tools to assist with maintaining your robot vacuum's components. Use the brush tool to remove dust and debris from filters and brushes. The comb tool can be used to cut and remove tangled hair from the main brush and side brushes.

How to make side brush hair straight?

① side brush maybe bent during the shipment.

② put side brush into hot water.

③ soak the side brush in hot water for minutes.

④ take it out and shake off excess water.

Image: Step-by-step guide on how to restore side brush bristles using hot water.

General Maintenance Tips

- Regularly check and clean the main brush to prevent hair tangling and ensure efficient operation.
- Inspect side brushes for wear and tear, and replace them if bristles are damaged or bent beyond repair.
- Clean or replace filters every 1-3 months, depending on usage, to maintain suction power and air quality.
- Wash mop pads after each use for optimal mopping performance.

SPECIFICATIONS

Feature	Detail
Brand	sonecesiya
Model Number	YES0229C
Compatibility	Xiaomi Mijia 1C / 2C / Mi Robot Vacuum-Mop 2 Pro Plus, Dream F9
Material	Acrylonitrile Butadiene Styrene, Fiber, Non-woven Fabric, Nylon, Rubber
Number of Pieces	12 (1 Main Brush, 4 Side Brushes, 2 Filters, 3 Mop Pads, 2 Cleaning Tools)

Item Weight	7.2 ounces
Product Dimensions	7.87 x 1.6 x 1.6 inches

TROUBLESHOOTING

This section addresses common issues related to the replacement parts. For comprehensive robot vacuum troubleshooting, please refer to your vacuum cleaner's original manual.

- **Reduced Suction Power:** Check and clean or replace the filter. Ensure the main brush is free of debris and hair.
- **Ineffective Edge Cleaning:** Inspect side brushes for damage or excessive wear. If bristles are bent, try the hot water method described in the Maintenance section, or replace the side brush.
- **Mop Pad Not Cleaning Effectively:** Ensure the mop pad is clean and properly attached. Replace if heavily soiled or worn.
- **Unusual Noises:** Check the main brush for tangled hair or foreign objects. Ensure all components are correctly installed.

WARRANTY AND SUPPORT

For information regarding product warranty or technical support, please contact the manufacturer, sonecesiya, directly. Refer to the product packaging or the seller's information on the purchase platform for specific contact details.
