6.3 Checking Battery Level

Press the power button on the side of the power bank to view the current battery level indicated by the LED lights. Each light typically represents a percentage of the total capacity.

7. MAINTENANCE

- Clean the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place away from direct sunlight and moisture.

- If not used for extended periods, charge the power bank at least once every three months to maintain battery health.

8. TROUBLESHOOTING

8.1 Power Bank Not Charging

- Ensure the USB-C cable is securely connected to both the power bank and the power source.
- Verify that the wall adapter is functioning correctly and plugged into a live outlet.
- Try using a different USB-C cable or AC adapter.

8.2 Device Not Charging from Power Bank

- Ensure the power bank has sufficient charge. Check the LED indicators.
- Make sure the Lightning connector is fully and correctly inserted into your device.
- Confirm your device is compatible with a Lightning connector.
- If the power bank has been used multiple times and is no longer charging, it might be defective. Contact customer support if issues persist.

8.3 Power Bank Overheating

- It is normal for the power bank to become slightly warm during charging or discharging.
- If the power bank becomes excessively hot or emits a burning smell, immediately disconnect it from all devices and power sources. Do not use it again and contact customer support.
