3. PACKAGE CONTENTS

Your WUNIAK Tempered Glass Screen Protector package includes:

- 2 x WUNIAK Tempered Glass Screen Protectors
- 1 x Installation Kit (includes cleaning wipes, dust removal sticker, and alignment frame)

Image: Contents of the WUNIAK screen protector package.

4. INSTALLATION GUIDE

Follow these steps carefully for a bubble-free and perfectly aligned installation:

1. **Prepare Your Workspace:** Choose a clean, dust-free environment. Wash your hands thoroughly to avoid transferring oils or dirt to the screen.
2. **Clean the Tablet Screen:**
 - Use the provided alcohol wipe to thoroughly clean the tablet screen, removing all smudges and fingerprints.
 - Follow with the dry microfiber cloth to wipe away any remaining moisture or streaks.
 - Use the dust removal sticker to dab the screen and lift any lingering dust particles. Ensure the screen is completely free of dust before proceeding.
3. **Position the Alignment Frame:** Place the alignment frame onto your BMAX MaxPad I8 Plus tablet. This frame helps ensure precise positioning of the screen protector.
4. **Apply the Screen Protector:**
 - Carefully peel off the protective film from the adhesive side of the screen protector (usually marked "Back" or "1"). Avoid touching the adhesive surface.
 - Align the screen protector with the alignment frame and gently lower it onto the tablet screen. The adhesive will begin to spread automatically.
 - Once the protector is fully seated, gently press down on the center of the screen protector.
5. **Remove Bubbles:** If any small bubbles remain, gently push them towards the edges of the screen using the microfiber cloth or a soft card. The bubble-free adhesive is designed to minimize air pockets.
6. **Final Touches:** Remove the alignment frame. Wipe the screen protector with the microfiber cloth to remove any final smudges.

Easy Installation & Bubble free

this glass screen protector can be easily installed without bubbles and removed without residues

Image: Easy installation process with bubble-free application.

5. MAINTENANCE

To keep your WUNIAK screen protector in optimal condition:

- Wipe the screen protector regularly with a clean, soft microfiber cloth to remove fingerprints and smudges.
- For stubborn marks, lightly dampen the microfiber cloth with water or a screen cleaner specifically designed for electronics. Avoid harsh chemicals or abrasive materials.
- Avoid placing your tablet with sharp objects in bags or pockets to prevent unnecessary scratches to the screen protector.

6. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Bubbles After Installation:**
 - **Small Bubbles:** Most small bubbles will disappear naturally within 24-48 hours. You can gently push them towards the edges with a microfiber cloth.
 - **Large Bubbles/Dust:** If a large bubble persists or you see a dust particle, carefully lift the nearest corner of the screen protector with a fingernail or a thin card. Use a dust removal sticker to lift the dust, then re-apply the protector.
- **Misalignment:** If the screen protector is significantly misaligned, carefully lift it from one corner and re-align it. It's best to do this immediately after initial application.
- **Reduced Touch Sensitivity:** Ensure the screen protector is clean. If the issue persists, re-installation might be necessary to ensure proper adhesion.
