Players take turns in a clockwise direction. On your turn, follow these steps:

1. **Roll the Dice:** Roll the single dice.
2. **Move Your Pawn:** Move your pawn clockwise along the path on the game board the number of spaces indicated by the dice roll.
3. **Collect an Object Chip:** If you land on a space with an object chip icon, you may take one face-down object chip from the pile. Keep your collected chips face up in front of you. If you already have that

specific object chip, you may choose not to take it, or you can take it and discard it if you wish.

4. **Special Spaces:** Some spaces may have special instructions. Follow these instructions immediately.
