RichBird Revive Plus

RichBird Revive Plus Smart Bird Feeder with 4MP HD Camera Instruction Manual

Model: Revive Plus

INTRODUCTION

Thank you for choosing the RichBird Revive Plus Smart Bird Feeder. This innovative device combines a high-definition 4MP camera with a durable bird feeder, offering an immersive birdwatching experience. Featuring free AI bird identification, solar power for continuous operation, and seamless integration with the COOLFLY app, you can observe and learn about your feathered visitors from anywhere. This manual provides essential information for setting up, operating, and maintaining your smart bird feeder.

WHAT'S IN THE BOX

Please ensure all components are present before proceeding with the setup:

- Feeder (main unit)
- RichBird Camera
- Solar Panel
- Perch
- User Manual
- Charging Cable
- Installation Kit (Mounting Screws, Hose Clip, Black Strap)

Cloud Storage at No Cost

72H of Free Loop Cloud Storage within 2 Years
Supports up to a 128GB MicroSD card (Not Included)

SETUP

1. Assembly

Follow these steps to assemble your bird feeder:

1. Attach the perch to the feeder body by pressing it into the designated slots.
2. Position the roof onto the feeder body, ensuring the fastening buckles align correctly. Secure the buttons to ensure the lid is tightly fastened.
3. Insert the camera into its housing within the feeder.

Easy Setup in Minutes

2. Mounting Options

The RichBird Revive Plus offers versatile mounting options to suit your outdoor space:

- **Freestanding:** Place the feeder on a flat, stable surface.
- **Pole-Mounted:** Use the provided installation kit to attach the feeder to a pole.
- **Wall-Mounted:** Secure the feeder to a wall using the mounting bracket and screws.
- **Tree-Mounted:** Utilize the included strap and mounting bracket to attach the feeder to a tree.

Birding Community

Have fun with worldwide bird lovers

Image: Demonstrates the flexibility of the feeder's installation, showing it mounted on a tree, a pole, and a wall.

3. Powering the Device

The feeder is equipped with a 4400mAh battery and a solar panel for continuous power. Connect the solar panel to the feeder's charging port to ensure sustainable operation without frequent manual charging.

Image: The bird feeder is shown with its solar panel, highlighting its ability to operate year-round using renewable energy.

4. App Installation and Connection

Download the COOLFLY app to manage your bird feeder and access its smart features. The app is available on both Google Play and the App Store. Scan the QR code below or visit coolflycloud.com/download to get started. Ensure your device is connected to a 2.4GHz Wi-Fi network for optimal performance.

OPERATING INSTRUCTIONS

1. Live Bird Watching

The 4MP HD camera streams live video directly to your phone, providing real-time views of birds visiting your feeder. Instant notifications alert you to new visitors, ensuring you never miss a moment.

Instant Bird Alerts

Never miss a feathery visitor, bird watching anywhere and anytime

Image: A blue jay is shown at the feeder, with a smartphone screen illustrating the live video feed and instant notification feature.

2. AI Bird Recognition

The feeder's camera utilizes AI technology to recognize over 10,000 bird species. Upload your bird videos or images to Chirpchat or enjoy automatic recognition in video for free AI identification, with no subscription required.

Free AI Bird Recognition

Identify over **10,000 bird species**

No subscription needed

Video: An official RichBird guide explaining the AI bird identification feature and how to use it within the app.

3. Interactive Birding App (COOLFLY)

The COOLFLY app offers an interactive birdwatching community. Share your bird discoveries, communicate with fellow enthusiasts, watch bird videos from around the world, and learn more through fun games.

Connect & Share with Bird Lovers

Share your discovers and watch all kinds of birds from all over the world

Image: Multiple smartphone screens showcasing the COOLFLY app's community features, where users can share and explore bird sightings.

4. Multi-User Access

Share the joy of birdwatching with family and friends. The feeder supports up to five users to watch live simultaneously without a subscription. Subscription options are available for 20 or even unlimited concurrent viewers.

One Bird-Watching Camera for All

Supports up to 5 users to **watch live** simultaneously

Image: Depicts multiple users enjoying live bird visits on their phones, emphasizing the shared viewing experience.

5. Night Vision

The camera features full-color night vision, allowing you to capture stunning close-up bird moments day and night, ensuring no visitor goes unnoticed.

All-Weather Resistant Housing

Sunny

Rainy

Snowy

TROUBLESHOOTING

1. Squirrel Deterrence

If squirrels become an issue, utilize the two-way audio feature in the COOLFLY app to issue a voice warning or play an alert sound to effectively scare them away.

Scare Away Squirrels

Trigger the siren alarm/flashing light/speaking to scare away any unwanted visitors
