Zevemomo Twin Over Twin & Twin XL Metal Triple Bunk Bed Instruction Manual

Model: bunk bed0121

Introduction	Safety Warnings	Parts List	Assembly	Operation	Maintenance
	Troubleshooting	Specifications		Warranty & Support	

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Zevemomo Twin Over Twin & Twin XL Metal Triple Bunk Bed. Please read all instructions carefully before assembly and use to ensure safe and proper functioning of the product. Keep this manual for future reference.

2. IMPORTANT SAFETY WARNINGS

- **Weight Capacity:** Do not load more than 250 lbs (113 kg) on the upper bunk and 350 lbs (159 kg) on each lower bunk. Exceeding these limits can cause instability and injury.
- **Assembly:** Follow all assembly instructions carefully. Incorrect assembly can lead to structural failure. It is recommended that two adults assemble this product.
- **Mattress Thickness:** Use a mattress with a recommended thickness of 4 to 6 inches (10-15 cm) for all beds. Ensure the upper bunk mattress does not exceed the guardrail height.
- **Guardrails:** The upper bunk is equipped with full-length guardrails for safety. Ensure they are always securely in place.
- **Ladder:** Always use the provided ladder for accessing the upper bunk. Do not jump on or off the bunk bed.
- **Regular Checks:** Periodically check all bolts and connections to ensure they remain tight. Retighten as necessary.
- **Children:** Bunk beds are not recommended for children under 6 years of age on the upper bunk.
- **Ventilation:** Ensure adequate ventilation around the bed.

Image: Illustration of the bunk bed's robust metal construction, indicating a 250 lbs weight capacity for the upper bed and 350 lbs for each of the two lower beds.

3. PARTS LIST

Before beginning assembly, please ensure all parts are present and undamaged. Refer to the detailed parts list and hardware pack included in your product packaging. If any parts are missing or damaged, do not proceed with assembly. Contact customer support for assistance.

Note: The product is shipped in two separate packages, which may arrive at different times. Please wait for both packages before starting assembly.

4. ASSEMBLY INSTRUCTIONS

Assembly typically takes under 90 minutes with two people. All necessary tools and instructions are included in the packaging. Follow the step-by-step diagrams provided in the physical manual for precise assembly.

1. **Unpack Components:** Carefully unpack all parts and hardware. Lay them out on a clean, soft surface to prevent scratches.
2. **Identify Parts:** Match each component with the parts list provided in your package.
3. **Assemble Lower Beds:** Begin by assembling the two individual twin-size lower beds according to the instructions. Note the small desk component that connects these two beds, providing additional stability and a functional surface.
4. **Assemble Upper Bunk Frame:** Construct the frame for the twin XL upper bunk.
5. **Attach Upper Bunk:** With assistance, carefully lift and secure the upper bunk frame onto the assembled lower beds. Ensure all connection points are aligned and fastened securely.
6. **Install Guardrails and Ladder:** Attach the full-length guardrails to the upper bunk and secure the ladder in its designated position.
7. **Final Tightening:** Once all components are in place, systematically tighten all bolts and screws. Do not overtighten.

8. **Safety Check:** Before use, perform a thorough safety check to ensure all connections are secure and the bed is stable.

5. OPERATING INSTRUCTIONS

5.1 Standard Bunk Bed Configuration

In its standard configuration, the Zevemomo Triple Bunk Bed provides one Twin XL upper bunk and two Twin lower bunks. The ladder provides access to the upper bunk. Ensure mattresses are properly placed and do not exceed the guardrail height on the upper bunk.

5.2 Converting to Three Separate Beds

This bunk bed features a detachable design, allowing it to be converted into three separate beds: one Twin XL bed and two Twin beds. This provides flexibility for different room layouts or as children grow.

1. **Remove Upper Bunk:** Carefully unfasten the connections securing the upper Twin XL bunk to the lower beds. With assistance, lift and move the upper bunk to its desired location.
2. **Separate Lower Beds:** Disconnect the small desk component that joins the two lower Twin beds. Each lower bed can then be moved and used independently.
3. **Re-secure Components:** Ensure any exposed connection points on the now separate beds are covered or safely secured if applicable.

6. MAINTENANCE

6.1 Cleaning

- Wipe the metal frame with a soft, damp cloth.
- Avoid using harsh chemicals, abrasive cleaners, or polishes, as these can damage the finish.
- Dry thoroughly after cleaning to prevent rust.

6.2 Regular Inspection

- Periodically inspect all bolts, screws, and connections to ensure they are tight. Loose connections can compromise the bed's stability and safety.
- Check for any signs of wear or damage to the metal frame, slats, guardrails, or ladder. If damage is found, discontinue use and contact customer support for replacement parts or advice.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed is squeaking or unstable.	Loose bolts or connections.	Check and tighten all bolts and screws. Ensure the bed is on a level surface.
Missing parts upon delivery.	Product shipped in multiple packages; parts may be in the second package. Or, parts were genuinely missing.	Verify if both packages have arrived. If parts are still missing, contact Zevemomo customer support with your purchase details.
Difficulty during assembly.	Incorrect step sequence or misidentification of parts.	Review the assembly instructions and diagrams carefully. Ensure parts are correctly oriented before tightening. Seek assistance from another person.

8. SPECIFICATIONS

Model: bunk bed0121

Brand: Zevemomo

Material: Metal

Color: Black

Overall Dimensions (L x W x H): 91.7" x 78.74" x 70.86" (232.9 cm x 200 cm x 180 cm)
