SETUP AND INSTALLATION

The FORIOUS kitchen faucet is designed for DIY-friendly installation, typically taking about 15 minutes.

Before You Begin

- Shut off the water supply valves.
- Clean the area of the mounting holes before installation.
- Ensure the mounting hole size is between 1.31" - 1.5" (33-38mm).

Installation Steps

1. Take the faucet out of the packing box.
2. For a 1-hole sink, install the faucet directly. For a 3-hole sink, install the deck plate first, then the faucet.
3. Put the rubber washer, metal washer, and fixing nut onto the bottom of the faucet.
4. Use a cross screwdriver to tighten the 2 screws.
5. Connect the hot and cold supply hoses to the matching water valves.
6. Install the counterweight on the pull-down hose at the marked position.
7. Connect the sprayer to the water outlet.

OPERATING INSTRUCTIONS

Single Handle Operation

The single handle controls both water temperature and flow. Move the handle left for hot water and right for cold water. Lift the handle to increase flow and push down to decrease flow.

Pull-Down Sprayer with Dual Modes

- The sprayer features two modes: a steady stream for filling and a powerful spray for rinsing.
- Switch between modes using the button on the sprayer head.
- The 18-inch pull-down hose provides extended reach for cleaning all areas of the sink.
- A gravity ball ensures smooth retraction of the sprayer head back into the spout.

360° Swivel Spout

The high-arc spout swivels 360 degrees, offering full range of motion and flexibility for various kitchen tasks.

MAINTENANCE

- Always dry any water from the faucet surface.
- Clean with a damp, non-abrasive sponge and wipe with a clean, soft cloth.
- To maintain the finish, avoid using abrasive cleaners, polishing powder, granular detergent, or nylon brushes.
- If the water temperature is below 0°C, take measures to keep the faucet working correctly.
- Shut off the water supply valves when the faucet will not be in use for an extended amount of time.
