## 6. MAINTENANCE

Proper care will extend the life and appearance of your rocking chair.

- **Cleaning the Frame:** The powder-coated metal frame and PE rattan surface can be wiped clean with a damp cloth. Avoid abrasive cleaners or harsh chemicals.
- **Cushion Care:** The cushion is made of waterproof polyester fabric and filled with high-density PP cotton. For minor spills, spot clean with a mild detergent and damp cloth. Allow to air dry completely. For deeper cleaning, the cushion is removable.

- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Outdoor Use:** While suitable for outdoor use, prolonged exposure to extreme weather conditions (heavy rain, direct intense sunlight) may affect the product's longevity. Consider using a protective cover or storing indoors during harsh weather.

## 7. TROUBLESHOOTING

If you encounter any issues with your GIANTEX Rocking Chair, please refer to the following common solutions:

- **Chair feels wobbly:** Ensure all assembly screws and bolts are securely tightened. Check that the chair is placed on a flat, even surface.
- **Squeaking noise during rocking:** Apply a small amount of silicone-based lubricant to the joints of the rocking base if persistent squeaking occurs.
- **Cushion appears flat:** The high-density PP cotton cushion should regain its loft over time. Fluff the cushion regularly to maintain its shape and comfort.
- **Damage during shipping:** If any parts are damaged upon arrival, do not proceed with assembly. Contact customer support immediately for assistance.
