6. MAINTENANCE AND CARE

- **Cleaning:** The upholstered fabric and PU headboard should be spot cleaned only. Use a soft, damp cloth with a mild detergent for any spills or stains. Avoid harsh chemicals or abrasive cleaners.
- **Dusting:** Regularly dust the bed frame and headboard with a soft, dry cloth to prevent dust buildup.
- **Hardware Check:** Periodically inspect all bolts and screws to ensure they are tight. Re-tighten if necessary to maintain stability and safety.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading of the upholstery. Position the bed away from direct sunlight or use curtains/blinds.
- **Mattress Compatibility:** This platform bed is designed for mattresses between 10-14 inches in height.

7. TROUBLESHOOTING

- **Squeaking Noises:** If the bed frame squeaks, check all bolts and screws and tighten them. Ensure all slats are properly seated and secured.
- **Unstable Frame:** If the frame feels unstable, re-check all connections from the headboard to the footboard and side rails. Ensure the metal support legs are correctly installed and tightened.
- **USB Ports Not Working:** Verify that the bed frame's power cable is securely connected to a functional wall outlet via a USB power adapter. Check the connection of the USB cable to the side shelves.
