## ONBRILL 105-1

# ONBRILL L4 Wall Mounted Industrial Pipe Clothing Rack Instruction Manual

Model: 105-1 | Brand: ONBRILL

## 1. OVERVIEW

---

The ONBRILL L4 Wall Mounted Industrial Pipe Clothing Rack is a robust and versatile closet organizer system designed to maximize storage space. It features 6 sturdy closet rods, including 4 expandable rods, and 8 mesh shelves for organizing various clothing items and accessories. Its wall-mounted design ensures stability and durability, making it suitable for bedrooms, laundry rooms, clothing stores, and more.

## 2. SETUP AND INSTALLATION

The ONBRILL L4 closet system is designed for easy and secure assembly. Poles connect directly via threaded joints, which is a faster and more secure method compared to traditional screw-based installations. Detailed instructions for wall mounting and assembling the rack are included with the product.

### 2.1. Key Assembly Features

- **Threaded Joint Connections:** Ensures a rock-solid setup, saving time and effort.
- **Wall-Mounted Design:** Provides superior stability and prevents tipping compared to freestanding racks.
- **Height Adjustable Components:** Shelves and rods can be adjusted to accommodate various clothing sizes and storage needs.

### 3. OPERATING AND CUSTOMIZATION

The ONBRILL L4 system offers extensive customization to fit your specific space and storage requirements. Its modular design allows for various configurations and ample storage capacity.

#### 3.1. Storage Capacity

- 6 sturdy closet rods (4 expandable) for hanging jackets, t-shirts, pants, and dresses.
- 8 mesh shelves for organizing folded clothes, bags, hats, towels, shoes, suitcases, and accessories.
- Maximum load capacity of 1100 lbs.

# Versatile Closet Organizer

Ample storage space

**300+** T-shirt

**150+** Pants

**25+** Bags

**16+** Boxes

**30+** Shoes

## 3.2. Modular Configurations

The system's adjustable angles (180°, 90°, 45°) allow it to adapt to any room layout. It can be configured as a 3+0 or 2+1 wardrobe system for versatile storage solutions.

# Can Change Different Angles and Forms

Image 3.2: Examples of various customizable configurations.

Before extension: Support **15-20** garments

After extension: Support **35-40** garments

Image 3.3: Expandable rods increase hanging capacity.

## 4. MAINTENANCE

To ensure the longevity and appearance of your ONBRILL L4 clothing rack, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down metal pipes and mesh shelves with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the matte powder-coated finish.
- **Inspection:** Periodically check all threaded joints and wall mounting points to ensure they remain secure. Tighten any loose connections as needed.
- **Load Management:** While the rack is heavy-duty, avoid exceeding the maximum load capacity of 1100 lbs to prevent structural stress. Distribute weight evenly across rods and shelves.

## 5. TROUBLESHOOTING

### 5.1. Common Issues and Solutions

- **Rack feels unstable:** Ensure all wall screw fittings are properly installed and tightened. The wall-mounted design is

crucial for stability. Verify that the installation surface (gypsum board or concrete slab) is appropriate and that the correct wall screw accessories were used.

- **Hangers getting caught on expandable rods:** This can occur at the expansion points. When hanging clothes, be mindful of these sections.
- **Shelves not sitting flush/gaps between clips:** Gaps between plastic clips are normal and are part of the structural design, not a quality issue. When installing a shelf, apply appropriate force to ensure the clip and shelf are more secure.

## 6. SPECIFICATIONS

Feature	Detail
Brand	ONBRILL
Model Number	105-1
Product Dimensions (L x W x H)	11.8 x 119.3 x 88.6 inches
Installation Method	Wall Mounted
Included Components	6 rods, 8 pieces of mesh, Wall Screw Fittings
Special Features	Wall Mounted
Color	White
Unit Count	1.0 Count
Assembly Instructions Description	Includes detailed instructions for wall mounting and assembling the rack, with threaded joint connections for faster and more secure setup.

# Weight Capacity: 950 LBS

Assembly Space: at least a height of 7'6"
