Tonnlog TL-V73

Tonnlog 128GB Digital Voice Recorder User Manual

Model: TL-V73 | Brand: Tonnlog

1. PRODUCT OVERVIEW

The Tonnlog 128GB Digital Voice Recorder (Model TL-V73) is a compact and powerful device designed for high-quality audio recording. It features 1536Kbps HD recording, voice activation, and a large 128GB storage capacity, making it ideal for lectures, interviews, meetings, and personal memos.

2. WHAT'S IN THE BOX

Upon opening your Tonnlog Digital Voice Recorder package, you should find the following items:

- 1 x Digital Voice Recorder (Tonnlog TL-V73)
- 1 x USB Type-C Cable
- 1 x Dual Type-C Short Cable
- 1 x Lanyard
- 1 x User Manual

Image: An illustration showing all items included in the product packaging: the digital voice recorder, cable with buttons, USB-C cable, USB-C to USB-C cable, headphone, lanyard, and manual.

3. SETUP AND INITIAL USE

3.1 Charging the Device

Before first use, fully charge the voice recorder. Connect the device to a power source using the provided USB Type-C cable. A full charge takes approximately 2 hours and provides up to 35 hours of continuous recording time.

Image: Visual depicting the long battery life of the Tonnlog voice recorder, showing 35 hours of recording, a 400mAh large battery, 1.5 hours charging time, and auto-save function.

3.2 Synchronizing Time

For accurate timestamping of your recordings, it is recommended to synchronize the voice recorder's time with your

local time before recording for the first time. This can typically be done when connecting the device to a computer for file transfer.

3.3 Basic Controls and Ports

Familiarize yourself with the device's buttons and ports:

- **Recording Button:** Slide up to record, slide down to save.
- **Power Button:** Located near the USB-C port.
- **Reset Key:** Small pinhole for resetting the device.
- **USB-C Charging Port:** For charging and data transfer.
- **3.5mm Headphone Jack:** For playback and settings adjustment.
- **Lanyard Hole:** For attaching the included lanyard.

4. OPERATING INSTRUCTIONS

4.1 One-Click Recording and Saving

The Tonnlog TL-V73 is designed for ease of use with its one-click operation:

- To start recording, simply slide the dedicated recording button **UP**. The device will begin recording immediately.
- To save the current recording, slide the recording button **DOWN**. The recording will be saved to the device's internal memory.

One-Click Recording & Saving

Image: A graphic illustrating the one-click recording and saving functionality of the Tonnlog voice recorder, showing the "Up: Record" and "Down: Save" actions.

4.2 Voice Activated Recording (VOR)

The voice activated recording feature allows the device to automatically start recording when sound is detected and pause when there is silence. This helps to minimize silent periods in your recordings and conserve memory.

- The sensitivity of the voice activation can be adjusted through the device settings (typically via headphones). There are 6 levels of sensitivity.
- When VOR is enabled, the recorder will only capture audio when sound is present, making it efficient for long sessions with intermittent speech.

Image: A visual representation of the voice activation mode, showing the recorder pausing when no sound is detected and resuming recording when speech is present.

4.3 Playback and Settings

To play back recordings or adjust device settings, connect the included headphones to the 3.5mm headphone jack. The wired controller on the headphone cable allows you to navigate menus, adjust volume, and play/pause recordings.

- **Volume + / -:** Adjust playback volume.
- **Previous / Next:** Navigate between files.
- **Play/Pause/Confirm:** Control playback and confirm selections.
- **Menu Key:** Long press to enter settings, short press to return.

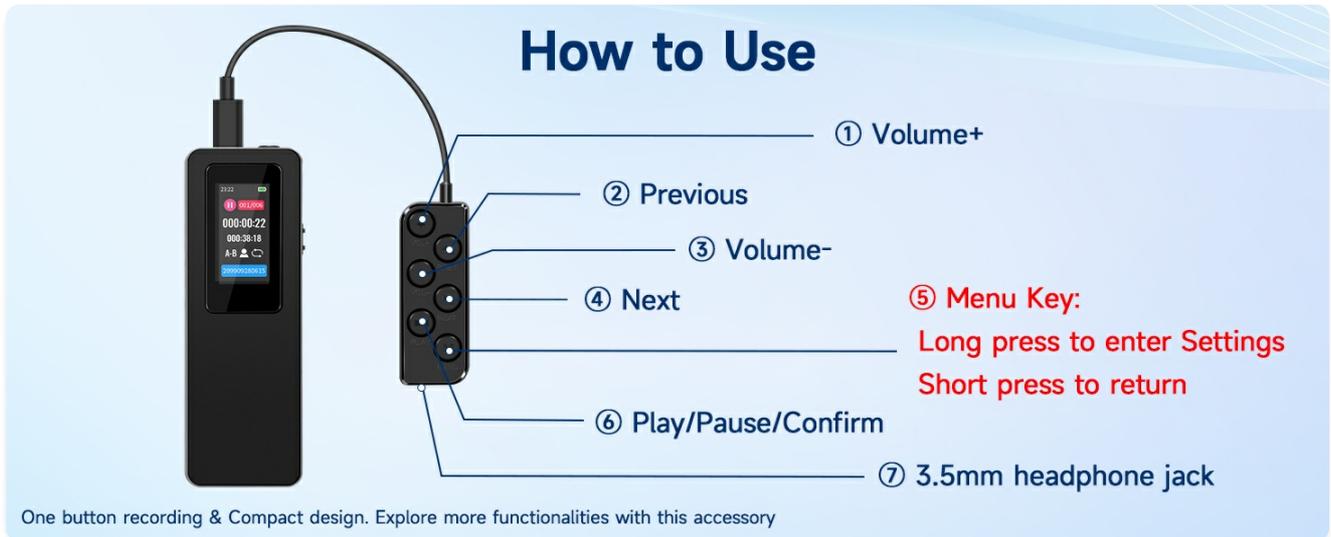

Image: Diagram showing the Tonnlog voice recorder connected to headphones with an inline controller, detailing the functions of each button for volume, navigation, play/pause, and menu access.

4.4 File Transfer

Recordings can be easily transferred to a computer (Windows/Mac) or an Android phone using the provided USB-C cable.

- **To Computer:** Connect the recorder to your computer via the USB-C cable. The device will appear as a removable drive, allowing you to drag and drop files.
- **To Android Phone:** Ensure your Android phone has OTG (On-The-Go) function enabled in its settings. Connect the recorder to your phone using the dual Type-C short cable. The phone should recognize the recorder as external storage. **Note: Not compatible with iPhone.**

Image: Step-by-step guide on connecting the Tonnlog voice recorder to an Android phone, including enabling OTG function and connecting the data cable.

4.5 Password Protection

For enhanced security, you can set a 6-digit password on your voice recorder. Once set, no one can access your recordings without the correct password.

Image: A visual representation of the password protection feature, showing a lock icon and the device screen prompting for a 6-digit password.

5. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your Tonnlog Digital Voice Recorder, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the device. Avoid using liquid cleaners or abrasive materials.
- **Storage:** Store the recorder in a cool, dry place away from direct sunlight, extreme temperatures, and high humidity.
- **Battery Care:** To preserve battery life, avoid fully discharging the battery frequently. If storing for a long period, charge the device to about 50% and recharge every few months.

- **Impact:** The device features a durable metal housing, but avoid dropping it or subjecting it to strong impacts.

6. TROUBLESHOOTING

If you encounter issues with your Tonnlog Digital Voice Recorder, refer to the following common solutions:

Problem	Possible Solution
Device not turning on.	Ensure the device is fully charged. If still unresponsive, try pressing the reset key with a thin object.
Cannot transfer files to iPhone.	The device is not compatible with iPhones for direct file transfer. Please use a computer (Windows/Mac) instead.
Poor recording quality.	Ensure the microphone is not obstructed. Check recording settings (bitrate) and consider using the voice activation feature to reduce background noise.
Device freezes or becomes unresponsive.	Use a thin object (like a paperclip) to press the reset key. This will restart the device without deleting data.

If the issue persists after trying these solutions, please contact Tonnlog customer support for further assistance.

7. SPECIFICATIONS

Feature	Detail
Model Number	TL-V73
Memory Storage Capacity	128 GB (up to 9280 hours at 32Kbps)
Recording Quality	Up to 1536Kbps (WAV), 32-160Kbps (MP3)
Battery Capacity	400 mAh
Continuous Recording Time	Up to 35 hours
Charging Time	Approx. 2 hours
Product Dimensions	3.09 x 1.02 x 0.27 inches (7.85 x 2.59 x 0.69 cm)
Item Weight	0.917 ounces (26 grams)
Hardware Interface	USB Type C
Microphone Form Factor	Built-In
Headphones Jack	3.5 millimeters

Feature	Detail
Compatible Devices	Personal Computer, Android Smartphone

8. WARRANTY AND SUPPORT

Tonnlog is committed to providing high-quality products and excellent customer service.

- **Warranty:** This product comes with a 2-year warranty from the date of purchase. Please retain your proof of purchase for warranty claims.
- **Technical Support:** Tonnlog offers lifetime technical support for its products.
- **Contact:** For any questions, technical assistance, or warranty claims, please contact Tonnlog customer support through the official channels provided on the product packaging or the Tonnlog website.
